WAR AND NAVY DEPARTMENT.

Circular—The government has received information that, in the United States of North America, meetings are called for the avowed purpose of getting up and siting out expeditions against the Ropublic of Mexico, in order to send assistance to the rebels, foster the civil war, and inflict upon our country all the calamities by which it is followed. In the United States, our ascent ally expeditions are now organized similar to that headed by the traitor Jose Antonio Mejia, and senie have even set out for Texas. They have been furnished with every kind of ammunition, by means of which the revolted colonists are estable to resist and fight the nation from which they never have received but immense benefits. The government is also positively informed that these acts, condemned by the wisdom of the laws of the United States, are also reported by the general government, with which the best intelligence and the greatest harmony still prevail. However, as these adventurers and speculators have succeeded in excaping the penal ties inflicted by the laws of their own country, it becomes necessary to adopt measures for their punishment. His excellency the president ad interim, and some to repress these aggressions which constitute noenly an offence to the sovereignty of the Mexican nation, but also to an evident violation of international laws as they are generally adopted, has ordered the following decrees to be enforced.

1st. Foreigners landing on the coast of the republic or invading itst territory by land, armed and with the intention of stracking our country, will be deemed prates and dealt with as such, being citizens of no nation presently at war with the republic, and fighting under no recognised flag.

2nd. All foreigners who will import either by sea or land, in the placer occupied by the rebels, either arms or animunition of any kind for the use of them will be deemed prates and punished as such.

Apalachicols has been settled but a few years, and Apalachicola has been settled but a few years, and those who have hitherto resided there, having no interest in the soil, have paid no attention to its improvements further than suited their individual convenience. Sales about thirty-lots have already been made to individuals residing at Apalachicola, Columbus and New York, who have agreed to ered fire proof buildings on the said lots without delay, and other measures will be mimediately adopted to make suchipermanent improvements as will, no doubt make it as healthy a place of residence as is to be met with in any city south of Virginia.

St George's sound is capacious, and has secure anchorage in blue clay bottom, and is defended on all sides from the sea. Vessels drawing 8 feet usually load at the wharves, those of 12t leet or 250 tons burthen carrying 1100 bales of cotton, within 3 miles of the town; and those of 600 tons take in their cargoes within 16 miles in secure anchorage in the Sound.
