FOR PRESIDENT OF THE UNITED STATES,
HENRY CLAY.

NEW-ORLEANS
TUESDAY MORNING, MAY 2, 1843.

CLAY CLUB.

A special meeting will be held at the Club Room, on this evening at seven o'clock.

Members are particularly requested to be punctual in their attendance, as business of the utmost importance will be brought before the meeting.

GEO. C. LAWRASON, } Secretaries.
N. DELAPLAINE, }

CLAY CLUB.

We earnestly call upon the members of the Club to assemble in their strength this evening. We are upon the eve of an election of vast importance, and in the event of the election of President of the United States devolves upon Congress, may be decisive of the fate of our favorite. We have as yet no candidates regularly brought forward for the first and second Districts, whilst it is pretty generally understood that the locofocos have agreed upon theirs. This delay on our part is doing us incalculable injury, and it behoves the whigs to be up and doing if they do not wish to see the whig city misrepresented by locofocos.

The Club ought to meet in full assembly, that the best plan be devised for securing the fullest expression of the wishes of the people as to the most proper persons to be run for Congress, and have them before the Patriots as soon as possible.

If we could imagine for a moment, that the naturalized citizens of New-Orleans,—that one individual of that large and influential portion of our population,—was soft enough to be gulled by Mr. BARTON's *humbugging* resolutions, we would shed a portion of the respect we entertain for them. The naturalized citizens are made the subjects of periodical quackery; and just before any election of importance, one nostrum or another is administered to them, in doses proportioned to the exigencies of the locofoco party. In the instance under consideration, Mr. BARTON, in his eagerness, fell into the mistake that is often made by those who take *laudanum*, and overcharged the potion until it produced nausea instead of the effect desired. He actually presented six resolutions of formidable size, any one of which is a dose. If the patient swallowed all these at once, he will not require the aid of a stomach-pump, for the gastric organs will incontinently relieve their free exercise quelmishness.

The public is informed by these resolutions, that naturalized citizens are eligible to every office under the constitution, except that of President of the United States. This is one of those remarkable discoveries with which "modern democracy occasional astounds and illuminates the world; and we commend the resolution to the consideration of Judge STORY, that in the next edition of his work upon the Constitution of the United States, it may be duly annotated and given a place in the article of the Constitution, of which it is so striking a commentary and exposition. To be sure everybody knew this to be the law, but it is a matter of no moment now in point, and ready to receive freight, and will leave for the above and all intermediate ports on Tuesday, at 10 o'clock A M. For freight or passage, having splendid accommodations, apply on board opposite Lafayette street or to
JOHN H. SHAW & Co.
Agents, 24 Poydras st.

Regular NEW ORLEANS and ST LOUIS Passenger Steam Packet ALEX. SCOTT, Capt. John C. Swon
The new and elegant and fast running Passenger Steamer will leave for ST. LOUIS and all intermediate Ports, on Tuesday, the 2d inst, at 4 o'clock, P. M. For freight or passage, having superior accommodations, (for all or any state rooms) apply to
JOHN R SHAW & Co, 24 Poydras st.

N. B. State Rooms can now be secured, by applying to the Agents.

☞ Our thanks are due to the clerk of the steamboat *Indo* for late St. Louis papers.

NEW MIRROR.—We are indebted to Messrs. Norman, Steel & Co., for the last number of Genl. Morris' *New Mirror*. It is as rich and racy as usual.

GUADALOUPE DESPATCHES.—The total amount of collections made on the city, in favor of the suffrers by the Earthquake at Pointe a Pitre, is four thousand one hundred and twenty-six dollars.

☞ Our readers may remember the account published of the murder of an aged couple named Pantelier, near Harrisburg, Pa. We now learn that the murderer,—a man named Mason—has been arrested and has made a full confession.

☞ The New York *Journal of Commerce*, states that it has received the delay occasioned by making some repairs, which were necessary the steamer *Great West*, and would not leave Liverpool until the 22d of April, and that her next sailing day from New York, will be the 15th of May ensuing.

Mr. A. F. JUDITH, upholsterer, Baltimore, recently received from Paris a letter, conveying the welcome intelligence that by the will of a relative lately deceased, there was now on deposit in the Bank of France, subject to his order, the snug sum of £25,000 sterling, or $100,000. Mr. Judith has taken his departure for France to assume possession of the cash.

☞ The N. Y. *Express* states that it has received the particulars of a most horrible crime committed on board one of our national vessels of the first class by an officer of the navy, which is to be made the subject of an investigation by a court martial. The particulars are too revolting for recital. The offence is punishable in England by death; in this country the penalty is less severe. The guilty party, on being discovered, tendered his resignation which was refused, and he was immediately placed under arrest.

LAFAYETTE CITY ELECTIONS.—The elections for Mayor and Aldermen of the City of Lafayette, took place yesterday. The following is the result polled for Mayor:—

I. R Kenny,	105
G Janin,	85
A Phelps,	26

Messrs. Boyce, Keaner, Lynch, Thomas, Keen and Vaught, were elected Aldermen.

BIG SMITH'S BENEFIT.—We hope the patrons of the St Charles will turn out in a mass to night and give our friend and the drama's friend, Don *Sol Smithio*, a regular bumper. He is a man who has served and deserves liberal support. He is a native born actor and manager to please his patrons. Let us give him a rousing "roaser" —*free as an evidence of generosity* than a token of justice. His bill of fare is exceedingly attractive. Among the performances in the delightful comedy "A Cure for the Heart-Ache," the part of Young Rapid to be played by a friend of the benefactor.

THE POST OFFICE Department at Washington is doing its best to suppress the circulation of the cheap publications of the day by charging postage so exorbitant as to preclude their transmission by mail. Books that are issued from the press at 25 cents a volume in pamphlet form, are charged 40 or 50 cents postage.—*The object of this new regulation can scarcely be to increase the revenue of the department*, for its immediate and direct effect is to suspend the transportation of such works by mail, and thus cut off whatever amount may have accrued to the department and to the former letter rates.

A COUPLE MOREPORK.—We learn from the New York *Herald* of the 21st April, that the young men's Democratic Republican General Committee, met at Tammany Hall, and adopted a series of resolutions disapproving of the action taken by the locofoco members of the New York Legislature in relation to the Presidency, and denying their right to dictate to the people. We suppose the "rank and file" will soon have a meeting for the purpose of approving the conduct of the Legislature. The campaign between the contending hosts of Van Buren and Calhoun has already opened.

Ah! but in the second resolution, the way Counsellor BARTON walks into the Whigs, is a caution to legal pedestrianism. The resolution would read just as well and be quite as conformable to the truth of the case, did it inveigh against the locofocos instead of the whigs; yet we are sorry to say, that it was only pointed at one party, and that party may be considered as ironically used up,—smoked into flinders, and pulverized.

But to reader security doubly sure, we have in the third resolution, a continuation of the same with a change of scene. The one just noticed, thinks it honorable that the whigs should challenge foreign votes unless they produced their naturalization papers—leaving it, from its silence upon the subject, to be inferred that it would be quite proper for the locofocos to do so; that none to be considered reproaches the same reckless principle as a higher flavor. It so resolved that the bill introduced by a whig into the legislature, requiring proofs of naturalization papers when a naturalized citizen is desirous of voting was a damnable device, and repugnant to the constitution. We are sorry that Mr. BARTON did not favor the public with the name of the whig who introduced this bill. It looks as no very like one of Mr. PHILLIPS' devising—a very worthy gentleman truly, though a strong loco. We will not say that it was his, for we do not know that such is the case; but it has his mark upon it. Now, in proposing such a law, supposing it to have been introduced by that gentleman, he could have had no object whatever in view but the promotion of the right of suffrage. We would not accuse Mr PHILLIPS of hostility to or ards the naturalized citizens—though we know him to be a native born American—and do not think that he would make use of his position as legislator to deprive them of any right they have under the constitution and laws of the country; but he is a stickler for all the restrictions upon the elective franchise, and in his desire to keep the ballot box pure he may have proposed a law, which, though inconvenient to some, he thought would guard it against an abuse to which it is confessedly liable. The naturalized citizen is just as much interested in the purity of elections as the native citizen, and we err in our judgment of them if they can be wrought up to acts of violence and outbreak by denunciations against regulations which may be deemed necessary to secure their own rights in common with those of their native fellow-citizens—much less will any of them be *cajoled* out of their political principles by a resolution denouncing one party for doing what both do. We were at the moment, however, that if a naturalized citizen lost his naturalization papers, he could remedy the defect by an oath. One of the resolutions, introduced by Mr. BARTON, states that such is not the fact. He can, however, easily obtain a certified copy of them if he values the privilege of citizenship.

The two next resolutions are "bone of the same bone" only dressed in a different manner—grilled or devilled as it were after the fish had been picked off of it. To make amends for the denudedstate of the "joint" a most elaborate sauce is poured over it, which is so savory and so abundant that it serves for meat, drink and washing to boot. It is resolved to be the urgent duty of the democracy to stand by and sustain the naturalized citizens in the maintenance of their equal privileges, &c. &c. &c. All this is quite rich, and our naturalized citizens will cut deep on the rifle if they were furnished such food always. It is only upon election occasions that such viands are forced down their throats, else they would be in danger of obesity. We have not heard however, that they stand in need of such assistance nor do we know of any one complained to Congress upon them. We hope they will not feel bound to consider the resolves ill-used for the express purpose of giving effect to so much sympathy—though it is quite a pity that charity of such vast dimensions should go without objects upon which to expend itself. We recommend that the Legislature construct an imaginary asylum for the especial convenience of those who are over-stocked with theoretical and speculative philanthropy to patronize and foster.

The last resolution, recommending a meeting of the naturalized citizens, to arm themselves against the grievances denounced in the preceding resolutions, we trust will have no other effect than of raising a smile at the *nobility of party motive*. And what are these grievances? but the right of any naturalized citizen to vote upon showing that he is qualified to do so. Is this privilege a hardship? is it oppressive, tyranny or any thing else than a priceless franchise bestowed by our laws?—one that ought to be guarded with a jealous and vigilance commensurate with its invaluable importance? Can resolutions cunningly devised, or flattery lavishly administered make the naturalized citizens regard the most important franchise he has acquired under a free government as a trifling bauble or to-a-penny whistle? or indeed him to rebel against every attempt to protect him in the exercise of it? to give his vote its just weight in the canvass and make the representative the choice of the legal voters of his district.

THE TREASURY NOTE AFFAIR.—When we mentioned yesterday the circumstance of the reappearance in circulation of the treasury notes that had been cancelled at the custom-house and despatched to Washington, we had not seen an article in the *Globe* charging Mr. MORGAN, in so many words, with being a defaulter for $100,000. The particulars of the transactions are as yet involved in complete mystery; but we have yet to hear the first man express the opinion that Mr. MORGAN had any hand in the embezzlement of them. It is to be hoped that the affair will soon be probed to the bottom, and the guilty parties exposed,—meanwhile we must say that no man ever assumed a part of trust enjoying a higher reputation for probity and honor than Mr. MORGAN. Times must have been some lazily of duty either here or at Washington to permit a fraud to go for so long a time without detection and exposure. Where the blame really is we have no means of guessing even, and we forbear to hazard an opinion upon a matter involving private character unless we had more specific information respecting it.

HOME LABOR.—The Boston Mail of the 17th ult states that *fourteen millions of yards of cotton cloth* were sold in that *city* on Saturday, for the Canton market, in consequence of the late news from that place.

LIEUT. JOHN WEST has been appointed to the command of the brig *Somers*.

COMMODORE MOORE AND THE TEXIAN GOVERNMENT. We learn from what we suppose to be good authority, that the statement which we copied on Saturday, from the Rec, that President Houston had directed the Commissioners of the Texian Government to declare the expedition upon which Commodore Moore recently sailed to be unauthorized and piratical, was probably founded upon false information to our *entemporary*.—There is reason to believe that he had the very reverse in store, if not the direct concession of the Texian Government.—*Bulletin*.

It is barely possible that our correspondent might have been mistaken in supposing that the Texan Commissioners had instructions to denounce Commodore MOORE's expedition to Yucatan as piracy; but the information contained in the thoroughly Irish President HOUSTON's repeated declarations that he would do so, that no yielded it entire credence. There are persons in this city, who have heard President HOUSTON express himself to this effect, and that he should carry out this threat is no more than might be expected of his hatred of the navy and prisoner of every individual who is ambitious to win a name in the defence of the Republic. If we are not grossly misinformed, one of the Commissioners went so far as to say that President HOUSTON informed him that he would denounce the expedition as piratical if Moore went to Campeachy. This being the case, our Texian correspondent should not have been far amiss in his statement. We apprehend that when the whole truth is known our correspondent's details, he is within the scope of the instructions that were given to the commissioners.

OHIO RIVER.—There was nineteen feet water on the fall at Louisville, on the 26th ult.

☞ The British Frigate *Warspite*, Lord John Hay, Commander, arrived at New York on the 21st ult.

We are indebted to the Clerk of the steamboat *Gray Eagle*, for late Louisville papers, and to the clerk of the steamboat *Benjamin Franklin* for late St. Louis papers.

Captain WILLIAM COMPTON BOLTON has been ordered to relieve Commodore MORGAN in the command of our naval forces on the coast of Brazil.—*Army and Navy Chronicle*.

It is understood that Commodore M. C. PERRY will sail shortly in the new sloop-of-war *Saratoga*, for the coast of Africa; and the flag ship *Macedonian* will follow as soon as she can be made ready for sea.—*Id.*

The Montreal Herald announces that hereafter Montreal will be the seat of Government of Canada, and that the treasury Department and other offices of State, will be commenced as soon as the plans can be prepared. The residence of Judge ROLF has been assigned for the Governor and a new residence is to be erected. Quebec will be the military head-quarters.

FROM BUENOS AYRES.—We learn from Captain Allen, of the ship Rob Roy, that arrived at this port from Buenos Ayres, which post she left on the 20th of February, that accounts had just been received of General Ortiz having risen in Montevideo, and had cut off the supplies of fresh beef from the city. Provisions were also off the city with his fleet. It was thought the city would not hold out much longer, but would be obliged to surrender in Order. At the last accounts, nothing was doing at Montevideo or Buenos Ayres, but free articles sell without a tax. The people of the country at very high prices still.—*N. Y. Express*.

INTERESTING DISCOVERY.—The wreck of the Eros, the steamboat burnt a year and a half ago, on Lake Erie, has been found. The wreck was discovered by Captain Dana, interested in Capt. Chapin, of New York, constructed on that the wreck will land-mate where a large body of iron or other metallic substance is supposed to be, and by means of the diver, the exact spot were sent out on the ice following the course of the needle, and after several weeks search, succeeded in finding the wreck not far from Silver Creek. Capt. Dana has since been in possession of the wreck for himself and the owners of the Eros, under a contract with said owners, by placing buoys upon it.

☞ Gideon Tower, a patriot of the revolution, now residing in Dearborne county, Indiana, is now in good health at the age of 82 years, and has by his first wife had 13 children, 70 grand children, 70 great grand, and 6 descendants of the fifth generation. The last part of this statement is new to us. We supposed that he could vote in 1840, one only excepted, voted with the old patriarch for Harrison and the whig cause. They will come up still stronger for Harry Clay in '44.—*N. Y. Tribune*.

AN AMERICAN CAPTAIN SHUTTERED TO THE GALLOWS.—The Washington (N. C.) Gazette, of the 15th ult. Tells Leighton, of the brig Abigail Richardson, from St. Thomas, informs us that before he left there intelligence was received that Captain Cooper, of the brig Pilgrim, of Boston, had been tried at Guadaloupe, found guilty of robbing a house at Point Petre of $50,000 at the time of the earthquake there, convicted, and executed. Cooper was formerly master of the galleys at Fayal, which has to be sent. Capt. Cozzens belongs to the same state of Maine.

☞ The Catskill just sent out has to a few days ago by a female passenger named Mary Hutchins. Mr. Hutchins, the keeper, rushed into the prisoner's room and put the fire out before it had done much injury. The fiend succeeded in setting fire to the bed in three places, and actually levelled a bullet at him, which just missed his head and out of point; but he secured her ladyship, put a little safety there should her, and the Messenger, and finally sent her for safe keeping to the County House.

ELECTRICAL PHENOMENON.—Professor N. F. B. Wright, of Buffalo, in Sullivan's Hill Seminary, N. Y., states that he and Professor Fisher have discovered that several currents of electricity will pass upon the same wire without interference, either in the same direction, or in opposite directions. They have found it in an account of a shower of shooting stars, resembling the meteoric display of November, 1833, which was seen in this country and Europe on the night of the 9th of August, 1842, between one and three o'clock in the morning. They appeared to proceed from a point near the sun, and to shoot in every direction, many apparently falling towards the earth.

DIED—Yesterday morning at 8 o'clock, Colonel Chas. Dick, aged 47 [illegible]. His friends and the public generally are requested to attend his funeral, which will take place this day at half past 9 o'clock, A. M., from the residence of Mr. Gilbert Leonard, Hospital street, between Burgundy and Dauphine streets.
