GUILD'S PATENT COOKING STOVES CALLED "QUEEN OF THE WEST."

THE undersigned, agent for the sale of this article, begs leave to inform the public that he has commenced business publicly, begs leave respectfully to solicit public attention thereto

He refers to the subjoined flattering testimony as to its economy, neatness and general utility, viz:

We, the subscribers, having used for some time Guild's Patent Cooking Stove, called the Queen of the West, find no hesitation in giving our unqualified testimony in its favor. For neatness, convenience, economy, durability and efficiency, we think it surpasses any other cooking apparatus that we have ever seen used. We therefore have supplied one great desideratum not heretofore attained in a cooking stove, and at the same time heated and cooked with only one fire—and the fire being placed over the oven brings the heat immediately in contact with the bottom of the oven that it performs all the different offices of boiling, broiling, stewing, and heating simultaneously over at the same time, and with the least possible quantity of fuel. We have used different stoves manufactured upon capable of supplying the wants of all, from the smallest family to the largest hotels and steamboats.
