PLATINA CEMENT.

DR. ACHILLE LION, Dentist, of the Faculty of Paris, after many researches, has discovered this valuable composition, which he has used in the most eminent cases in plugging decayed teeth, and consolidating tooth-ache. The composition of the Platina Cement, which is entirely new in itself, is of incorruptible nature, and used in liquid state, and speedily acquires the hardness and consistency of the enamel of the teeth which it fills up, and will last for many years, not only as a preservative of the teeth, but also to render extraction unnecessary.
