Mexico, in order to send assistance to the rebels, foster the civil war, and inflict upon our country all the calamities by which it is followed. In the United States, our sacient ally depeditions are now organized similar to thit headed by the traitor Jose Antonio Mejia, and some have even set out for Texas. They have been furnished with every kind of ammunition, by means of which the revolted colonists are enabled to resist and fight the nation from which they never have received but immense benefits. The government is also positively informed that these acts, condemned by the wisdem of the laws of the United States, are also reported by the general government, with which the best intelligence and the greatest harmony still prevnil. Mowever, as these adventurers and speculators have succeeded in escaping the penal tes in mony still preyail. Mowever, as these adventurers and speculators have succeeded in excaping the penal tree inflicted by the laws of their own country, it becomes necessary to adopt measures for their punishment. His excellency the president ad interim, anxious to repress hose aggressions which constitute noonly an offence to the sovereignty of the Mexican nat tion, but also to an ovident violation of international laws as they are generally adopted, has ordered the following descrets to be ephoreed.

1st. Foreigners landing on the coast of the republic or invading its territory by land, armed and with the intention of attacking cur country, will be deemed prizates and dealt with as such, being citizens of ne nation presently at war with the republic, and fighting under no recognised flag.

2nd. All foreigners who will import either by sea ar land, in the places occupied by the rebels, either arms or ammunition of any kind for the use of them will be deemed pirates and punished as such.

1send you these decrees, that you may cause them to be fully executed.
