HAVING been appointed Recorder of Births and Deaths
for the Arrow and Cay of Orienns. I request the critical of the above and parch and city to conform themselves to the disposition of the following act:

Act approved March 6, 1819.

dec 1 After the insulate of Orienns, shall be detarrow therein within thirty days, time declaration shall be

of Representatives on the proposition, to admit Tea and Coilee free of duty, led to the influence that a compromise had been effected between the discordant factions of the democracy, and that the Tariff bill thus modified, would probably pass. Our anticipations have proved well founded. The bill was finally passed on the 3d tnst., by a vote of 114 to 95—ex hibting a majority of nineteen votes. On this occasion Locolocolsen contrived with sin gular skill to turn to its own account the elasticity of principle which characterizes the party. Mr. Bain KERHOFF, who declared that the intention of himsel and his colleagues was to kill the ball, and that thi

intention was immutable as fate, voted for it. So did Mr. Kathbun, so did Mr. McBowett, and the long lust of New York and Ohio members, who had thus deted so vehemently against the project, and kept the House in a constant uproar for three days prece-ding its passage, by the violence of their personal alercations.

Doubless our readers are anxions to learn the naure of the necromancy that with such marvellous
flect and astounding rapidity induced these honoraie representatives to change a resolve ere while " a

fixed as fate," and record their votes for the final adoption of the bill. The accret is not a very profound one. The majority took the trouble to consult sectional interests, and modify the bill accordingly. was lopped a little here, and expanded a little there; one section was curtailed of several features obnoxious to the West, and another was enlarged by the addi-tion of various provisions acceptable to the East. The consideration of revenue—the main, primary and vital object of the acheine—was shandoned to the of her fit of the sulks and won to radiant smiles and good humor by the admission of Tea and Coffee, good numor; by the admission of I'rea and Coffee, duty free; and the other was touched in a very ten-der spot and immediately brought to a cachinnatory explosion by the imposition of a duty of 90 per cent on Salt. This last wonderful feat was accomplished by a majority of one vote, and its effect was decisive, since the bill for depriving Home Industry of protection could never have passed, without the votes of the New York Locofocos. In the wards of the Intellig gencer, the majority may almost literally be said to have been procured, as children in the nursery are

The sacrifices of principle exacted from the Demo-nacy by the exigency of the occasion, are really mable. Tes and Coffee, the very articles from which the largest proportion of the additional reverontemplated, was to be obtained, are exempted fi vable as objects of revenue, and do not come in conflict with any branch of domestic industry. But sale- a necessary of life, from which there is no abcaning—which the poor as well as the rich must set or perish—Salt is subjected to a duty of 20 per rent, in a bill framed professedly for revenue, and exanufactures immense quantities of the article and and protection, refused to sustain the bill, unless corded to the manufacturer of Solt. Truly the De-morracy had to bid high for the votes of New York, and the blush of shame must nave manufed the check of the Hollars', Burrs', RENTS' and other South Carolina representatives, who have been so tongue raisant in defence of the extreme decirines of Free Frade, and who nevertheless contributed by their cores to this beautiful exemplification of their consis-

leaving the decision to the Vice President, who sylvanian, would hardly take the responsibility of securing the passage of a measure so obnoxious to its State. For ourselves, we are greatly inclined to think the bill will pash the Sanate. The House has furnished too notable as example of the influence of party drill, to be lost upon that body. If the bill should ultimately be defeated, we shall be very agreeably disappointed.

By the arrival of the Telegroph, Capt. Auld, we have received Galveston papers to the 7th instant. The Telegroph left Brasov Santiago on the 5th, which inter place she left on the 3d, dweet to Mobile.

She took out four companies, of ninety men each, and landed them at Brasos Island. We are giad to learn that all the river boats, except the Potomac, which lately left Galveston for the Rio Grande, have sofely arrived. Without them Gen. Taylor would be unable to move his army and stores, and with them he will probably send the suonble to move his army and stores, and with them he will probably send the suonble to move his army and stores.

Mr. Hugh of N. Y., moved to reion, not having voted with the majority.

Mr. Relic of Mo., then moved a reconote stood aves 101, noes 105.

Since the date of one lant Groular the Gotton markot continued pretty snady, and prices unchanged until the arrival of the Busion Bissamer, on the 14th issue, but so the New York list of 7th. May showed heavier receipts into the American Ports than had been generally anticipaned, she markets has been flat the last four days, and prissa moust be quoted 1-2d lower in most characteristic and flat for the American Coston. The stock in this port, as compared with last year at same date, shown now a vast relative deficiency, being \$80,000 bales lies, and there seems now no reasonable probability of this gives the fice-ency being made up as the season advances.
