THE BEE.

Official State and City Paper,

PRINTED BY J. BAYON.

NEW-ORLEANS:

SATURDAY MORNING, MAY 14, 1836.

PUBLIC SERVICE.

To the Troops and People of the East:

War Department, Head Quarters, New-Jersey River, April 20, 1836.

All the troops, on this side from the east, will be sent to the port of Havre, and for which purpose your excellency will dictate such orders as may be conducive to their safety and security.

For the use of the gentlemen who have signed the above, see French page.

All the volunteers have been sent home from Flores, and General Scott has resolved that the U.S. troops shall spend the summer in St. Augustine. It is apprehended that Osceola will be enabled to fulfil his threat of a five year war.

We are requested to announce Mr G STURGEON as an eligible candidate for alderman of the 1st ward, central municipality, instead of Mr G Schmidt, resigned. The election will occur on Tuesday next.

Mr ALFRED STRIX has been appointed surveyor for the upper municipality. There could not have been a better appointment made, as probably there is not an engineer equally experienced, scientific and attentive in this community. Here he has constructed the water works in a manner not even anticipated by those friendly to that measure, and he has brought out a new plan of the city, which is a great improvement. He was wounded in the battle of Alton, and is now recovering.

We hear of no variation in price since our last report, but it is represented to be very little in demand.

RAIL ROTS.—We advance our question of this article, and the only detail we could hear of, was that the week was 500 lbs per 64 cts, which was all that arrived, with the exception of what was shipped direct to the north; the remainder, we are told, may be attributed to the small quantity in market.

BAR LEAD.—We advance our quotations to 71 & 72 cents and in market, per lb.

The Liverpool, Id.—to Havre, Id., and difficult to obtain those rates. They are likewise dull for northern ports in the U.S. at our quotations.
