The New Orleans Bee.

NO. 328. VOL. II.—NEW SERIES. OFFICIAL JOURNAL.—NEW-ORLEANS, WEDNESDAY MORNING, FEBRUARY 12, 1840. VOL. XIII.—WHOLE NO 328.

BY BULLITT, MAGNE & CO.,
No. 81 CHARTRES STREET.

TERMS OF THIS BEE.

SUBSCRIPTION.—Twelve Dollars for a Daily paper per annum, payable annually in advance. Ten dollars for the tri-weekly country paper payable one year in advance, where no city reference is given. No subscription will be discontinued until arrearages are settled. In case of discontinuance, one week's notice, in writing, must be invariably given, previous to the expiration of subscription.

ADVERTISING.—One dollar per square, for the first insertion, and half that price for each subsequent one, any material alteration from the original advertisement will be charged as a new one. TEN lines or less is a square.

ADVERTISEMENTS offered to be published at intervals, will be charged one dollar per square, for each insertion.

YEARLY ADVERTISING.—Merchants and Others, forty dollars for English alone and 60 for both languages, Banks, Insurance Offices, and other similar public institutions, fifty dollars in English only, and $80 for both languages. Shipping and steam-boat Factors, circumstances merchants, sixty dollars in English alone, and $80 for both languages—payable yearly in advance.

The privilege of annual advertisers is limited to one square in extent, and three changes per week.

MARRIAGES AND OBITUARY NOTICES.—Attacks call the attention of the public to notice of property cards of passengers, benefits, &c. &c. will be charged one dollar per square, for the first insertion in small language.

COMMUNICATIONS or Advertisements of any persons nature, when inadmissible shall be charged double, and in advance.

ADVERTISEMENTS out of the direct line of business and the yearly advertiser, such as legal, auction, and steamboat sales, orders, notices, &c. &c. will be charged one dollar per square, for each insertion and at the ordinary rates.

ADVERTISEMENTS not specified as to time will be published one month, and charged accordingly.

No advertisements of bankruptcies will be published in any case, unless paid for previous to insertion or payment guaranteed by a responsible person in town.

Theatres and other places of amusement, advertising easily for the season, to be charged 100 dollars for English alone, and $150 for both languages.

All announcements of candidates for political offices shall be charged double the price of other advertisements.

On the premis s.

A SPLENDID INVESTMENT FOR A CAPITALIST.—A valuable plantation is now offered for sale in the parish of St Marys, in the Attakapas, known by the name of the Parc Perdue Place, and about 9 miles distance from New Iberia, on the Bayou Teche, containing about 3610 acres of land, one thousand acres of which is now enclosed under fence, 500 of which is in a high state of cultivation and well adapted for the cultivation of cotton or sugar. The cane, the past season, made on it yielded upwards of two hogsheads to the acre, and the place is a fair supply of seed cane, put up for the next crop, on it. There is one thousand acres of superior pasture on it, well calculated for raising stock, and in addition there is at least 1000 acres of wood land, which consists of ash, oak and cypress timber, and is situated in this section of country. On the plantation there is now about 500 head of cattle, 40 pair of cattle, 20 fine horses, with a stock of hogs and sheep. A new sugar house and gin house and farming utensils, with a good family residence, every necessary house and negro cabins—with 30 negroes—and in point of health it is not surpassed in the southern country. This plantation will be sold with or without the negroes, a great bargain to a good and solvent purchaser; and any planter reasoning to this state will find it well worth his attention to purchase it, as there never has been a greater bargain offered in many years. Should a crop be planted, and a suitable purchaser offer, he shall have the advantage of same.

For particulars of terms, apply to Col P Hickey, Baton Rouge; F D Newcomb, Natchez; Caldwell & Hickey, New Orleans; or S W Walsh, on the premises. j6-2m-3cw-m-fs

THE COPARTNERSHIP existing under the firm and style of DE POUILLY, BROTHER & Co, for the purpose of making a plaster-mill, is DISSOLVED, by mutual consent, on the 28th of December, 1839. All claims against the establishment, from this date, must be presented to De Pouilly, jun., manager of the mill.

De Pouilly & Brother beg to remind consumers that they have always on hand fresh calcined plaster, unusually low prices, and of a superior quality. Those consumers likewise, that having constantly a plaster machine, they are prepared to fill orders with promptitude, yellow pine and other woods. Their plaster is also to plane boards from half to three inches in thickness, and from one to two inches in breadth, and they will continue to receive the orders of contractors, and will fill orders with punctuality in every respect.

Apply for plaster or flooring at the mill, corner of Conti street, or to De Pouilly, Brother & Co, corner of Urquhart and Marigny streets, or on the train railroad. j14

DEPOUILLY & BRO

HYDROCONIONA, or apparatus for vapor baths, for sale by the subscriber.

Many years since, at the request of the most distinguished physicians of Europe, I designed and formed an establishment for vapor baths, by means of an apparatus, which is in use in Europe, which experience has taught me to modify, the employment of which has proved to me, that the most stupid servant may be entrusted with by means of which all kinds of vapor baths may be given, and has restored instantaneously to health many who had been attached with the most obstinate and various kinds, scrofulas and mercurial affections, &c. With the apparatus made by me, vapor baths may be administered for the same price as the common ones, with an advantage as derived from the latter, that they may be consequently indispensable necessary for or to extensive establishments, such as hotels, hospitals, &c. Mr. Gie is about to depart for France, is willing to dispose of the apparatus made under his orders at Paris, and will furnish all information respecting the construction, and will furnish the necessary plans to the principal physicians in Europe, who have adopted it in their various scientific bodies. Mr. Gie will also give his opinions respecting this apparatus, which has been universally approved in France.

Mr. Gie is desirous of communicating his discovery, to which he has made many important improvements, to whatever person may wish to become the purchaser of the apparatus, and will for this purpose remain in this city for a few days. Letters addressed to him at the city of New Orleans will be punctually attended to.

Sold at 96 Customhouse street, and at no other store. genuine.

CONCENTRATED COMPOUND SYRUP OF SARSAPARILLA AND PILLS.

Sold genuine at No. 96 Customhouse street, New Orleans, and at no other store.

THE following favorable notices of the highly concentrated Compound Syrup of Sarsaparilla taken from the New York Courier and Enquirer of the 9th inst.

SARSAPARILLA.—Although decidedly averse to puffing any of the various quack medicines of the day, yet we are induced to notice a medicine of this description, as we have used it ourself, and have seen it with decided success in his family. We allude to the compound Syrup of Sarsaparilla, which is extensively manufactured by a gentleman of this city, by the name of Mr. Townsend, by steam. We do this the more readily, as it is warmly recommended by many able medical men of the north, west and south, and, as we are informed, is now used in the Medical Institutions of this city, and in their practice, and with decided success, in chronic diseases and other affections arising from an impure state of the blood, or a debilitated condition of the system, for the medicinal faculty, it is well known, are deeply opposed to the quack remedies.

From the New York Star of July 25.

We would call attention to the advertisement in our columns of the Medical Institute of the Concentrated Compound Syrup of Sarsaparilla, from the New Orleans and Southern Laboratory. We are induced by the high medical testimonials which we have seen, and the good it has already done, to believe that the article will enjoy no enviable a reputation as a remedial agent as this. At the south its success has been unbounded, and wherever introduced we believe it has given the most perfect satisfaction.

We have been shown this day a lithograph by Stout & Lee, of the most remarkable case of an extensive cutaneous eruption, or disease which has ever been presented to the faculty. Edematous ulcers, and even the sloughs of the the throat entirely swept away, and by the use of a few bottles of Sarsaparilla the patient was entirely restored to health.

IMPORTANT MEDICINE—THE CONCENTRATED COMPOUND SYRUP OF SARSAPARILLA, for the cure of Obstinate Eruptions of the Skin, Pimples or Pustules on the Face.

Boils which arise from all impure habit of body, Scaly Eruptions.

And all disorders arising from an impure state of the blood, produced either by a long residence in a sickly and unhealthy climate, the indiscretion and intemperance, &c.

The very convenient and active *agent* in with considerations offered to the medical faculty and the public as possessing in an eminent degree all the virtues of Sarsaparilla in its most concentrated form—being prepared by a new and improved process which extracts all the active matter of the root. It will be found much superior in efficacy to the Syrups, Compound Fluid Extracts, and impure decoctions which are generally offered to the public, and which have here often been in disappointed in the use of Sarsaparilla will find the Concentrated Syrup of Sarsaparilla the article they have been accustomed to, but singularly efficacious in the cure of Rheumatism, Ulcers of the Throat and Legs, Erysipelas, Scrofula, Mercurial Affections, Pains in the Bones, Blotches on the Skin, Boils, Pimples, Tetter, Scrofula or King's Evil, Incipient Consumption and Mercurial Diseases—particularly the distressing and painful affections of Liver Complaint and Neuralgia. All of every description, Scurvy, Chronic Sore Eyes, Rheumatism, Cutaneous Diseases, Chronic Diarrhœa and Headache from particular Pains in the Stomach and Dyspepsia proceeding from whatever affection of the Liver, Chronic inflammation of the Lungs and Pleurisy, are all of efficacious in removing the constitutional which have been broken down by diabetious treatment or injudicious gulations. A few bottles will in all these cases be found sufficient to restore the patient to perfect health and vigor.

Also for all those diseases which arise from impurities of the blood, or irritation of humors of whatever name or kind.

From the attention which the proprietor has paid to the preparation of Sarsaparilla, in various forms, he flatters himself that he has succeeded in bringing *it to compound to perfection*, and by using a different process from any other manufacturer, can safely say that he has produced an article, combined with medical properties of Sarsaparilla in a more concentrated and effective state, than any other preparation of the kind. He recommends the article confidently to the physician as the best preparation of Sarsaparilla which can be used in his practice, and which will produce more decided success, in chronic diseases and other affections arising from an impure state of the blood, than any other preparation of Sarsaparilla now in use.

The superiority which is claimed for this medicine over all other preparations of the kind results from the peculiar mode in which it is prepared, and from the fact, which is known from experience, that the greater portion of the virtues of Sarsaparilla are dissipated, or pass off in the form of vapor, when subject to decoction; and that by evaporating and boiling it is unfavorable to a concentration of its active principle. We have been led to this conclusion from the many repeated failures which have followed its administration when in the form of decoction, and by the formula of the books, and to the most uniform success when given prepared according to the present mode. This process cannot be given here for obvious reasons, but we may state that the materials have been better in some instances than in others, because we have occasionally tried the experiment from the same article, and the result has always been the same as stated above. The preparation is, therefore, with great confidence, recommended to physicians as a valuable addition to the materia medica, possessing in an eminent degree all the tonic, alterative and diaphoretic properties of the vegetable from which it is obtained.

The firm, resolute and exercised with this article to which we urged, and pertinacity with which it is generally used. But in reply we would add, that our work, that assertion is not to be taken as the bellie or breath of an individual in order to

The virtues of Sarsaparilla as a purifier and strengthener of the human system, especially of the blood, have been long a new established and are now universally known; the best medical authorities is in their favor, and the testimony of the profession on this point is not quite unanimous.

Exchange business attended to in all its branches; stocks and other securities bought and sold; foreign gold and silver purchased at cost rates.

Collections—Notes and drafts collected with punctuality on all parts of the United States, Canadas and Europe.

Drafts for £5 and upwards payable on demand in any part of England, France, Scotland and Wales can always be obtained, and the highest prices given for bills of exchange and bank of England notes.

Communications by letter will meet with the same attention as personal application.

THE COPARTNERSHIP existing under the firm and style of DE POUILLY, BROTHER & Co, for the purpose of making a plaster-mill, is DISSOLVED, by mutual consent, on the 28th of December, 1839. All claims against the establishment, from this date, must be presented to De Pouilly, jun., manager of the mill.

De Pouilly & Brother beg to remind consumers that they have always on hand fresh calcined plaster, unusually low prices, and of a superior quality. Those consumers likewise, that having constantly a plaster machine, they are prepared to fill orders with promptitude, yellow pine and other woods. Their plaster is also to plane boards from half to three inches in thickness, and from one to two inches in breadth, and they will continue to receive the orders of contractors, and will fill orders with punctuality in every respect.

Apply for plaster or flooring at the mill, corner of Conti street, or to De Pouilly, Brother & Co, corner of Urquhart and Marigny streets, or on the train railroad. j14

DEPOUILLY & BRO

HYDROCONIONA, or apparatus for vapor baths, for sale by the subscriber.

Many years since, at the request of the most distinguished physicians of Europe, I designed and formed an establishment for vapor baths, by means of an apparatus, which is in use in Europe, which experience has taught me to modify, the employment of which has proved to me, that the most stupid servant may be entrusted with by means of which all kinds of vapor baths may be given, and has restored instantaneously to health many who had been attached with the most obstinate and various kinds, scrofulas and mercurial affections, &c. With the apparatus made by me, vapor baths may be administered for the same price as the common ones, with an advantage as derived from the latter, that they may be consequently indispensable necessary for or to extensive establishments, such as hotels, hospitals, &c. Mr. Gie is about to depart for France, is willing to dispose of the apparatus made under his orders at Paris, and will furnish all information respecting the construction, and will furnish the necessary plans to the principal physicians in Europe, who have adopted it in their various scientific bodies. Mr. Gie will also give his opinions respecting this apparatus, which has been universally approved in France.

Mr. Gie is desirous of communicating his discovery, to which he has made many important improvements, to whatever person may wish to become the purchaser of the apparatus, and will for this purpose remain in this city for a few days. Letters addressed to him at the city of New Orleans will be punctually attended to.

Sold at 96 Customhouse street, and at no other store. genuine.

CONCENTRATED COMPOUND SYRUP OF SARSAPARILLA AND PILLS.

Sold genuine at No. 96 Customhouse street, New Orleans, and at no other store.

THE following favorable notices of the highly concentrated Compound Syrup of Sarsaparilla taken from the New York Courier and Enquirer of the 9th inst.

SARSAPARILLA.—Although decidedly averse to puffing any of the various quack medicines of the day, yet we are induced to notice a medicine of this description, as we have used it ourself, and have seen it with decided success in his family. We allude to the compound Syrup of Sarsaparilla, which is extensively manufactured by a gentleman of this city, by the name of Mr. Townsend, by steam. We do this the more readily, as it is warmly recommended by many able medical men of the north, west and south, and, as we are informed, is now used in the Medical Institutions of this city, and in their practice, and with decided success, in chronic diseases and other affections arising from an impure state of the blood, or a debilitated condition of the system, for the medicinal faculty, it is well known, are deeply opposed to the quack remedies.

From the New York Star of July 25.

We would call attention to the advertisement in our columns of the Medical Institute of the Concentrated Compound Syrup of Sarsaparilla, from the New Orleans and Southern Laboratory. We are induced by the high medical testimonials which we have seen, and the good it has already done, to believe that the article will enjoy no enviable a reputation as a remedial agent as this. At the south its success has been unbounded, and wherever introduced we believe it has given the most perfect satisfaction.

We have been shown this day a lithograph by Stout & Lee, of the most remarkable case of an extensive cutaneous eruption, or disease which has ever been presented to the faculty. Edematous ulcers, and even the sloughs of the the throat entirely swept away, and by the use of a few bottles of Sarsaparilla the patient was entirely restored to health.

IMPORTANT MEDICINE—THE CONCENTRATED COMPOUND SYRUP OF SARSAPARILLA, for the cure of Obstinate Eruptions of the Skin, Pimples or Pustules on the Face.

Boils which arise from all impure habit of body, Scaly Eruptions.

And all disorders arising from an impure state of the blood, produced either by a long residence in a sickly and unhealthy climate, the indiscretion and intemperance, &c.

The very convenient and active *agent* in with considerations offered to the medical faculty and the public as possessing in an eminent degree all the virtues of Sarsaparilla in its most concentrated form—being prepared by a new and improved process which extracts all the active matter of the root. It will be found much superior in efficacy to the Syrups, Compound Fluid Extracts, and impure decoctions which are generally offered to the public, and which have here often been in disappointed in the use of Sarsaparilla will find the Concentrated Syrup of Sarsaparilla the article they have been accustomed to, but singularly efficacious in the cure of Rheumatism, Ulcers of the Throat and Legs, Erysipelas, Scrofula, Mercurial Affections, Pains in the Bones, Blotches on the Skin, Boils, Pimples, Tetter, Scrofula or King's Evil, Incipient Consumption and Mercurial Diseases—particularly the distressing and painful affections of Liver Complaint and Neuralgia. All of every description, Scurvy, Chronic Sore Eyes, Rheumatism, Cutaneous Diseases, Chronic Diarrhœa and Headache from particular Pains in the Stomach and Dyspepsia proceeding from whatever affection of the Liver, Chronic inflammation of the Lungs and Pleurisy, are all of efficacious in removing the constitutional which have been broken down by diabetious treatment or injudicious gulations. A few bottles will in all these cases be found sufficient to restore the patient to perfect health and vigor.

Also for all those diseases which arise from impurities of the blood, or irritation of humors of whatever name or kind.

From the attention which the proprietor has paid to the preparation of Sarsaparilla, in various forms, he flatters himself that he has succeeded in bringing *it to compound to perfection*, and by using a different process from any other manufacturer, can safely say that he has produced an article, combined with medical properties of Sarsaparilla in a more concentrated and effective state, than any other preparation of the kind. He recommends the article confidently to the physician as the best preparation of Sarsaparilla which can be used in his practice, and which will produce more decided success, in chronic diseases and other affections arising from an impure state of the blood, than any other preparation of Sarsaparilla now in use.

The superiority which is claimed for this medicine over all other preparations of the kind results from the peculiar mode in which it is prepared, and from the fact, which is known from experience, that the greater portion of the virtues of Sarsaparilla are dissipated, or pass off in the form of vapor, when subject to decoction; and that by evaporating and boiling it is unfavorable to a concentration of its active principle. We have been led to this conclusion from the many repeated failures which have followed its administration when in the form of decoction, and by the formula of the books, and to the most uniform success when given prepared according to the present m
