Report on the Gas Light Bank

The Whig papers are so astounded at a publication of the monstrous clauses of one of the charters of the Gas Light Company, and of the corrupt and unwarrantable exercise of power in the passage of the bill, that they never can recover from the astonishment. The effects to explain away the facts and injest the conscience of the community, in relation to the charters of the Gas Light Company, are really pitiful. One of the Whig papers, in particular, in his attempt to explain away the corruption of the Legislature in the passage of the Gas Light charters, says, and only says, in more decent terms, what Mr Rousseau states in the Report was presented by a single member in opposition to the bill in committee. Now we have the testimony of the chairman of the Committee on the part of the majority, that the assertion was false. The Report was presented by the majority of the committee, and was signed by a majority of the committee. We not mentioning names, we have a right to say that the majority was composed of members who voted for the bill on its passage. Now, if the Report was false, and the majority of the committee knew it to be false, and signed it, and presented it to the Legislature, as the report of the committee, and the Legislature passed the bill on the faith of the representations, &c.

In the report, as presented by the majority of the committee, after the introduction of the bill, the following clause occurred, and is in the words and figures following, viz:

"The undersigned, therefore, have come to the conclusion that the Legislature ought to grant the charter, with the following restrictions, viz: that the capital stock shall not exceed $1,000,000, divided into shares of $100 each, and that the Corporation may commence operations when $200,000 shall have been subscribed, and $100,000 paid in, and that the Corporation shall not have the power to issue any bills or notes, or to do any banking business whatever."

The Report was signed by the majority of the Committee, after the introduction of the bill, and presented to the Legislature, and was adopted unanimously, and unwarranted as it is, it was acted upon, and the charter granted, with the exception of the restrictions, as to the amount of capital stock, and the power to issue bills, &c. Now, we have the testimony of the chairman of the committee, that the majority of the committee knew the report to be false, and signed it, and presented it to the Legislature, as the report of the committee, and the Legislature passed the bill on the faith of the representations, &c.

Is this the corruption of party? Is it party to destroy every vestige of honesty and honor? Is it party when the very foundations of society are undermined? Is it party when the very existence of the government is endangered
