ORIN respectfully informs the commercial community of New Orleans, and the citizens of Louisiana, and the public generally, that he has established himself in this city, as a consulting physician and surgeon, for the purpose of introducing the VACCINE INSTITUTION, which has been established in Paris, and in other parts of Europe, with the most complete success. The object of this institution is to have the people vaccinated, and by which they will be preserved from the small pox, from which they are now suffering. Have also subjected the disease to complete control amongst us.

The medical gentlemen and planters are informed that they will be supplied with fresh virus, at any time they may require it by letter, post paid the shortest time after it is received in New Orleans, must particularly observe that the virus is taken from the arm of a child, and not from the arm of a person who has been vaccinated, which is the general practice of the medical gentlemen of this city. Those who are desirous of having their children vaccinated, can have them at their residence, or at the office of the subscriber, No. 1 Bienville street, between Chartres and Royal streets, where he may be found at all hours of the day, except from 12 to 2 o'clock, P.
