BECORD DISTRICT COURT.—Didge Canes.—In the
Case of the Lewisiana State Bank; Defendable
taking exception to some of the greends alleged in
the prittien of Plaintiffs.—His Honor delivered his
decision yeartering, mentalining the petition of Plaintiffs and disminsing the exceptions. The argument
was on two of the grounds, vis.: that petitioners hidno seatherity to pray for and obtain the writ and the
remedy prayed for, and secondly, that the petition
is vague and insufficient, and upon its face, sets
forth no greend of action. We give the greater por-

don of his Honor's decision serbatim:

Article 300 of our code of genetice in that part of anid code which treats especially of the writ of gue searcaste, says: "A summitte to prevent the userpation of an office, in a city or other corporation, may be obtained by any person applying for the sealer, and the party to whose it is directed when the answer is writing, within the time allowed by non-the-sealer writing, within the time allowed by her answer in writing, within the time allowed by her answer in writing, within the time allowed by her and the party of the companion of the search of the sear iven to the corporation, now before this Court. Wisight take it for granted that every stockholder of the Louisians Mats Bank has a right to pray for an o obtain the writ of gas marrante, and that the arry to whom it is directed must make he snews within the time allowed by the Court within the time allowed by the Court.

To dissume retitionace's compilating on a sechnical asception of vaguences, without justing in it, it what the vaguences less any hostificating in it, it what the vaguences less any hostificating in our law sepondent, would be violating that part of our law what has a committy manner, without going through like or accountly manner to accompt on the required his order of action. BTRAKORLE'S CONUREY.—The musical entertainment of this distinguished arises attracted last eventing a rather numerous and very distriminating audience at the Arisory East, who testified by enchansatic applicate their appreciation of the superior performances of Mr. BTRAKORLE. He is indeed a planist of the most flushed excellence. In the mastery of merely mechanical difficulties, he is not expressed by Leopold De Meyer. Witness the wonderful Prayer from Ottile, with valiations for the left hand also, performed last night, while is energrace and purity of touch, coupled with keenness of americality, and the exquinte merit of the composition, he exceeds his Austrian completion. It may be safely said that no pishist who has visit America has displayed a more perfect command of his instrument than Maratza Strazgoria.
