FOR PRESIDENT
M. VAN BUREN.
FOR VICE PRESIDENT
RICHARD M. JOHNSON.

I prefer that not only you, but all the people of the United States, should understand that it is the desire of that portion of them which is favorable to my elevation to the chief magistracy, that I should be chosen, an uncompromised opponent of any attempt on the part of Congress to abolish slavery in the district of Columbia, and also with the determination equally decided to resist the slightest interference with the subject in the states where it exists.—*Martin Van Buren.*

ELECTORS OF THE PRESIDENT AND
VICE-PRESIDENT OF THE U. S.

1ST DISTRICT.—J. R. PLATCHE
2ND DISTRICT.—T. LANDRY
3RD DISTRICT.—A. MOUTON
4TH DISTRICT.—P. E. BOSSIER.

STATE ELECTIONS.—The news from all the states in which elections have been held are of the most cheering character. The people are moving, and seem determined to assert their rights against the oppression of the aristocratic few. In North Carolina we have a majority in the State Legislature on joint ballot. Things are no less hopeful in Kentucky. Indiana, Illinois and Missouri are ours. Arkansas has gone to victory. Tennessee is not yet knocked us very hard, will be a nail-biter that the state doesn't go to White. We are bound to resist the tyrants of d. inaccuracy—the United and vigilant in all your movements and the divisions of the opposition will ensure an easy triumph.

We solicit the indulgence of our correspondents, their numerous favors shall be duly attended to. P. Q. will see that we published an article on the same subject in our last. However, one before us is well written, and shall be published.

An Elizur's life is, at times, a very hard one—his labors always arduous and painful—but doubly arduous and increasingly painful, when called upon to record the sad results of the sufferings of individuals or popular feeling. The occurrences, and their final termination, are known to the whole community. We are not about to enter into an investigation of all the causes that have led to any way feel the feelings which are abroad in our city—it might seem invidious to us to attempt to do so. Whatever may have been the existing causes, they are deeply to be regretted, and is the duty of every lover of peace and order to exert himself to put an end to them. The cause of the Napoleon family, or of the Duke de Bordeau—which would be alike injurious to good government, representative institutions, and the progress of civilization."

The famous O. P. Q. who was long the Paris correspondent of the London Morning Chronicle, has commenced writing letters from Paris for the New York Daily Advertiser. The first letter which appeared in the Advertiser of Thursday the 18th, gives a long and interesting account of the parties in France at the present time—and concludes as follows:

"I have shown, then, that the murder of Louis Philippe, or of Louis Philippe and all his sons, would not lead to the overthrow of a monarchial government, which, notwithstanding the cause of popular rights and liberties, and the Beaver lately arrested at Hudson, has brought a charge estimated at \$300,000 clamped by him."

The New Scotsman have taken the Texas fever, and many a great agricultural families are about to emigrate from the land of Grandadie to the land of Wild Hyacinth.

Distracted Accident.—As one of the steam Ferry Boats, which plies between the Navy Yard Ferry Slip and Brooklyn, last day after noon, ran into a boat from Brooklyn, just after day break, the steam boat Boston, from Providence, run into her bow and cut her in two. She, of course, sank immediately—and eight persons were lost. The Boston was bound for New Bedford, and will remain at anchor until she can be repaired.

The Town Clerk of Liverpool is in no doubt that the North River whaling towns have done enough for the South Sea and Atlantic fisheries. The Poughkeepsie men have been very useful, and the Beaver lately arrested at Hudson, has brought a charge estimated at \$300,000 clamped by him."

The New York papers of the morning of the 23d, have been received. They contain nothing of importance.

A letter from Norfolk, dated Saturday afternoon, August 21, states that the packet ship Macon, from New York for Savannah, had struck a rock in the harbor of that port, and was unable to get off. Her crew, 120, were saved, and the vessel was quite a smash.
