MESSRS. DUPERRON & DELCAMBRE, late the Dentists of the planters of St. Charles, St. John the Baptist, Donaldson, Lafourche, the Attakapas, &c. that Dr. E. Delcambre will pass through these places in the course of the month of May, for the intention of exercising his profession. Messrs. O. Duperron & E. Delcambre, who are in the habit of warranting all their operations, inform the public that if they have any fault to find, their establishment, which is permanently fixed at New Orleans, will be promptly opened to them. All those requiring dental operations may, with perfect confidence, apply to Mr. E. Delcambre, more especially for the basis of artificial teeth, (resin a dagle) manufactured by himself, and which he alone possesses by a new process that ensures its complete success. m17

DR. BLANCHARD—Ex gouverne to their Majesties the King and Queen of France, the Prince and Princess of Salerne, has the honor to inform the gentry of Melodies of Paris, and of New Orleans.

He possesses a gum-cement, which repairs new ages often ted by decay, of the same color of teeth, and which is the most inodorous substance that has yet been employed—most cockney substance that has yet been employed—nese other can, at this time, plumb the tooth so hermetically as this.

The operation is made without any pain, and is achieved in a few minutes.

ODONTALGIC EXTRACT

B. F. SMITH,
No. 110 Exchange alley,
Corner of Bourbon street,

CONTINUES to relieve the most violent Toothaches in a few moments; and at the same time forever destroys the nerve to which the pain has been positively without pain. The public should be aware, however, that this remedy is not offered as a Universal Panacea, it being only recommended for the pain proceeds from an exposure of the internal membrane or nerve.

For the truth of the above statement, the sceptical are referred to the following highly respectable gentlemen, most of whom can speak from their own experience.

Rev. W. A. Scott,
J. W. Simmons,
C. P. Young,
L. Morton Quirk,
Ch. Williams,
E. B. Orsborne,
H. Page,
W. Sigwson.

By first destroying the nerve with this remedy, the excruciating pain frequently caused by inserting pivot teeth upon the live stump, is entirely obviated.

All other operations carefully performed. m3

SPECIFIC AGAINST YELLOW FEVER.

NO physician deems at present that there is to find out sort of sickness as dangerous as that of the yellow fever and the plague; they are indeed the two most destructive scourges of the digestive organs, to which all the complications and mesdications which for a long time have hidden their real character, and presented them as a group of peculiar diseases for cure, which is termed in the language of newsights of those who had the misfortune of catching the infection; and now that their nature, their causes, their symptoms are known, nothing remains but to call the catalogue of their victims. I will not attempt a further description of those diseases, but for years experience, the success of cures and with success, having discovered the efficacy of the specific against yellow fever, I offer it to the public from the implicit confidence of its superiority over any other sort of medicine.

DOCTOR MARCHAND'S office is in Rousseau street, corner of St. Louis, entering at No. 1, and may be right at all hours, from 11 to 3. He will also attend to the cure of secret diseases in all their degrees. His treats and cures on two months the most severe cases, consider cure of case and the Peruvian, without augment charges. j23—
