OFFICIAL STATE PAPER BY BULLITT, MAGNE & CO.

NOMINATION OF THE NATIONAL CONVENTION OF PRESIDENT, OF OHIO, FOR TICE PRESIDENT,

FOR CONORESS HIRST DISTRICT.

Waynnierstand that the mail hoat arrived last eve made several attempts to obtain our papers up to half ly we could not obtain them. THE BANKS.

In the discussion of the conflicting bills before th gislature upon the bank question, there are import ant interests at stake apart from those of the stock holders or directors, which the members should tak the planter and mechanic as well as of the merchant and banker. The extent of injury which would be sures towards the banks which would coerce them inthe banks, furnish data upon which an approximative which we have time and again endeathed to prov inadequate to the wants of the country; but we take up the question in reference to the actual state of country is visited with a most grinding pressure; and the question now arises as to the effect a coercive poicy towards the banks would have upon that pressure. From the report of the banks, (two excepted, Citi-

zens and Commercial banks,) it appears that the in debtedness of the community to those institution mounted, on the 1st of this month, to \$40,123,655 The circulation on that day was ~ 5,025,800

By deducting the deposits and circulation, from th am due by the citizens, it will be seen that the in

roubles of the times will not admit of their complying with, the community will have to pay up more than anks, in the shape of circulation and deposits. This real estate, and by mechanics. Suppose, for a mo their debtors obtain the means of paying up their

up? particularly when the products of agricultural the banks. It grew out of a deplorable uit, for should conditions be imposed upon the bank ately. The collection of this frightful amount would, in the best of times, produce great distress; at this time it would involve the industrious and enterprising trader, farmer and mechanic in hopeless and irretrieva-

The bill abolishing imprisonment for deet, as reported by the committee of conference, has passed both branches of the legislature, and only awaits the signature of the governor, to become the law of the land. We congratulate the friends of humanity and justice on this attenicious result.

We have been shown a list of no less than thirty volers in that part of Chartres street alone, include in the first ward of the first municipality, whose names do not appear on the assessors lists. If a single individual, in the course of an hour's enquiry, in single street, has been enabled to prove so many omissions, it is fair to conclude that, throughout the mupicipality, the assessors must have neglected in record the names of sonic hundred legal voters. The error, it is said, can be rectified on application of those gentlemen whose names have been omitted, to the mayor or recorder; but this is giving very unnecessary and vexations trouble to a large number of our fellow-citi-sens. We, therefore, advise every voter in the first sens. We, therefore, adviso every voter in the first municipality, to go to the polls provided with his tax, seccipt, which will, at once, establish his right of suffinge. It is semiwhat singular, by the way, that of the thirty names above referred to, nine-tenths, if not all, are political opponents of the administration.

The Huntsville Bank and the Iwo slock banks in Mobile, are the only specie-paying banks in Alabama, Monie, are the only specie-raying banks in Alabama.

Mr. Earl's lecture was attended has evening by a very large audience, who were delighted with his plain and perspicuous method of explaining the principle upon which his theory of sidems is founded. The lecturer merely explained the cultimes of his theory. We were gratified that the fadles of the city graced the lecture room with their breadnes.

The letters of our Washington correspondent; will be found pepuliarly interesting. It will be seen that the hard money hobby its been ridden until it has galled some of its Jockies. The signs of the times are grounding a wonderful change in the opinions of grave senators. Mr. Calhoun is deserted by his new allies; and may be before the close of the session left solitary and shone in his administration of a specie cir.

culation. "The locofocus, in the House of Representa The hooloons, in the House of Herresentatives in Congress, seem determined to consummate their unbidy designs upon the sovereignty of New Yersey. The smaller states should be silve to a procedent which may at any time for purity purposes, deprive them of their representation in the national Legislature.
