THE EATE HEXEKIAH NILES.

[PROM THE DEL. WHER FARE DODRAL.]

We invite special attention to the notice published in our paper today by Mrs. Niles, the ambible and respectable relict of the lamented individual whose name is at the head of this article. It appeals with great force to the kind and liberal seelings of the American public. Mr. Niles devoted the best years of his life to the development and advancement of those interests which were peculiarly American, and his labor undontstelly contributed largely to the prosperity of American industry in every department, and especially of the farmer, the manufacturer, and the mechanic—His health fell a sacrifice to the Intense application bestowed uport his labors for the public week, and his death has left his widow and a targe and interesting family of young children dependent on the sale of the Register, of which a large quantity remains on hand. Of the value of this work it is needless for us to speak. So valuable do we deem it as a depositor of facts, documents, and state papers, all intimately connected with American interests and honesty, that no colle, cor learned institution, no public or private library, should be without it. By purchasing this work, therefore, those why have the means will have an opportunity of obtaining an invaluable work, while performing a kind and generous action.

The best that can be said of the Copmarket is, that it is not quite so had as the former.—With respect to the cloth market no improvement has yet been experienced, except, indeed, in a very few descriptions of light jaconets.

LIECESTER.—There is but little demand for regular worstels hose for the home trade, still the weaters are all fully employed on the shipping qualities, and for the glove and fancy traites which are brisk.—Had it not heen for the introduction of the woollen and cotton glove trade in this district, very many of our stocking weavers would have been now destitute of employment. Worsted yarms are reduced in price this week; combed, id per 10s, and carded jid per 10—The wool market is quite mactive. Spinners buy only for immediate consumption, and complain that the prices are not remucerating once. Worsted is selling after the rate of 34s to 33s for farmer's parties.
