IS BEE

A Track la Buiblyment, and Public Insien ogel TRESIDENT OF THE UNITED HENRY CLAY Subject to the decision of a National Convention.

NEW OBLEANS TUESDAY MORNING, AUGUST 20, 1839. CONSTITUTIONALITY OF A NATIONAL

When we referred in Saturday's paper to the re part of Mr. McDuerie, as embadying the most cogeni-and laminous argument in favor of the constitutionally of a national bank, which had ever been submitted, we did so because we knew that any reasoning we might offer, would be little more than a bar views embraged in that masterly production. We had the modesty to believe that Mr. McDoffe's logic would be better than our own. We still relain that impression—the sarcisms of our locd foco neighbor to the contrary notwithstanding -Many of the reasons which we shall adduce in supal question of chartering a ne which

alky. The right of congress to grant, a bank charter i based upon various grounds:- 1st., Precedent- All the departments of the government have at different periols concurred, under every administration, and during the ascendancy of both political parties, in sanctioning this power. The set incorporating the first national tier, and received the deliberate sanction of president Washington. This right was accorded by the sages and patriots who were then fresh from the discussion of the convention that framed the constitution. The competency to given just construction of the constitu-tion will searcely be denied to these whether a prince 19d Swepey in framing that instrument, and the name

the executive. At that period, political parties had not assumed those fundamental distinctions of doctrine which subsequently divided them, and statesmen, and legislators based their opinions upon the simple exer-cise of mason, unperverted by the exclusive exactions

For twenty years the bank of the United States con times in existence—stal maintaining an excellent and uniform currency, diffusing the elements of prosperty and the nation, slevating private and public credit and placing the dinances of the government in a condemocratic parties had assumed an exceedingly viru-

endily

Mallas, then sectetary of the treasury, het, proposed the establishment of a way ognitions, under varied encumstances, of the validity of such an institution in acts of the logis-lative, executive and judicial branches of the government, accompanied by indications in different mades of a concurrence of the general will of the nation "-At the next session, the net incorporating the latand received the approval of Mr. Madison It is to be observed but That during the fort

Termelia in the Annual instead as exell in the operations of commerce as in the fiscal resources of the government, 2d. That at both pemola when a bank has been chartered, it has been under circumstances calculated to give the highest possible authority to the decision. Firstly during the administration of Washington and by the patriots of the revolution and the sages of the convention , and "sweadly, during the administration of Madison, b the prepanderating vote of the very party which had o violently opposed such an institution language of the report— both the start has been directled the ly pronounced it to be constitution few of the prominent men of eith nmitted in its facor. gerunanimous decision of the

tionality however apply to the wilk question. The constituand the highest policial tribunals in the country, while ncy and and beneficial tendency of such an institution have been asknowledged oven by those who denied its constitutionality. The precedents to this france are so grave, so authoritative, that they should be rightly considered as having a hinding influence. If not unerring, they are at least weighty argumunts in its fayor. We shall return to the subject

NORTH CAROLINA ELECTIONS. Partial returns have been received from the tenth district represented by itemeher, whig, in the lastcongress. The candulates are Henderson (w., Fisher (sub-treasury Calboun) Rowan county give

the following vote Fisher (S T) Headerson (W.) Davies county, a close vote. Mr Henderson will ave a small majority in the county.

The steamboat RIENZI, from St. Louis for this port

reported to have struck a anag above the month of Ohio neer, about the 8th inst., and sunk. It is That that the can be raised, and thin but a small purof her cargo will be lost. No lives were lost. New York, August 10th, 1839. I am not a little surprised at the silence of the whigh press on the subject of the "independent treasury."-I am aware that this project is considered by the whig mind, however, that the loco-focus have not and will not eject to congress a single member that is not pledgnot eject to congress a single memory may since people of to support the measure; and I regret to add, that the whigs, on trying questions, are far from being as partonal in their attendance as the administration members. The latter dare not absent thouselves, when the drill sergeants of the party order them to be present. That a mighty either will be made at the next essent of congress to pass the sub-treasury bill, Mr. Von Harces has amongted to the caunity and to the

And naw let us glance at the preliminary-arrangement's which have been made for this anomaciation.—

Mr. Benton has predicted that the bill will become a aw but thinks that it may be found increasing to the compile to suspend specie payments. The filled leges that the while specie payments. The filled leges that the whigs wish to create a paine, and that suspension on the part of the banks will follow, the New Ein, the alliend organ of the party in this state, and to which even the Albany Argus is compelled, to say scrool fiddle, calls upon its followers to run the order, and withdraw from them their specie. In pursuace of this recommendation, hand bills are posted at locarners of the streets, calling upon the hard money sufferent to conforth and stond by their principles, aland, but routed bond.

At this juncture, the president of the United States dies can be a political gladuator, in favor of the distressing. Herecomisty instructs his bosom friend placements for the area as a political gladuator, in favor of the distressing. Herecomisty instructs his bosom friend placements for the subject shall be brought before the peach of the Wan Burger of the Gar

I completion, do'n Al' Edmondo, as to the manner, which it has subject shall be brought before the peo-rache, address to Mr. Van Buren at Castle. Gar. Far, who that knows the promient and Mr. Pannis, behaves, or can be made to behave, that the er would have dared to introduce into his address a tence respecting this vewed question, without pre-idy consulting and receiving the sanction of the next. A different supposition is too rahealous to justification to those. The combination of these, and other concentrations

bank in the city of New York reluse to pay specie. Why? In the ratio of their circulation, they have in their vaults a sum creater than their security requires. So for as it respects their means of redoming their payer, they never possessed, in a higher degree, public validance. They are constrol, and I think deserved by for their troubly, and their apparent expessive.

was equally clear that no pages had been ememored.

The first news they heard of her was, that the long the trace of the credit and her control and statement of the ground, and that parts of the building the control of the credit and her control and statement of the ground, and that when the first them that parts of the building the control of the credit and her control of the credit and the control of the credit and the control of the credit of th

noment you combine a purpose very grata moderate price, a minimum if you hatever largely and necessarily enters in a of every day life, throughout a large por-ivilized world, instantly you engender an counterpet, and a spirit of generous rival excited, and their the work of destructor is excited, and their the work of destruction avering cloud in the horizon, is found to exist the folial induce, both far and wide. For all election is the ostensible or even real moding in the outset, the passions and cupoting and the original design however pure, will help by the obliquity incident to human charge that if you evade a speculation proposed anufacturer, you engender one equally fatal assumer's interest, by the united efforts of the had his sattellites. The money market in being regular is acted on by this unhealthy tre, of unnatural commercial onterprise, and without his overruling power to control, must hanguesh; and finally by the exhaustion succeeding the excitement of conflicting passions sink the planting communically into an apathy, without having yielded the proposed results.

identity into an apothy, without having yielded the proposed results.

But it is said the state of the currency mainly depends on the means of paying the foreign detay by dipments of produce. And it is too much caution cannot be exercised to avoid giving undue expectations, and hopes foreign to the interests of those couplings of in commercial pursuits thereby stimulating to aver exertion. Is it not unfortunately the tendency of all commercial enterprise, to keep the cord of its credit continually strained, and instead of needing a equit for its exercise, at all times rather to require a salidary cards.

spur for its exercise, at all times rather to require a salutary curb?

It is not alone the exportation of specie that should excite apprehension in a commercial community for foreign debts must be paid with it or with the produce of the country, and it will always find its level; but a great drain of the precious inetals too frequently indicates the compulsive progress of speculation, and thence excites fears from its excess. Specie hoarded in the vaults of our banks, beyond what is necessary in cive vigor to our credit system, is only diminishing the amount of our active resources, because the interpolation of the community of our produce of the country is an exposure of the control of the country is not the country of the countr
