Commercial.

NEW-ORLEANS, WEDNESDAY EVENING, November 11, 1840.

The Cotton market to-day has been again quite animated, and sales to the extent of 4,300 bales have been effected at a decided improvement of fully ½c. on our subjoined quotations. Until the advance has become regularly established we cannot alter our figures, the more so, as we prefer awaiting the hourly expected intelligence from Europe, which may have a directly opposite effect on the staple.

Since opening the above we have received a few days later accounts from England, which came to hand by the mail at a late hour this afternoon; and we regret to say that the contents thereof are far from being satisfactory. The Cotton-market in Liverpool had undergone no variation, but money matters looked very gloomy, in consequence of the critical aspect of political affairs; and it was momentarily expected that the rate of interest would be raised to 6 per cent. by the Bank of England. It is superfluous to indulge in any further remarks, as to-morrow, or latest the day after, we shall be placed in possession of much later news by the arrival of the steamship at Boston.

Amongst the transactions alluded to above, we notice a list of 1,100 bales, at rates not transpired; 300 bales Western Districts at 8c.; 811 bales Louisiana and Mississippi at 8 3-16c.; 750 do. at 8 7-16, 300 do. at 8⅛; 150 do. at 8⅛; and 100 do. at 10c.

About 70 hhds SUGAR have been disposed of to-day at 5¼ a 5½c., the stock on the Levee is very small. We have not heard of any transactions on plantation.

MOLASSES is dull at 23 a 24c.

FLOUR is declining; we understand it has been offered to-day at $4 50; but no sales at that rate have transpired.

We have no change to notice in PROVISIONS;—*Pork, Mess,* $19—*Prime,* $16. *Bacon,* Sides, 9. Shoulders, 7c. *Lard* is very dull at 13c. for a prime article.

EXCHANGE remains as last quoted;—Sterling 8 a 8¼ per cent. prem. ($4 80 a $4 82½ per £1 sterling)—New-York, at ½ dis. par. Sight Checks, 1¼ a 1½ per cent. prem. France, at $5 12½ a 5 15.

FREIGHTS are now established at 9-16d to Liverpool and 11c to Havre.—Our port has received a large increase of shipping to-day.

DOMESTIC MARKETS.

NEW-YORK, NOVEMBER 3.

Sunday, November 1, 5 p. m.

MONEY-MARKET.—A great change has come over the commercial community, or more particularly the monetary circles since the receipt of the late news from Europe. The apprehensions of a war in Europe is exercising quietly an injurious influence here. The demand for specie has caused the banks to lose about one third of theirs, as the shipments are much larger than is generally imagined. The rates of premium are not sufficiently great to make it an object to draw much for speculation from the banks; but if the next news, now so near at hand, should lead to an increased financial inquiry for specie, great apprehensions will be entertained for the solvency of many of our banking institutions, as the drafts on them would be constant and heavy for export. By those well informed, it is calculated that more than two millions has been exported within a short time, certainly an unusual large amount under the circumstances.

This has been exchange-day for the packets, which sail on Tuesday from Boston, and on Monday from this city. Foreign exchanges keep firm, though the demand has been much diminished by the heavy export of bullion. On London the rate is at ⅛ @ 9 per cent, or $4 82 a 84 the £1 sterling. Paris 5f. 10 a 5f. Amsterdam, 40, @ 41. Hamburg, 36 a 36½. Bremen, 77 @ 78.

The call for money yesterday was greater than for many months. The fact that to-morrow is rent day had a great influence upon the market. The demand for this purpose is from 2 to 2½ per cent. The banks, though in a healthy condition, are not in a position to afford much relief.

The promoter for the market, nor of the opinion of men of judgment or discretion, gave way heavily. Stonington and Dry Dock, which have been the principal bubbles, have gone down 4 per cent. each. Reading and Hudson 2 @ 3. Vicksburg 5 per cent. At the second Board a still further decline took place. The description of persons operating in these stocks is such as to exercise but very little influence on the community.

Mr. Jaudon, Mr. Alsop, and Mr. Brown, all of the United State Bank, arrived here yesterday, and to-day left for Boston by the steamer to London, to resume the negociations of the bank there. The hopes entertained that a resumption would be effected on January next were giving away. The three commissioners who went to the North to negotiate a loan in aid of the Philadelphia banks, had not yet been able to effect it. It is confidently believed, that Mr. Jaudon, on his return to London, will be able to put matters in such a train there as to enable the banks to resume without fail on the day appointed.

FOREIGN MARKETS.

LIVERPOOL COTTON-MARKET, OCTOBER 2.

The import of the week is 37,503 bags; namely, 27,799 from the United States, 1,620 from Brazil, 317 from the West Indies; and 7,767 from Bombay. The sales of the week are 27,093 bags of which there are taken on speculation 3,000 American and 300 Surat; and for export, 100 American. Prices are much the same with steadiness, the speculative buying giving relief to the holders.

OCT. 7.—*Cotton.*—The sales on Thursday last were 2,000 bales, Brit'y, 3,000; Saturday, 4,000; Monday, 4,000; Tuesday, 2,000; and to day, 4,000. Holders offer their stock freely, and the prices are maintained. The import of the week amounts to 23,200 bales.

OCT. 8.—*Cotton.*—The sales since Friday amount to 18,000 bags, of which 4,000 are sold to-day. Prices have not varied, although the market is dull. Arrived to-day, on the way, two vessels from Pernambuco, one from Mobile, and three from Egypt, which are all going into quarantine. Cotton, N. LIVERPOOL CORN-EXCHANGE, OCT. 6.

The weather has been fine during the week. We have had a fair delivery of new Wheat for the farmers, the best samples of which have brought 8s. 6d. for 8s. 9d. for 70lbs.—New Irish Wheat has been offering 3d. ₱ bushel lower.

HAVRE COTTON-MARKET, SEPT. 30.

CORRESPONDENCE.—From Wednesday to Thursday last, the activity which we had noticed in our preceding circular, became considerably decreased, public attention being once more diverted from commercial to political affairs. But the receipt of the New-York advices of the 3d instant, brought by the Union on Friday, confirmatory of the previous accounts as to the state of affairs, and the great firmness in prices that otherwise, created a revival in the demand here, to which a subsequent rise in the stocks also contributed, and long before the arrival of the steamer freely into the market, the sales from Friday to Saturday reached 4,000 bales, at an advance of ½f. on United States Cottage. At the same time, several purchases were also made for transit, as well as on the spot. Since the commencement of the present week, however, dealers have shown less eagerness to operate, owing to an increase in the price of landed cotton of from ½ to ¾f. and a rise of 2 @ 3f on the raw material within these eight days. But notwithstanding this, there has been a tolerably fair demand, and importers have not exercised the slightest wish to press forward their stock. Comparing therefore the actual position of the market, with the same period in August, it will be seen that we have an advance of from ½ to ¾f. on the present month; during which time the arrivals have amounted to 14,400 bales, and the consumption to 8,470 bales. The intelligence from the manufacturing district continues to be satisfactory; but on the other hand, it must be observed, that our stock is unusually large for the season, and that until the European question is fixed, according to all appearance, is likely to be, the market shall have received a final solution, a great drawback will be felt in every branch of business.

SEMI-WEEKLY PAPER, PUBLISHED TRI-WEEKLY, " $10

"Truth is omnipotent, and Public Justice certain."

FOR GOVERNOR

HENRY JOHNSON,

Subject to the decision of the Whig State Convention

NEW-ORLEANS:

THURSDAY MORNING, NOV. 12, 1840.

Our paper to-day is principally taken up with election returns. Such is the public anxiety about the result of the late canvas, that little else than election news finds favor in their eyes. We have taken much pains to give the most authentic Intelligence from the various states. If we have deceived our readers in any particular, it is because we are deceived ourselves. Such returns as are published, we are fully of opinion may be relied upon. They come to us in a shape to challenge belief. Most of the items taken from newspaper slips are confirmed by private letters. Confident as we have been for a long time of the election of Gen'l HARRISON, the completion of the news we ran as it is infinitely more favorable than we had anticipated. The people have arisen in the majesty of their strength, and shaken off the incubus of locofocoism, as a lion shakes the dew drop from his mane."

LOUISIANA ELECTION—RETURNS COMPLETE—WHIG MAJORITY:

3,651.

Our readers, by glancing at the following table, can form a tolerably accurate opinion of the result of the election in this state. In July last the state polled 16,169, of which the whig candidates received 9,103, the locofoco candidates 7,047, and scattering 19.—Showing a majority in favor of the whigs, of 2,056.

THE VICTORY IN MISSISSIPPI.

Words are inadequate to express our gratification at the overthrow of the spoilers in Mississippi. We had scarcely dared to hope for so conspicuous a result. We did not dream that locofocoism would be crushed in Mississippi, as the noxious reptile is trampled by the foot it has stung. The monster is dead in our state. Listen to the shouts of the true-hearted republicans over his misshapen and life less carcase.

[From the Vicksburg Whig of the 9th.

VICTORY! VICTORY! VICTORY!!! SOUND YOUR TRUMPETS! BEAT YOUR DRUMS! THE STATE IS REDEEMED, AND LOCOFOCOISM IS PROSTRATED IN THE DUST!!!

The victory is complete and overwhelming, we have met the enemy in his strong hold and vanquished him on the field. In the choice of Governor Harrison and reform looms in triumph over the whole State, and locofocoism has no longer an abiding place within her limits. Thanks to the gallant whigs of Mississippi—the victory is the most signal and glorious one achieved upon our soil, it is a perfect *Waterloo*, an *Iser* Napoleon is already safely housed at St. Helena—Peace to the mighty dead, no more shall stern wars dread alarums rouse his warlike spirit. *He sleeps* to wake no more.

The smoke of the battle has not yet cleared away, and we are not able to make a complete report of the killed, wounded and missing, but enough is known to enable us to say that locofocoism is killed, and its friends and adherents are among the wounded and missing. We annex the returns from forty-three counties, from which it will be seen that our majority is TWO THOUSAND NINE HUNDRED VOTES!!! and our gain in the same counties FOUR THOUSAND SEVEN HUNDRED AND FOURTEEN!!! The remaining 13 counties which are yet to be heard from, cannot vary materially the result. Should they all vote as they did last year, we shall have a clear majority of nearly EIGHTEEN HUNDRED, which is enough in all conscience!! We are satisfied and we know our friends will be, we have achieved a glorious victory and redeemed a State, we will not quarrel about majorities. It is sufficient that we have triumphed, nobly triumphed, and now let the winds and the waves bear the tiding onward and upward. Let every mind about the Mississippi is free, until the glorious tidings shall have penetrated every nook and corner of this wide spread Republic. Let Van Buren hear it. Let Old Tip hear it. Let our Sister States hear it. In a word, let the whole world hear it and rejoice, for MISSISSIPPI IS INDEED FREE!!!

MISSOURI.

The result in St. Louis has been a whig majority of 718 votes. The whigs have about maintained their former majority in that city.

ILLINOIS.

Returns have been received in St. Louis showing a majority of upwards of 900 for the whigs.

Madison county gave a whig majority of 550; *Pike* 65; *Quincy* 152; *Warren* 18; *Hannibal* 214.

INDIANA.

Every county heard from shews a larger whig gain. The gain is in proportion of 25 per cent over BADGER'S majority in August. Old Tip's majority will be over 12,000 in Indiana.

OHIO.

HARRISON'S progress through the different counties is like that of a whirlwind throwing down every vestige of locofocoism in its path. In 36 counties heard from his gain on CROWN is SIX THOUSAND two HUNDRED AND FORTY-EIGHT. His majority will exceed 20,000. The Buckeye state is not ungrateful.

KENTUCKY.

In glorious OLD KENTUCK, Hamilton carries every thing before him. His gain over LETCHER is estimated at 25 per cent. His majority in the state will hardly fall below 30,000. Kentucky will probably be the FLAG STATE.

HARRISON'S gain in 13 counties is already about 900 over POLK'S (V. B.) whole majority in the state last year. If Tennessee goes on at this rate, HARRISON will have TEN THOUSAND MAJORITY.

Tennessee, Western District—In 14 counties heard from, Harrison's majority is 4 600—4 counties to hear from in the district, which will add to the above majority.

ALABAMA.

We have returns from Mobile County. Locofocoism has been most signally overthrown. The county has given 432 majority for HARRISON—being a gain of 333 to the whigs. This is the only county yet heard from. Our thanks are due to several correspondents for their prompti ude in forwarding returns.

GEORGIA.

Returns have been received from 43 counties in Georgia, Almost without exception they exhibit an increased whig vote. We have not space for the full returns to-day; suffice it to say, that the majority for members of congress in October have been nearly doubled in November. Georgia has nobly performed her duty.

THE ELECTIONS.

PENNSYLVANIA.

We believe Pennsylvania has gone for HARRISON, but we cannot yet affirm the matter as undeniable.—Every paper differs in its returns—whig, neutral and locofoco, none of them agree. We believe that the statements of the *National Gazette* are entitled to implicit credence, and we therefore select them in preference to the perhaps exaggerated reports of heated partizans on either side.

From the Philadelphia National Gazette of the evening of the 2d inst.

The table which we give to-day has been made with the utmost care and nothing is omitted which has been reported upon any credible authority.

It may be seen that though the Harrison gain thus far exceeded in many counties the best hopes of his friends, yet the increase of Van Buren votes in others is so great that the result in the whole state is tendered doubtful. We beg our friends not to hazard money on the final returns. It is impossible to say which party has triumphed, but the majority either way will be small.

[Here follows a table of 37 counties, which gave a Van Buren majority of 4585 at the 13th October election, and which now show a nett Harrison gain of 4291.] The table says:

"Thus Van Buren's majority is so far reduced to only 194 votes, and eighteen counties are yet to be heard from.

"Of the counties to be heard from,—Five gave majorities for Harrison on the 13th of October, in the aggregate 3065 votes; and thirteen gave majorities for Van Buren, in the aggregate 4576 votes.

"Erie, Crawford, Washington and Mercer, bordering on Ohio, are not heard from. Whig gains are expected in them.

"A nett gain in the remaining counties of 200 votes is sufficient to give Harrison the state."

"CAUTION.

The returns which the Post Office authorities profess to have received from Northumberland and Monroe, showing great Van Buren gains, are not worthy of credit. We are sure that they are purposely exaggerated for effect in other States."

Erie and Washington have been heard from—The one gives 1600 and the other 571 majority for HARRISON—a gain in the two counties of nearly 600 votes.—(*Editor Bee.*)

The *Madisonian* of the 31 gives returns from forty-two counties. They are in the aggregate, for

Harrison,	25,086
Van Buren,	20,876
	4,210

In the remaining counties the vote on the 13th was as follows:

Van Buren,	15,727
Harrison,	13,207
	2,520

The Philadelphia *Ledger* gives returns from 42 counties, shewing a Harrison majority of 4,210, and the 14 counties to be heard from gave a Van Buren majority of 2,800 at the Congressional election.

The *Pennsylvanian* (V. B.) gives returns which would render the vote nearly equal, and thinks the rest of the State will secure the electoral vote of Pennsylvania to VAN BUREN.

We have thus furnished our readers with accounts from various sources. They may form their own conclusions.

VIRGINIA.

Richmond city gives 405 Whig majority, being a gain of 88. In Henrico county the Whig majority is 26; in 1836 it was 41. In Chesterfield VAN BUREN'S majority is 294—in 1836, 110.

We gather the following particulars from the Norfolk *Beacon*. Norfolk Borough, Harrison majority 231; Norfolk county, 80 do; Princess Anne, 131 do; Suffolk, at 9 p. m, 147; Rawles precinct not heard from; Petersburgh, Administration majority 17. Reports have been received at Charleston of some other counties: Bedford, 350 whig majority; Campbell, 223 whig majority, Caroline, 83 Administration; Hanover and Stafford, nearly equal. These returns are not as favorable as might have been expected. To-day's mail will perhaps enable us to surmise how the State has gone.

MARYLAND.

All that we have from Maryland, is comprised in the following paragraphs, from the Baltimore *Patriot* of the 3rd. The State is safe for HARRISON by a large majority:

From the Baltimore Patriot of Nov. 3.

MARYLAND ELECTION.

The result of the election in Baltimore city is given below. It will be seen that the VAN BUREN majority is reduced to 31, being a Whig gain of 299 on the State election of the 7th ult.

CITY OF BALTIMORE.

Van Buren majority, 31.

Our account of gain and loss is by comparing the vote of yesterday with that of 7th October.

At the election for State Senator on the 7th October, the Van Buren majority was 270; and at the Mayor's election on the 16th, it was 232. Making a whig gain of upwards of 200.

At the October 7th election, the whole number of votes polled in the city was 14,414. Yesterday the whole number was 14,691—showing an increase of 207.

[Correspondence of the American.]

ANNAPOLIS, Nov. 3, 1840.

The boat leaves to-day earlier than on the day of the last election. At half past 12 o'clock, the Whig majority was 40. We expect the Whig ticket will prevail by a majority of 40 to 45 votes.

We are indebted to the captain of the steamboat *Meteor*, for St. Louis papers of the 4th inst.

We are indebted to Mr. Tucker, clerk of the steamboat *Bogue Home* for letters and papers containing election returns.

We are indebted to the politeness of Captain DUNHAM, of the *General Brown*, for the latest papers, and verbal information in relation to the elections in the West.

☞ We are indebted to the editor of the Vicksburg *Whig* for several letters containing important election intelligence. The *Major* has our thanks—he has sin ya had our esteem.

☞ To-day locofocoism will turn up its belly, and float down in another a dead fish upon the political stream.—*Franklin.*

STEAMBOAT ACCIDENT.—The steamboat *Fayette* exploded her boilers on the night of the 7th inst, at about three miles from Nap Jean. The first engineer, second mate, two firemen and seven deck passengers were killed; twenty deck passengers were badly scalded, and died shortly.

MANZANIRO.

The situation of Capt. MARSH of the barque *Don't Wait for Mister*, we have been put in possession of a file of Rio papers to Sept. 25th. We will endeavor to give copious extracts to-morrow. The U. S. sloop of war Marrion arrived at Rio on the 23d, and the U. S. Frigate Potomac sailed for the River Plata on the 25th Sept.

FROM TEXAS

By an arrival from Texas we have received Galveston papers to the 7th inst. A treaty of amity and commerce was concluded on the 18th of September last, between Holland and Texas. The *Courier* of the 7th mentions that a long time has elapsed since any accounts of Indian depredations within the territory have been received. The Comanches appear uncommonly quiet, and disposed to go peaceably into winter quarters. The expedition lately fitted out under Col. MOORE, and that under Col. HOWARD will probably somewhat disturb their anticipated security. An encounter will no doubt soon take place between these companies and the Indians, which will effectually prevent further molestation to the whites.

The President of Texas was dangerously ill, and unable to attend to his official duties. The session of congress had commenced.

A rumor is in town, says the Houston *Star* of the 5th, that the Federalist were defeated and flying back into Texas—that the success they obtained was merely over the rear-guard of ARISTA, but on the coming up of his main body, they were cut to pieces, &c.—We place but little confidence in the rumor.

The following anecdote which we clip from the *Star* will give the uninitiated some idea of a Texas opening.

AN ESCAPE.

We copy the following from the Cincinnati Republican, of Saturday. Who can doubt that Providence watches over the life of old Tippecanoe?—*Louisville Journal.*

GENERAL HARRISON

Arrived in the city this morning from North Bend in excellent health. A little accident occurred to him yesterday, which shows that he is *not quite so decrepid* as his enemies represent him. He was riding over a part of his farm, through which the summit of the Whitewater Canal passes, in a place which seemed as smooth as well as covered with grass as any other part of the field; suddenly he felt his horse sinking, and thought he was about to fall: the General sprang from him, and alighted upon the firm ground, and the horse fell from 15 to 20 feet into a kind of sink hole, caused by the tunnelling beneath. The General escaped without the slightest injury.

SIX DAYS LATER FROM EUROPE.

The ship *Florida* arrived at Charleston on the 5th inst. with accounts from London to the 8th and Liverpool to the 9th ult. The excitement in regard to the Eastern question continues on the increase, and matters seem fast tending towards the crisis so much to be dreaded, when war will become inevitable. It is said in the London Sun of the 8th ult. that the ultimatum of M. Thiers had been dispatched to the English government, stating on what terms of forbearance on the part of the Allied Powers, France would abstain from hostilities. The contents of this paper were as yet unknown. Rumor says that France will consider the entrance of a Russian fleet into the Mediterranean, as likewise any attempt to execute the decree of deposition against Mehemet Ali, tantamount to a declaration of war.

The trial of Prince Louis Napoleon has ended in a sentence of imprisonment for life. His companions have been condemned to a detention varying from two to twenty years.

Commercial affairs remain in pretty much the same state; the price of cotton has undergone no variation but the London money market is much depressed.

We are indebted to the Charleston *Courier* for the following particulars:

LONDON, October 8.

The Paris journals of Tuesday have all been received, and from extracts given in another part of the Sun our readers will be able to form a tolerable correct conception of the excitement which prevails in the French metropolis on the Eastern question. The convocation of the Chambers is now fixed for the 1st of November, till which time the king is said to have given M. Thiers a carte blanche to resolve and to act as a majority of the cabinet may deem advisable. This carte blanche was given to the President of the Council only a few days before the arrival in London of Prince Talleyrand, who left Paris on the 30th ult. Whether the Count will be able to bring the Kings of the French and the Belgians to his own opinion remains to be seen.

The Batavia arrived this afternoon with a Dutch mail, which fully confirms the previous information relative to the abdication of the King of Holland.

The results of the London and Baltimore city is given below. It will be seen that the VAN BUREN majority is reduced to 31, being a Whig gain of 299 on the State election of the 7th ult.

CITY OF BALTIMORE.

	HAR. V. BUREN.	HAR. gain	V. B. gain.
Total,	7295	7326	202 24

Van Buren majority, 31.

Our account of gain and loss is by comparing the vote of yesterday with that of 7th October.

At the election for State Senator on the 7th October, the VAN BUREN majority was 270; and at the Mayor's election on the 16th, it was 232. Making a whig gain of upwards of 200.

At the October 7th election, the whole number of votes polled in the city was 14,414. Yesterday the whole number was 14,691—showing an increase of 207.

[Correspondence of the American.]

ANNAPOLIS, Nov. 3, 1840.

The boat leaves to-day earlier than on the day of the last election. At half past 12 o'clock, the Whig majority was 40. We expect the Whig ticket will prevail by a majority of 40 to 45 votes.
