COMMERCIAL

REMARKS.

There is very little change to be seen worthy of note since last week, every day we received the U and transacted the city and business generally as much as it was any time we recollect having seen it; but were we to go to the bottom of it, we could not tell what has caused the sudden change, unless it be owing to the near approach of the fall season, when the merchants are very busily employed, and have no time for any thing else.

The rates of the new loan, the 6s of which matures this day, and had proved quite a failure.

There has been some improvement in Alabama and Mississippi money, for 6 @ 8 has risen to 1 @ 2 per cent, and there seems to be a disposition to buy. Still we remain the same as last week, there is but little offered for sale, and the demand is so small that the same may be said of treasury notes. Exchange remains the same as last week on England 9 @ 10, which brings bills on New York, through $ a 84, 60 days 3/4 @ 1 per cent.

Money can readily be obtained at 7 per cent on good paper to-day, which is a rate that has been said to have been the case all down, very little if any factory paper to however offered. Sales of stocks continue to be of the

COTTON—The transactions of the week do not present a very favorable aspect, and what sales have been made were in a small way, both buyers and sellers being of the opinion that the opening rate has not been established for the season, and consequently the latter are not disposed to sell at the present prices, which they consider a sacrifice.

The shipments since 714,000 bales against 572,234 to the same period last season, making an excess of 139,849 bales, and 191,493 over the whole of last season, leaving a stock on hand and on ship board, not cleared, of 1,000,000 bales.

The Reports stand thus, viz:

	BALES.
Excess to Great Britain,	139,689
Other Foreign ports,	160
	139,849
Short to France,	3,961
North of Europe,	4,69
Coast & a market,	5,172
	1,578
Excess to Foreign ports,	141,427
Excess Coastwise	17,141
	139,849

Tobacco—The sales of the week embrace about 280 hhds, which embrace nearly the whole which was transacted in the hands, prices rule very much as last week, with a strong inclination there was a little advance. Manufactured, 24 @ 28 hhds sold at 9c for first 2 @ 3d, 7 for second, 5 do for stemmed. Strips good to fine new sold at 6 cents. There was likewise 6 hhds stems sold at 3c, some of them partially damaged.

Flour—Receipts 32,746 bbls, sales 36,111, for the same period last season, making an excess of 3,365 bbls, and with 1,26 at the wharfs of last season, and leaving a stock on hand and on ship board not cleared of 5,000 bbls.

The exports stand thus, viz:

	BBLS.
Excess Coastwise,	1,270
Short to Foreign Ports,	2,740
	1,470

SUGAR—The demand is limited and stock principally in second hands; prices remain without change we quote 6@6 1-4 for prime.

MOLASSES—Sales confined to city consumption, and no change in prices, which remain as in the very beginning, in there is but little forthcoming on plantation.

PORK—The stock remains large, but it principally consists of what has been on hand for some time; there is very little fresh coming to the city, and of arriving it to market on account of the low stage of water in the rivers. Price stood at last week $6 25 a $ 50 per bbl.

COAL—Although receipts are very small prices are without change, we quote 72 a 75 per bush.

LARD—The last sales were at 10 cts per lb

WHISKEY—We notice no change to quote but re-rified to 32 a 33 c per gal; there is very little stock in market.

COFFEE—This article is dull at our reductions, there is a fair stock in market, but it remains steadily of an inferior quality

FREIGHTS—We notice the quotations to Liverpool to be 1-2 @ 5-8 d, but all at those rates. There are now 37 ships and barks in port—6 of which are loading for Liverpool, 1 Havre, 2 Bordeaux & New-York, 1 Boston, 1 Philadelphia and 1 for Baltimore—the greater part of the tonnage is disengaged, having arrived within the week.
