Figure. The arrivals of Westers have been heavy but attended with a fair demand. Sales at 10 a 10.25 at the close rather dull. Of Southers, the market is lighly stocked, Philadelphia is held at 19.25 a 10.30; and Howard street und Georgetwan, 10.50.

Naval. Stroats.—About 2000 bble North County Turpentine have been sold since our last report at 4,50; Roein sells readily at 1,27. Tar at 2,25 a 2,374. A fair demand for Spirite of Turpentine at 55 a 60 cts.

Tosacoo.—At private sale since our last, there have been but few transactions, and those confined to choice purcels of Kentucky, tanging from 9 to 10. The auction sale of yesterday ran from 8 1,2 to 9 1;3. The spock on hand, at present, is about 1000 had less than this time last year. The difference can be accounted for in this way, that large shipments have been made our own secount. Sales of 50 hhds Ohio have been made at an average of 6, quality fair Manutectured continues firm at our rates, and for good quality—Twist gin request.

Corron Arrived since our last to yesterday morning inclusive 74 bales of Sea Island, and 8905 bales Upland Cotton. Cleared 1: the same time 90 bales Sea Island and 4569 bales Upland cotton. On ship-board not cleared; 63 bales Bea Island, 7337 bales Upland cotton. The sales have been 4527 bales of the new crop, as follows: 65, 17, 436, 181; 46, 181; 235, 18 172, 1792, 181; 1094, 181; no 191; 1094, 181; no 23, 18 enus; 100 bales Singleton's brand, a superior lot, at prices not transpired; and 23 bales of the old-crop, from 14 a 16 cents. In Long cottons, about 30 bales of white, at 55 and upwards, a few Maines at 50; 9 Santers, this year's crop, at 47; and 30 bales Stained, from 25 to 28 cents; there is a tair demand for Uplands, but prices have given way a shade since our last report; purchasers are not disposed to extend their operation without a further reduction in prices. We continue our last quotation, as certain grades of Cotten come within their limits, only remarking that it requires a good lot to command 18 1-2 cents. We correct that it has not become general with the Planters of Georgia and this State to pack their Cottons in square bales, the difference in price and demand would fully compensate the expense of comp easing machinery.

COTTON—Arrived since the 10th instant, 14575 bales Upland, and 47 bales Sea Island, and chared in the rame time, 2547 bales Upland and 18 bales Sea Island and leaving a stock on hand inclusive of all on shipbourd, not cleared on 17th inst, of 22375 bales Upland and 156 bales Soa Island. The depression noticed in our last has prevailed through the present work, and prices have again preceptibly declined. Choice in square bales has felt the depression less that other classes, and still commands 181 cts. whilst the lower qualities are almost ansaloable. An accumulating stock operates minerally against holders, and we lose the week heavily. The states of the week amount to 6932 bales, the patriculus which are as follows, which it is 17; 240 at 171; 250 at 172; 250 at 173; 250 at 174; 250 at 182. From another letter of Oct 15. Wheat and Flour have been in demand this week, and higher prices paid. The scarcity of American ships acts as preventive, or we think more would have been done for export to the U States.

Our Cotton market is now extremely heavy, occa-sioned by the state of the money market, and there is every appearance of a decline in prices, as the holders in many instances will be compelled to sell at the best prices they can obtain in the present and immediate future prospects. LIVERPOOL, Oct 15.

"We wrote you fully by last Packet, since then we have had very dull Cotton market, which is principally caused by the growing scarcity of money. The Bank of England, and cousequently all other Banks are contracting their discounts and issues. The trade will we think only buy for their immediate wants, and if so, our market will go back in prices."

The express mail.

Packampled Speed. By the exercise mail which arrived here on Saturday we received a slip from a New York paper, dated November 19, three o'clock P. M. It arrived here shout the same hour on the 26th, so that it was just seven days on the way, allowing that it left New York even days on the way, allowing that it left New York as early as the hour mentioned, which is not probable. This is just half the time occupied by the common mail in travelling between the two cities, and it is indeed a surprising instance of expeditious movement for so great a distance. It would not be difficult to move at the same rate over a comparatively small experience. tent of country-but when we take into consideration the great distance, (about 1400 miles) the bad roads n some places, the desert country to be passed, the ivers and estuaries to be crossed in boate, and the greatest part of the journey to be made in the dark, furing the long nights at this season of the year-the plishment of the enterprise in so short a space of me, exhibits a very creditable degree, of activity and perseverance on the part of the contractors. We nope they will continue to merit the approbation and praise of the public by preserving throughout the comng winter, the spirit and industry with which they have

NEW YORK ELECTION.

The Van Buren majorities (says the Albany Argus of Nov 18) in Deleware, Otsego, Madiaon, &c. swell beyond our statements; D. to 2021, O. to 2158, M. 1206. On the other hand, we increase the whig majority in Chaotauque county to 800, and in Genesee to 2200, and give them Queons, Orleans and Franklinnad then the majority for the Van Buren electors is 25,053. It will not probably vary much from this result.

BOSTON, Nov 18.—The Afair at Sagraa.—Captain Inglee, of brig Banian from Sanyrna states that he entered a protest before his departure, against the unwarrantable detention of his vessel by the command of the French squadron on that sation; which, with a representation of the affair has been forwarded by the American Consul, Mr. Offley, to our government, it will be recollected that the French commander, took possession of the Banian to search for a deserter, who was not on board, and took the vesselback to Suyrna.

"We learn also from Capt Inglee that on the 15th and 16th of September, eighty camel loads of figs were received at Smyrna. The price they bore was aborbitant owing principally to an attempt on the part of some English houses to monopolize the marker. They were expected to cost fourteen cents per pound on board.

LATER FROM NASSAU (N. P.) AND JAMAICA. By the schooner Robber HERRY, Bartlett, we have contain little 'ocal intelligence which would be of interest abroad. The Lieutenam Governor of the Bahama Lalands, Lieut. Gol. Coolebrook, had been promoted to a more important post, and was on the eve of quiting Nanau. An address had been presented to him by the members, of his Majesty's counsels of he Bahaman, expressive of their sincure regret at his

leperture. Jameier papers to the 18th October had been recaived at Nassau, The med policy of the British bolitionists with regard to the Islands, continued to evelope itself; the staves: were very refractory, and was found that nothing but the application of the sh could quiet them. After their repeated disregard of his semen-des and admonitions—lunity, he feared, would be lost on them; still he was uswilling to proceed to extrem-

ties.

He should now sentence them to work two days and

a helf, and a Saturday should be one of them; and he would ensure the execution of his sentence, should it again be disregarded on that day, by sending to Spanish Town for a strong reintorcement of police, a party of which he would station on each of the refractory the shouts of the gang, and exclamations that they would work on a Saturday for nobody.) The head constable and superintendent then came forward, and told the magistrate that it was of no use sentending the people to pay time; that he had told him so, as they were coming up. They said they did not care a dam for the magistrate, and would rather be shot than work according to his sentence! that when they were in the field, they would do just as they liked. He added,that would do something to bring them into order, he would give up his constable's staff, take a hoe, and work like a common negro. Hearing this, the magistrate applauded him for his zeal, and the proper spirit shewn him, and directed him to bring some of the most refractory before him. He ancordingly selected two woman and five men. Captain Baynes then asked the first woman, Lavinia Thomas, whether she persisted in saying she would not obay it? She anpersisted in saying she would not obay it? She answered, amidst the shouts of the people, "that she would work on a Saturday for nobody." The magestrate instantly sentenced her to fousteen days' imprisonment in the house of correction. Amelia Thomas was next called, who gave the same answer, but in a still more excited matuer; and, on receiving a similar sentence, broke into a violent fit of rage, using the sentence, broke into a violent fit of rage, using the most insolont language, abusing the magistrate, and calling on the gang to see what he was doing. She was immediately directed to be detained eight days longer in confinement, and to be put twice a day on the tread mill. She was then removed by the magis-trate's orders, for fear, she should commit berselt trate's orders, for fear' she should commit bersell still further.—Robert Taylor was then called. It is seems the foregoing examples had not taught him wisdom, for he replied exactly in the same terms.

If the was ordered to receive 25 lashes on the spot. They may a sorter to the constables, who were firm in their duty, seized him—and the punishment was instantly administered. This was at length ment was instantly administered. This was at length their intention to obey the sentence of the court, and was discharged. The remainder of the people siledly acquiesced with thom, and returned to their work.

The same magistrate shortly after visited Belmont on which property the people had also taken the Monday. They expressed great contation for their error, and promised to submit to whatever sentence the Court might think proper to order. They were direct to trepsy the day, and an extra hil day on Friday, as the magistrate sold them, to convenience, the first matters time at their own convenience, under the notion that restitution was all that could be awarded.

A New York paper of the 8th, states that the stock of the United States Bank had advanced considerably in consequence of the rumoured success of the Whig party in Pennsylvania This circumstance demon strates at once the interest which the bank felt in the effection, and the important and influential part its directors must have taken in it. Some time since, not long before the election, a rumour was circulated that the directors of the bank intended to surrender their charter, provided the State of Pennsylva-nia would refund the bonus which had been paid. We know this rumor to be unfounded, from the fact that John Sergeant, Joseph Hopkinson, and others who are the most conspicuous advocates of the bank have been threst forward by the bank party as candidates for sents in the Pennsylvania convention, on whose decision the existence of the bank depends. We supposed that those men, and particularly Judge Hopkinson. democratic in its essence, unless their private interest were concerned—unless, to speak plainly, their object was to defend the bank, and if possible prolong s existence. The rumour of an intention to surrender its charter, was a mere decree to disarm the animostly of the democrata, and to diminish their zeal at the election. The bank will never surrender its

charter until compelled by inevitable necessity.

The stock of the United States bank, as we have already stated, was enhanced in price in New York. by the supposed success of the Whig ticket in Pennsylvania. In New Orleans, the same rumour had a totally different effect on the stock of some of our local banks; we allude in a particular manner to that of the Citizens' Bank, which is identified with the prosperity and wellfare of the people of Louisiana to a greater degree than any other institution whatever. When the news of the supposed success of the Bank party in Pennsylvania reached this city, and when it was genorally believed that probably Harrison or White was chosen president, the stock of the Citizens' bank fell three per cent! The reason we have heard assigned and not without good reason, that should either of the Whig candidates be elected, the Bank of the United States would inevitable be re-chartered by congress, and lord it over the banks and the people of this State North Carolina deserves to be sacked, d-d, and as it did formerly, causing embarrasement in the comercial world, and carrying dismay and desolation hrough all ranks of the community. No calamity is so make dreaded by the population of Louisiana as the recharge of the U.S. Bank. Its doings in 1934 will

never be forgotton.

THE NEWS. The intelligence received by the Olympia, is of considerable importance. The two nations of the Penin sula appeara to be a prey to civil commotion, which seems to menace something serious. In Spain the Carlists have advanced in the sast to the neighbour-bood of Malaga; and in the west to that of Cadis, without much opposition. As an evidence of the weak-ness of the queen's party on the side of Mulage, it is said the inhabitants of that city are flying an board of the vessels in the harbour, without any hope of being succoured by the force of the government, although it is stated that the insurgeants are at the distance of a sen pointely furnished with Nassau, New Providence, day's merch from the town. On the western side, the people of Levelle and Cadiz are ell in confusion at the approach of Gomes at the head of a band that cannot exceed 15090' in number. Are the insurgeants emboldened and the queen's party depressed by the late

change in the French ministry? The affairs of portugal appear to be in a still more alarming state. The constitution bestowed upon the nation by Don Pedro, overthrown by a handfull of selders in Liebon, and that of the year 1919 proclaimed in the place, and the latter unwillingly sandtoned by . the queen and her friends, and protested against in the the queen and her friends, and protested against in the strongest meaner by the duke of Palmella, and the principal mobility, are circumstances sufficient to excite apprehension for the preservation of the public tranquility. THE ELECTION.

All appears to go en well. Lest August Gen, Ashley beat Bogge 752 votes in St. Louis county, and at the prosent election, the same opposition have seen able to obtain for their candidates a majority of but, from 100 to 150. We have given Mr. Van Buren n majority of 53 in Carondalet, and, prubably, 100 or 150 in Florisant, but have been defeated 250 in the city and two votes in Manchester.

Washingten county, an old opponent by a small majority, of the democracy, has, we learn unofficially, gone for Van Buren. St Geneview has followed the same way St. Charles, bitherto 6 or 8 to 1 against us, has carried White but by a small vote, and it is said has elected a Van Buren assembly man to fill the vacagev created by the death of the eloquent Shannon. If true, it is a noble triumph. Marion county is reported for Van Buren by 150.

It is our opinion that not a dozen out of the fifty counties in Missouri have gone against Mr Van Buren. Their has been excitement and less interest manifested at the late election than we ever saw at a presidential election. That Van Buren would walk over the ourse was universally admitted, and parsized all exertion. If 20,000 out of our 35,000 votes are cast it will realise our expectations. Of those the opposition may have 6 or 7000.

In Illinoia, Morgan, Greene, Macoupin, and St Clair have given about 12 to 1500 majority for Van Buren, and Sangam 1 and Madism have given 7 or 800 majority for White, Harrison, Webster, &c. &c.

The majority for Van Buren in Illinois, will be very decided, but not so large and overwhelming as in Miseour. In two or three wacks we shall be able to give full returns from both States.
