PRINTED AND PUBLISHED BY J. BAYON,
Publisher of the Bee, Commercial Courier, Argus and Price Current Newspapers.

NEW ORLEANS:
THURSDAY MORNING, FEBRUARY 15, 1838.

FOR GOVERNOR,
A. B. ROMAN.

Representative, 1st District, to Congress,
JOHN SLIDELL.

Extract from the Journal of the Senate, of the 5th Feb. 1835.

Resolved, That the Senate of the State of Louisiana do approve of the general course of the administration of the late governor, A. B. Roman; and that he carries with him in his retirement from office the grateful remembrance of the members of this house.

Resolved, That the President of the Senate be requested to send a copy of the resolution to Mr. Roman.

Extract from the Journal of the House, of the 3d Feb. 1835.

Resolved by the House of Representatives of the state of Louisiana, that the administration of the government of the state, by the late governor, A. B. Roman, has been marked by wisdom, firmness, and ...judiciousness and unwearied zeal for the public welfare; that in the execution of the laws, he has exhibited firmness, and in the numerous and important appointments made it has fallen to his lot to make, he has manifested impartiality, and a due regard to the qualifications of the citizens and has, in nature with the full and entire approbation of this House for his official conduct, and with their personal esteem and regard.

Resolved, That the Speaker of this House transmit to the late Governor Roman a copy of these resolutions.

☞ The general statement of the condition of all the Banks may be procured at our office as the demand for it is very great, we have had a large number of extra copies Lithographed on tissue paper.

The Gubernatorial Election.

Among the arguments employed by those journals opposed to the election of Mr. A. B Roman, much stress is laid upon a certain system of rotation by which every one should enjoy the privilege in his turn. From this reasoning it would follow, that as Mr Roman has once already been Governor, he should now leave to Mr. Prieur the chance of obtaining this exalted office, and to render this argument more conclusive it is pretended, that a choice of the same individual twice, would amount to a tacit acknowledgment that he alone, in all Louisiana, possessed the requisite qualifications for Governor.

Such a doctrine will not bear examination, and as in a question of vital importance erroneous impressions should be particularly avoided, we will here point out the consequences that would follow the exclusion of a candidate for no other reason than that he had once before occupied his post with distinction. No one who comprehends the spirit of our institutions can reason thus, because an opinion of the nature would pre-suppose that officers ...ominated of agencies of executive patronage for the profit of individuals, while in reality the latter are chosen with regard to the places they are to hold. Admitting the convenience of rotation in succession, would it not be virtually confessing that as perfectly indifferent whether an individual possess the requisite knowledge or not, so that the principle of change be observed? The reception of such views would most certainly be equivalent to an invitation that officers are not a blessing for the advantage of society, but for the profits of duties which are called upon in their turns to fill them. It would be just about as wise to ask a statesman to pretend, the duties of which he is to place the helm of the leader of an orchestra in the hands of a mason.
