Late and Important from Tampico,

Mexican Accounts.—Fight between 150 American and 1,200 Mexicans—Gallant resistance by our Forces—Successful Retreat—Heavy Loss of the Enemy.

The steamship *New Orleans*, Captain Auld, arrived yesterday from Vera Cruz, which she left on the 17th inst., having touched at Tampico on the 15th and Brazos Santiago on the 20th.

Captain Auld reports that General Pierce left Vera Cruz on the morning of the 14th inst., with 2,500 men and a train of 150 baggage wagons. The *New Orleans* left Vera Cruz on the 15th and reached Tampico on the 15th. Captain A. was informed by Col. Gates that Col. De Russey, with a detachment of Louisiana volunteers, and part of Capt. Wise's company of artillery, and Capt. Boyd, with one company of infantry—amounting in all to 115 or 120 men and officers, had left Tampico, by way of the river, on the 8th inst., for the purpose of releasing the American prisoners, who were represented to be at Huajitla, about 100 miles from Tampico. The detachment landed 60 miles up the river, the steamers *Undine* and *Mary Sommers*, with it, having seen any of the enemy, and the boats returned to Tampico at 2 o'clock, P. M., on the 15th inst.

In the meanwhile, an express arrived at Tampico from Col. De Russey, with information that the Americans had been allowed to continue their march until they reached a narrow pass some miles this side of Huajitla, where they were attacked and surrounded by a body of Mexicans amounting to twelve or fourteen hundred men, under Gen. Garay. De Russey's command had suffered considerable loss; but by the assistance of Capt. Wise's artillery, had been enabled to cut its way through to the river, and had despatched a messenger for assistance. Col. Gates immediately sent the *New Orleans* back to Vera Cruz, with a requisition upon Col. Wilson for 4 companies of infantry. He likewise despatched the steamers *Mary Sommers* and *Undine* up the river with 150 men to reinforce Col. De Russey. The *New Orleans* arrived again at Vera Cruz on the 16th, and found the city in a state of excitement. It appears that Gen. Pierce had marched out, as above stated, and had encamped about 10 miles from Vera Cruz, when the advance guard returned and reported that a heavy force of Mexicans was stationed at the National Bridge, and was preparing to march upon the city. Every thing was got ready for action—the shipping was removed from between the castle and the city, and Gen. Pierce strengthened himself by a reinforcement of 700 men, augmenting the number under his command to 3,200.

In consequence of this unforeseen difficulty, the requisition from Col. Gates upon Col. Wilson could not be complied with. The *New Orleans*, however, was furnished with a small detachment of 25 marines from on board the U. S. Sloop of war *Saratoga*, with which she once more repaired to Tampico, on the morning of the 17th inst. She arrived at Tampico the same day. The officers of the *New Orleans* were prohibited to obtain a correct and somewhat detailed statement of the conflict between the Americans and Mexicans. It was to the following effect:

The detachment under Col. de Russy after proceeding some 60 miles up the river, had landed and marched to within 7 miles of Huajitla. On the morning of the 12th inst., while pushing forward, they were assailed in front and flank, by a heavy fire. Capt. Wise placed his piece of artillery in position, and kept up a rapid fire of grape. The Mexicans, after receiving six or eight rounds, gave way and fled to the Chaparral on each side of the road. The Americans retreated to the river, harassed by the enemy and fighting at intervals, until the morning of the 16th, when they were reinforced by the additions of 150 men. The detachment returned to Tampico on the night of the 16th, having suffered a loss of 20 killed, 10 wounded and 2 missing. Among the former was Capt. Boyd; who fell in the first charge, with a ball through his body. His first Lieutenant fell mortally wounded and was left dying on the field. Col. de Russy had received several balls through his coat. Capt. Wise had his horse shot from under him. The officers and men are entitled to the highest credit for their coolness and courage. The loss of the Mexicans is reported to be 150 killed and 120 wounded; but this is probably a mere guess. The Americans likewise lost 12 or 15 horses and 60 pack mules.

It is stated that the detachment under Col. de Russy was sent out by Col. Gates, at the earnest request of the Mexican Commander at Huajitla, who represented his force as too feeble to escort the American prisoners in safety to Tampico. If such be the fact, there can be little doubt that Col. Gates was made the dupe of the wily Mexican, who had treacherously prepared an ambuscade into which he sought to entrap our forces.

LATER FROM VERA CRUZ.

Later intelligence from Puebla—Prospect of Peace—Appointment of Commissioners by the Mexican Government to confer with Mr. Trist—Gen. Cadwallader and Pillow at Perote—Defeat of the Mexicans at La Hoyd—Views of Santa Anna.

The arrival of the steamship *New Orleans* puts us in possession of files of Vera Cruz papers to the 16th inst. The most important intelligence relates to the prospect of peace, of which we rejoice to find there is now a well founded hope. On the night of the 12th inst., a private express arrived at Vera Cruz from Puebla, bringing very interesting intelligence from that place, the city of Mexico, and Generals Cadwallader and Pillow. The express left Puebla on the 3d inst., and brought private letters dated the same day. Gen. Scott was still at Puebla, and nothing had transpired to induce the belief that he was about moving forward. The city was perfectly tranquil, and no outbreak or disorders of any kind had occurred.

News was received on the 2d at Puebla, from the city of Mexico, that the Mexican government had appointed three Commissioners, viz: Don Manuel Edouardo de Gorostiza, D. Manuel Baranda, and D. Jose Maria Tornel, with full powers to confer with Gen. Scott or his representatives, on the peace proposition recently made by Mr. Buchanan. Gen. Scott indicated Mr. Trist as his representative. The commissioners would assemble on or about the 4th of July.

The rumor that the guerilleros had attacked and taken possession of the town of Perote, was altogether false. The express rider on reaching that town, found it occupied by General's Cadwallader and Pillow and their respective commands. They had been attacked by a party of guerillas while on their way to Perote, and had completely routed and dispersed the enemy. On the side of the Americans the loss was very small, on that of the Mexicans it was much larger; but the precise number of killed and wounded had not been ascertained.

Letters received by a commercial house in Vera Cruz state that there is no doubt that a treaty of peace will be speedily concluded by the commissioners. Santa Anna himself is an advocate of peace, but does not dare openly to proclaim himself. He is said to be awaiting the period when his party shall have attained an undoubted preponderance, and when he may safely announce his views. This will not be for off, as all accounts concur in stating that the Peace Party are daily and hourly receiving accessions.

The Mexicans were still fortifying the city of Mexico, but the means of the government were so limited, that after three months labor it is believed that the fortifications are too feeble to withstand the regular approach of our army. Their demolition would not delay the entrance of Gen. Scott into the capital beyond a single day.

GUERILLEROS.—Great excitement, says the *Star of Anahuac* of the 11th, prevailed in our city last evening, on account of Lieutenant Whipple, Aid-de-camp of the 8th ordinary, having been carried off yesterday evening by the *guerilleros* from the churchyard, about eight gun shot of the walls of this city.

Lieut. W. was accompanied by four of his men when he was captured by three Mexicans, one of whom threw a lasso over him and dragged him off his horse. The lasso was cut with the Lieut. at the time succeeded in reaching his escopet.

Governor Wilson has promptly sent a detachment of dragoons in pursuit of these scoundrels, and we hope they will be overtaken and justice done to them.

City Intelligence.

THIRD MUNICIPALITY COUNCIL.—The Council met last evening. Recorder Seitzeneck in the chair.

Secretary read a communication from the Mayor, relative to a resolution of this body making appropriations for the Levee, to be paid pro rata by the three Municipalities for the support of the prisoners—referred to the Finance committee.

A petition from D. D. Henry, asking permission from the Council to be allowed to use his hydraulic machine, for which he has obtained a patent from the General Government, on the public works of the Municipality—referred to the Improvement committee.

The Secretary read a letter from the Wharfinger of the Municipality, asking for an increase of salary—referred to the Improvement committee.

A letter from Mr. Gannan, a police officer, was read, informing the Council that he found on the sidewalks in St. Ferdinand street, about three weeks ago, a little infant child about three months old. Mr. Gannan, after looking in vain for the parents, took it to the Orphan Asylum; but he was informed that in consequence of the tender age of said child, it would not be received; consequently he was bound to take it back home. Mr. Gannan prayed from the Council that some relief be afforded him, he being a poor man. The letter was referred to a special committee.

A resolution signed by numerous citizens residing in the 4th ward of the Municipality, praying that the Church wardens of St. Louis cathedral be allowed to establish a cemetery on the property of the late M. Cavenagh. A considerable report was also received. Both of these reports were referred to the judiciary committee.

Sundry other petitions were read and referred; they will appear shortly in our paper, when the official report will be handed us.

Mr. Solomon, on behalf of the special committee, relative to the erection of Laharpe street, submitted a report by which the mayor was authorized to pass the necessary acts before the board of the municipality, for the purchase of a piece of ground belonging to Mr. Pepin who tenders it to the same to the Municipality for the sum of $1,500. Said report was adopted.

Mr. Solomon from the Improvement committee, reported in favor of establishing slaughter houses in the rear of the Municipality. Said report was adopted by a vote of nine yeas, to one nay.

The council, after transacting some other business, adjourned.

RECORDER GENIUS.—On Wednesday night last, at about 9 o'clock, Mr. Silver was grievously assaulted, in Chatoubouse street, by two individuals, Peter C. Miller and John Young. Yesterday, the parties appeared before Recorder Genius, who ordered them to furnish bail for their future appearance.

Mr. Newman Kaplan stated under oath, that being quietly seated, last Wednesday night, on the side walk, in front of his house in Royal street, he was assaulted by Gabriel Brown, who moreover threatened to shoot him with a pistol. Brown was arrested and gave bail in the sum of $500 for his future appearance.

James Huddleston, charged with stealing some money from the counter-drawer of the grocery store of Mr. T. Kimball, was sent before the First District Court.

RECORDER HALPWIN.—James Donelly, charged with forgery, was yesterday brought up before Recorder Halpwin who, after listening with the greatest attention to the evidence adduced in the case, committed the accused for trial before the 1st district court—bail $500.

The case of George Grover, charged with having swindled Mr. N. T. Edson, out of $75, the price of a wagon was also called up for examination, when it was subsequently dismissed, the issue involved being of a civil nature.

Thomas O'Reiley, charged with having committed an assault and battery upon watchman Drummond, was sent before the first district court.

Denis Prendergast, for assaulting Ellen O'Reiley, was also sent before the same tribunal. Several vagrants were committed to the workhouse for thirty days.

RECORDER SEITZENECK.—Louis Edmond and H. Kloppenberg were yesterday arrested by officer Rachemin, of the 3d Municipality police, on a serious charge. An affidavit filed against them, in Recorder Seitzeneck's office, alleged that Edmond, under some tales or cotton threats, has, at Kloppenberg's, about two miles from the Levee on the Bridger Colony, and has sold the same to one H. Kloppenberg, who knew them to have been stolen. It is further alleged in the affidavit that the cotton can be now seen in the house occupied by Kloppenberg, on St. Roch's road, and hence the complainants will investigate the case on Tuesday next. Kloppenberg gave bail in the sum of $1000 for his appearance on that day. Louis remaining in custody.

Marian Style f. m. c., was arrested by officer Rachemin, on a charge of concealing the property of his master, a runaway slave belonging to Dr. Style. It appears that Style made a complaint before the Recorder against Owen Dunn for enticing away his slave Mary Anderson, whom he accuses of having some of his (Owen's) money in a certain house at the lake. Recorder Seitzeneck issued a warrant for the arrest of Anderson.

ATTEMPT TO KILL A WIFE AND CHILD.—On Wednesday night last, at about 8 o'clock, Lieutenant Hermiuger, of the third Municipality police, arrested one George F. Coltry, charged with having shot with a pistol, in his house on Cotton Press street, between Crape and Love streets, his wife, Bridget Coltry, and his step child, Maria Shanny. The former was wounded in the foot, and the child in both legs. Coltry is now in the parish prison, awaiting an examination before Recorder Seitzeneau.

ARRESTED.—Officers Bowles and Perrie, of the second Municipality police, arrested yesterday one Richer Gunfield, who stands charged with having in his premises a lot of merchandize supposed to have been stolen. Through the exertions of these two officers, the goods were brought to the constable's office. The prisoner will appear this morning before Recorder Baldwin.

AN UNPARDONABLE SON.—Captain Mazerat, of the Third Municipality police, arrested yesterday one Anatole Deline, charged with committing an assault and battery upon the person of his mother, and then with drawing a knife upon her. The ungrateful son will be brought up this morning before Recorder Seitzeneau.

AFFRAY.—Yesterday, at noon, an affray took place in justice Cruzat's Court, on Conti street, between Mr. Nautre, an attorney at law, and Mr. Bell Young, the State Collector for our Parish. Mr. Nautre was slightly wounded with a sword cane near the shoulder blade.

INQUEST.—An inquest was held yesterday, on the body of a white man, name unknown, found drowned in the river, opposite post 12, in the 2nd Municipality. The deceased had a crippled leg. He wore a white cotton shirt, pair fancy drilling pantaloons with blue stripes, a blue woolen vest, and a pair of coarse brogans. Verdict: "Found guilty."

The Northern Mail failed yesterday from beyond Charleston. This is a rare occurrence now-a-days. For several weeks previous, the mail had arrived with uninterrupted regularity.

SOUTHERN QUARTERLY REVIEW.—Our thanks are due the publishers, for the July number of the Southern Quarterly. The leading article is an elaborate paper on China and the Chinese, in which most of the peculiarities of the manners, customs, government and religion of that remarkable people are described. We have next a view of Coleridge's Life and Works of Robert Hall—his essay, curiously written, on Carolina sports; a paper of great interest and power, on Slavery in the United States; a review of two recent publications descriptive of the valley of the Amazon; a sketch of the Ecclesiastical History of England; a critique of Fanny Kemble's "Year of Consolation;" and a treatise on the law of libel. The number before us offers much variety and interest.

THE CROPS.—The showery weather which has prevailed during the whole of the present month, says the Red River *Republican*, has injured the cotton crop considerably, by causing it to weed and run. We hear nothing of the corn crop.

CAPTAIN ALARCON.—The Montgomery *Journal* says: The caterpillar, or army worm, has appeared in Monroe and Clarke counties in this State. Cotton on light lands is rapidly behind the usual average. In the Cane-Brake country it is represented as very promising. In the Prairies in this section, the healthy and contented raise have caused an extraordinary growth of the plant and consequent shedding of the squares. It is yet too early to form any definite opinion as to the prospects of the crop.

Col. Dennett, secretary of public stories at Vera Cruz, and Capt. Wm. Smith, of the 2nd regiment of Illinois volunteers, have been appointed agents at the city of Vera Cruz, for the sale of the effects of the late Mexican Commissioners.

Capt. Barnard's station, on the Nueces, was attacked by Indians on the 5th inst., and the horses driven off. Capt. B. and his men pursued the Indians, and succeeded in recapturing the horses.

Col. Bankhead, Inspector of the 2nd Military District, has been ordered to Vera Cruz, to relieve Col. Dennett, who is ordered to the city of Mexico.

Lieut. Col. Belton, of the 2nd regiment Texas Mounted Volunteers, has been appointed Quartermaster of the regiment, vice Capt. Thomas, resigned.

Capt. Many counterfeit Eight Dollar Bills on the Bank of Charleston, are sold by the Charleston *Republican*, to be in circulation. The bills, in appearance, it is said, are fine imitations of the genuine bills.

Capt. Thomas, of the steamer *Vixen*, from St. Louis, reports the death of Lieut. Cheatham, of the 2nd Regiment U. S. Infantry, under Capt. Gaines.

Dr. Hamilton, who was appointed at Brazos Santiago, by Dr. Hamilton, has been elected president of the Department of Matamoros.

SOUTHERN QUARTERLY REVIEW.—Our thanks are due the publishers, for the July number of the Southern Quarterly. The leading article is an elaborate paper on China and the Chinese, in which most of the peculiarities of the manners, customs, government and religion of that remarkable people are described. We have next a view of Coleridge's Life and Works of Robert Hall—his essay, curiously written, on Carolina sports; a paper of great interest and power, on Slavery in the United States; a review of two recent publications descriptive of the valley of the Amazon; a sketch of the Ecclesiastical History of England; a critique of Fanny Kemble's "Year of Consolation;" and a treatise on the law of libel. The number before us offers much variety and interest.

THE CROPS.—The showery weather which has prevailed during the whole of the present month, says the Red River *Republican*, has injured the cotton crop considerably, by causing it to weed and run. We hear nothing of the corn crop.

CAPTAIN ALARCON.—The Montgomery *Journal* says: The caterpillar, or army worm, has appeared in Monroe and Clarke counties in this State. Cotton on light lands is rapidly behind the usual average. In the Cane-Brake country it is represented as very promising. In the Prairies in this section, the healthy and contented raise have caused an extraordinary growth of the plant and consequent shedding of the squares. It is yet too early to form any definite opinion as to the prospects of the crop.
