WAR AND NAVY DEPARTMENT.

Circular—The government has received information that, in the United States of North America, meetings are called for the avowed purpose of getting up and fating out expeditions against the Republic of Mexico, in order to sand assistance to the rebels, foster the civil war, and inflict upon our country all the calamities by which it is followed. In the United States, our ascient ally expeditions are now organized similar to that headed by the traitor Jose Antonio Meija, and some have even set out for Texas. They have been furnished with every kind of ammunition, by means of which the revolted colonists are caushed to resist and fight tie nation from which they never have received but immense benefits. The government is also positively informed that these acts, condemned by the wisdem of the laws of the United States, are also reported by the general government, with which the best intelligence and the greatest harmony still prevail. However, as these adventurers and appenditure have succeeded in escaping the penal use inflicied by the laws of their own country, it becomes necessary to adopt measures for their punishment. His excellency the president and interim, anx ious to represe these aggressions which constitute nonly an offence to the sovereignt of the Mexican nation only an offence to the sovereignt of the Mexican nations.

ment. His excellency the president ad interim, anx tous to represe these aggressions which constitute no-only an off-size to the sovereignty of the Mexican nattion, but also to an evident violation of internationalisms as they are generally adopted, has ordered the following decrees to be enforced.

1st. Foreigners landing on the coast of the republic or invading its territory by land, armed and with the intention of attacking our country, will be deemed pirates and dealt with as such, being citizens of nonation presently at was with the republic, and fighting under no recognised flag.

2nd. All loreigners who will import either by sea or land, in the places occupied by the rebela, either arms or amfunction of any kind for the use of them will be deemed pirates and punished as such.

I send you these decrees, that you may cause them to be fully executed.
