The Treaty Battified.

At length we have the satisfaction of announcing the ratification by the Senate, of the treaty for the ettlement of the Oregon controversy. The National

now dimesoil life. The scientific acquisitions of the many school, and of the camp, they have carried altition; they yet retain them, and it now forths a fit of the aggregate knowledge of the country. Few fitters respin, as is believed, because they distilk the rolesson of arms. The reason may be found in the rotterson of promotion in time of peace, the inscrivity camp duty at many of our posts and stations, and candequacy of pay and rations to support a family. But should an emergency arrive when the countries that they will cheerfully offer themselves in bring with them an amount of practical knowing and particular, not be sent for the military wrive. As manufactors to a outside force, taked on an emergency, and to out an conzensoidary in general, their military knowledge and skill would be of incidentable adjustings. Your committee are of opinion that the gregories existing against the mentioners in string and the provide by a strict annual examination into its organication and details by a board of visiters selected from pivate life and therefore, in comexion with this report ask leave to bring in a bill.
