G. BOYER'S
CLASSICAL AND COMMERCIAL INSTITUTION
No. 148 Conti Street,

between Dauphine and Burgundy streets.)

THIS Institution, the oldest scholastic establishment in New Orleans, is well known and highly distinguished for the success which has accompanied it ever since its foundation—a considerable number of pupils who have gone out from under the paternal eye of the Principal already acquired some distinction in the various avocations to which they have devoted themselves.

Boarders are limited to one of the largest Mahogany in the city, occupying a central position—is healthy, well ventilated and in other respects perfectly salubrious.

The range of studies which engage the attention of the pupils extends over all the branches of Learning which are necessary to a useful polite and finished education; from primary instruction to the more abstruse subjects which are specially the province of a collegiate course. Discipline so necessary to quicken in the youthful mind a due perception of the duties incumbent on it in its future relations with society, as a comparison, feature of the establishment, being at the same time severe and considerate, whilst the solicitude of the Principal regarding the moral training of the youths committed to his charge, is, though strict, yet paternal.

The English language, daily becoming more and more evident, and the greatest possible importance to all living in this Community, is, in Boyer's Institution, attended to with more than ordinary care, the Professors engaged in this branch being gentlemen of undoubted attainments and long exclusively in tuition.

SANDS' SARSAPARILLA.

For the Remedial and Permanent Cure of all Diseases Arising from an Impure State of the Blood, or Habit of the System.

THE preparation is a combination hitherto unknown in the history of Medicine, differing entirely in its character and operations from the various preparations of Sarsaparilla, which have been at different times offered to the public. It acts specifically upon the whole system, thereby bringing it under its direct and immediate influence. Although possessed of powerful healing effects, yet it is entirely harmless, and it cannot injure the most delicate constitution. When in perfect health, no effect is produced by its use except an increase of appetite; but when disease is upon the frame, and carrying that its victim along the path of life, then its mysterious influence is felt and seen, it enkindles new life and vigor, and brings health and strength to the suffering and diseased.

THE following CERTIFICATE SPEAK FOR THEMSELVES.—The following certificate is only another link in the great chain of testimony to its powerful and speedy effects. Let the reader read and be convinced. What is has done once, it will do again.

CHARLESTOWN, Mass., S.pt. 9th, 1845.

This may certify that my son, aged seventeen, has been for ten years afflicted with the scrofulous humor. At the age of seven years he had the measles, which probably caused the humor to make its appearance in a most singular way—several large boils broke from his head to his feet, with small humors. I consulted a doctor of medicine, and he examined him three days in succession, and not understanding his case advised me to consult Dr. Rogers, of New York. He is now a resident of that city. After a long and critical examination, having more than thirty other medical gentlemen with him at the time, he pronounced it Scrofula or King's Evil. The child was then prescribed for, and commenced taking medical drugs from that time. He grew worse until June of 1837, and then his bones became affected in consequence of the mercury that had been given him. A piece of bone came away from his under jaw, in the first place, as large as a dollar piece, and a piece from his forehead as large as a sixpence, and a piece from near the crown of his head. It then went to the back and neck, and then to the arms and legs. From thence to one of his limbs, separating, in consequence of the ulceration, the muscle and cord from the bones of the same, rendering the limb a part. He had at one time fifteen running sores or issues from the glands of the throat and those places I have mentioned. In 1840, I lived in Portsmouth, N. H., and he was attacked with a Rheumatic Fever, which settled in one of his hips, very much swelled as large as three of the other. Being under medical treatment, they gave him laudanum until he lost his reason. He then became discouraged and sent for a Thompsonian. His medicine helped his hip and restored his reason. The third time he was attacked with this fever in 1842, when hearing of Sands' Sarsaparilla, and being perfectly satisfied that all other medicines had failed to effect a cure, I sent and procured six bottles, and by the time he had taken it all I considered him well. Those places healed—he became light and lively—color came to his face and lips—from that time till the Fall of 1844, his complaints never troubled him. At that time he became deaf, which continued until last March, when a slight cold became affected; from that to the left eye—it quickly ... the eye so that he was in a great measure deprived of sight.

Knowing that Sands' Sarsaparilla was the only medicine that had ever relieved him any good, I applied to Mr. Fowle, Apothecary, at Boston, for more. He has given three dollars' worth, which has removed the humor from his eyes and hearing, and he now perfectly sees to be cured, and radically so. I verily believe all this latter trouble might have been avoided if I had continued thoroughly the use of the Sarsaparilla when he was under its influence the first time.

These are the simple statements of the facts of the case, and I feel it my duty to make those facts known to the public, for the benefit of those who may be afflicted in like manner feeling a full conviction the cure has been effected solely from the effect of this invaluable medicine.

HANNAH W. BECK, 228 Main st.

Suffolk, ss. Boston, October 13, 1845.—The above ... appeared the above named Hannah W. Beck, and made ... oath that the above certificate, by her subscribed ... and written thereto contained, are true.

Before me, JAMES RICE, Justice of the Peace.

The following letter, received from Captain Garrow, a resident of Mobile, is one of the highest recommendations, dwelling in Mobile, shows conclusively the value and efficacy of Sands' Sarsaparilla, in cases of chronic rheumatism:

MOBILE, Alabama, July 30, 1844.

Messrs SANDS—*Gents*—I was advised for more than ten years with rheumatism, and it is with pleasure I avail myself of this opportunity to express to you the salutary effect your Sarsaparilla had on me. In January, 1842, I purchased of your agents, Messrs. Mosely & Tucker, five bottles, which I took agreeably to the printed directions, which entirely removed the complaint, and I have now every reason to believe my health is permanently recovered. Yours, very respectfully,

S. H. GARROW.

For further particulars and conclusive evidence of its superior value and efficacy, see pamphlets, which may be obtained of Agents gratis.
