Sales this week, 39,910 bales, of which 36,510 were American.

Imports this week, 9,936 bales, of which 387 bales were American.

Imported from 1st January to 6th November, 1846, 1,077,939 bales, of which 901,139 bales were American.

Imported from 1st January to 7th November, 1845, 1,486,886 bales, of which 1,347,249 bales were American.

Stock this day, 549,632 bales, of which 389,694 bales were American.

Stock 7th November, 1845, 983,166 bales, of which 692,019 bales were American.

SATURDAY, 14th—The sales to-day have been 7000 bales, 2000 of which are reported to speculators and for exportation—prices are steady.

MONDAY, 16th—To-day's sales have been 6000 bales, 3000 of which on speculation. The market remains steady.

TUESDAY, 17th—The market has been very quiet to-day—the sales are 5000 bales, 2000 for export and on speculation. Prices remain as on Friday.

Imports since Friday, all bales.

LIVERPOOL, November 16—There has been but a moderate business transacted during the past week. The general Produce market remains unchanged, buyers have a good choice, and as, at this season of the year, purchases are generally made with caution, prices continue slightly to decline.

Since Friday, the sales of Cotton have rather increased, and as the importers offer their stocks with freedom, prices may be considered rather firmer than on this day week. The Stock in Liverpool was estimated to be 554,760 bales, against 903,100 bales at the corresponding period last year, and 830,000 at the same time in 1844. As the quantity of Cotton on the passage and shipped is very moderate, it is estimated that our stock on the 21st December will not exceed 450,000 bales of all descriptions. The accounts received by the Caledonia on the 15th instant, were generally calculated to depress the market. The weather in the South had improved and picking was progressing very favorably, but private accounts generally report that, though in the Atlantic States the prospects of the crop had greatly improved—in Mississippi, Louisiana and Alabama, much regretable injury had been done to the plant, that on no account can the crop exceed 2,000,000 bales.

Our Corn market has been generally dull this week and prices are again rather lower. The accounts by the Caledonia has had no impression upon the market, for although parties at Montreal and New York are making shipments to a limited extent, all our present wants are supplied from the interior, and as the trade here are independent of such circumstances. The market here is consequently devoid of speculation. The supply and the actual consumption demand, are now alone regulating prices.

HAVRE COTTON MARKET.

November 15, 1846.

Although the demand has been exceedingly moderate, prices have maintained their ground; and the great scarcity in American inferior descriptions which were almost exclusively sought after, have led to an advance of 1½c. But of the flatness in the transactions has not been productive of any depreciation, it must be attributed mainly to the reduced state of our stock than to any other circumstance. The receipts of the new crop have been confined to a few bales imported in the New York packet ship Iowa; a sale of 482 bales New Orleans is reported to the Rubicon, at 7 90 all round. Sales of the week, 900 bales New Orleans, 855 do Mobile, 975 do Upland, and New Orleans, 1,830 do Upland, previous, 4346 bales. Prices per half kilogramme, in francs, Upland, 83cts@, Mobile, 84@85; New Orleans, 84@ 86 cents.

☞ J. Winer & Co.'s Canadian Vermifuge.—IMPORTANT BEREAVEMENTS—Sudden Deaths frequently occur from Worms, and it is one of the countries most subject to vermicular affections under the most varied and aggravated characters, and although we do not ascribe all diseases of children to this cause, we may advance the fact that convulsions, intermittent fevers which prove fatal when the physician permits to treat fever only, consequently the symptoms do not expel the worms, which first impede the digestive tube, and to obtain this result no family remedy can be obtained than Winer's Vermifuge; it is the only remedy which unites all the following qualities, being pure vermicular, purgative and tonic
