MEXICAN CONSULATE.
New Orleans, February 12, 1836.

To the Editor of the Bee:

Sir—In compliance to orders just received in this consulate from the honorable J. M Ortiz Monasterio, acting secretary of state to the republic, it becomes my duty to give publicity to the enclosed circular, addressed by his excellency the secretary of war and marine department, on the date of the 30th December ultimo, to all the civil and military commandants of the said republic.

I request of you, sir, to have the goodness to insert said document in your paper, as soon as convenient, and you will oblige your obedient servant,

F. PIZARRO MARTINEZ.
Mexican Consul.

MEXICO.
War and Navy Department.

Circular—The government has received information that, in the United States of North America, meetings are called for the avowed purpose of getting up and fitting out expeditions against the Republic of Mexico, in order to send assistance to the rebels; foster the civil war, and inflict upon our country all the calamities by which it is followed. In the United States, our ancient ally expeditions are now organised similar to that headed by the traitor Jose Antonio Mejia, and some have even set out for Texas. They have been furnished with every kind of ammunition, by means of which the revolted colonists are enabled to assist and fight the nation from which they never have received but insincere benefits. The government is also positively informed that these acts, condemned by the wisdom of the laws of the United States, are also reported by the general government, with which the best intelligence and the greatest harmony still prevail. However, as these adventurers and speculators have succeeded in escaping the penalties inflicted by the laws of their own country, it becomes necessary to adopt measures for their punishment. His excellency the president ad interim, anxious to repress those aggressions which constitute not only an offence to the sovereignty of the Mexican nation, but also to an evident violation of international laws as they are generally adopted, has ordered the following decrees to be enforced.

1st. Foreigners landing on the coast of the republic or invading its territory by land, armed and with the intention of attacking our country, will be deemed pirates and dealt with as such, being citizens of no nation presently at war with the republic, and fighting *under no recognised flag.*

2nd. All foreigners who will import either by sea or land, in the places occupied by the rebels, either arms or ammunition of any kind for the use of them will be deemed pirates and punished as such.

I send you these decrees, that you may cause them to be fully executed.

New-Castle Foundry
AND
LOCOMOTIVE ENGINE MANUFACTORY.
INCORPORATED BY THE STATE OF DELAWARE, WITH A CAPITAL OF
200,000 dollars.

The Subscriber has the pleasure to announce that he is ready to receive and execute in the shortest and best manner, and at the most reasonable rates, all Orders connected with the business of the establishment. Particular attention will be paid to the manufacture of LOCOMOTIVE ENGINES, which will be warranted in every respect equal to any others, whether imported or made in this country.

The works consist of Machine Shops, upon a large scale, and extensive Foundries for finishing Castings of every description both in Iron and Brass. They are situated in the south-western section of the town of New-Castle, directly upon the New-Castle and Frenchtown Rail Road, which forms a part of the thoroughfare from North to South, and upon the bold waters of the Delaware River. This last circumstance gives great advantages over most similar establishments as manufactured articles may be shipped from this port to any section of the country, even during the severities of an ordinary winter season. Its position on the Rail Road, also, renders it easy of access, from every quarter, to those who may wish to visit the Factories. It is the determination of the subscriber to furnish no article but of the very best materials and workmanship.

Besides Locomotive Engines, the subscriber will manufacture:

High and Low Pressure Steam Boat and Stationary Engines,
Wrought Iron and Copper Boilers, of all descriptions,
Do. do. do. Water Tanks, Sugar Mills, Retorts, &c.
Cotton, Tobacco, and Paper Rollers and Screws,
Jack Screws, Screw and Lever Presses,
Heavy Wrought Iron Work, of all kinds connected with Factories, Rail Roads, Steam Boats, &c.
RAIL ROAD WORK, such as Wheels from thirty inches to five feet diameter, with Cast Naves and Felloes, and Wrought Spokes and Rims, with any required depth of Flange and width of Thread,
Cast Wheels (chilled) of any pattern and size, with Axles fixed, Switches, Frogs, &c. ready to insert,
Brass and Iron Castings, such as Cylinder, Pipe, Fly Wheels and Shafts, Bed Plates, Kettles, Retorts, &c.

Shipments made and Insurance effected, (if desired,) without any charge of commission.

Twelfth Legislature—Second Session.

HOUSE OF REPRESENTATIVES.
Saturday, March 5th 1836.

The House met agreeably to adjournment.

A call of the House having been made it appeared that Messrs Augustin, Breed, Picaret, Labatut, Ogden, and Pavis had not answered to their names.

Mr Delachaise on behalf of the committee of enrollment reported as duly enrolled the following bills and resolutions:

An act for the relief of the parish of Claiborne.

"An act concerning and explanatory of the jurisdictions of courts in criminal matters in the several parishes of this state and for other purposes."

"An act to determine permanently the roads in the parish of St Martin"

"An act to continue in force the act entitled an act to incorporate the congregation of the Roman Catholic Church in the parish of St. John the Baptist"

"An act to establish the manner of electing police jurors in the parish of Rapides and for other purposes"

Also the resolution concerning the Adjutant and Inspector-General of the State of Louisiana.

The speaker signed the same.

The clerk was directed to request the signature of the president of the senate.

Mr Ogden on behalf of the committee of public education offered the following report:

THE COMMITTEE ON PUBLIC EDUCATION.

Report that they have had the same under serious consideration and that the importance and varied relations of the subject are the only causes which have prevented an earlier exposition of the result of their deliberations and of their views in relation thereto.

No subject is more entitled to the undivided and anxious consideration of the Legislature than that of public education, because no country in the world is so much interested in the education of its youth and the general diffusion of knowing than the United States. on which depends the purity and existence of our Free Institution. Hence your committee have examined with great attention all the law relative thereto and are fully satisfied that the present system is entirely defective and that a total change is absolutely necessary: evaluing ourselves of the experience of other states in these matters, your committee would respectfully urge the adoption of the "Free School" system now in force in all the states of New England, as well as that of New York, where by their good administration those schools have produced the most advantageous results. Your committee therefore recommend the repeal of all existing laws relative to public schools and the adoption of a law making an annual appropriation out of the public treasury to each parish to an amount equal to that which should be raised therein by taxation for the same purpose, under certain conditions. All classes of society would thereby be deeply interested in good administration and interested in the good administration and improvement of schools and individual interest would prompt those having the care and management of the funds, to the fulfillment of their duties. Should these views meet the approbation of the house, a bill can be prepared in accordance therewith.

All which is respectfully submitted.
A. N. OGDEN, Chairman.

On motion ordered that the same be adopted and printed.

Mr Breezeale on behalf of the committee appointed to examine into the condition of the Bank of Louisiana made the following report:

The committee appointed to enquire into the affairs of the bank of Louisiana have the honor to report that they have visited the banking house of said institution in this city, with a view to the performance of the duties assigned them, and are happy to be able to state that the officers of said institution seemed disposed to afford them every facility and information in their power.

Your committee have been unable to discover the slightest cause to suspect any mal-administration in the affairs of said bank—on the contrary, all the knowledge which they have obtained tends to confirm the confidence before felt in the administration of its concerns.

The annexed statement, marked A, exhibits the situation of the bank on the 26th of February last, and the statements marked B. C. D. E. and F, the situation of the different offices at periods prior to the date of the general statement.

Your committee are of opinion that all the information, which it can be necessary under existing circumstances to lay before the legislature in regard to the bank will be found embodied in these statements—they are therefore referred to for particular details.—The propriety of augmenting the capital stock of this bank has been suggested for consideration to your committee.

But though they are aware of no objections to such measure, which would not equally apply to all similar institutions, they do not deem it necessary to express any opinion as to its expediency, all which is respectfully submitted.

E. B. BREAZEALE,
Chairman of committee of House Rep.
J. BROWNSON,
Chairman of the committee of the Senate.
