By way of the West we have received intelligence of the arrival of the steamship Britania, together with a meagre outline of the solution and agrammercal advices which she brings.

A new town has been laid off opposite Matamore, by Mr. P. C. Shannon, called Freeport.

We copy the following from the Fleg of the Initial and commercial advices which she brings.

We are indebted to the officers of the first run-

right to make such inquiries, the tresident naving the constitutional right to make appointments during the recess of Congress.

On motion, the subject was laid aside informally.

The bill to enable the President to take mili-

tary possession of Yucatan, being the special or-der of the day, was taken up.

Mr. Hannegan spoke at some length on the subject. He charged England with interfering in the affairs of Yucaian, by sirring up the Indian population to insurrection, and furnishing them with ammunition.

Mr. Clayton followed in opposition. He

hought that the passage of the bill would be a violation of the treaty now before the Mexican Congress, if not raufed, and that it would also, in his opinion, be a violation of the armistice, Mr. Davis, of Mississippi, moved as a substitute that part of the troops now in Mexico, be ordered to Yucasan, and that their places i

From Havit — We have Portan-Prince papers of the 18th ult. The news of the French revolution had reached Havit, and as in duty bound, the people there had a touch of the asme thing. A great number of people assembled in the Champ-de-Mars, and demanded the sholition of the constitution of 1846, the retoration of the constitution of 1866, the retoration of the constitutional revision of 1816, and a dismissal of the Ministry; the army concurred in the same demands. Fresident Stouleque, obeying the voice of the people, as rulers are accustomed to do in 1846, issued a proclamation on the 9th April, announcing that their wishes would be compiled with. Off the same day, he issued, another decree announcing the retirement of Gen. Paul from the Ministry of instruction, Gen. Gabriel, from that of the Interior, and Gen.
