OLD MR. JACOB TOWNSEND.

THE ORIGINAL DISCOVERER OF THE GENUINE "TOWNSEND SARSAPARILLA."

Old Dr. Townsend is now about 70 years of age and has long been known as the author and discoverer of the genuine original "TOWNSEND SARSAPARILLA." Being poor he was compelled to limit his manufacture, of which account it has been kept out of market, and the sales circumscribed to those only who have proved its worth and known its value. But now, relieved by means over others, all those persons who had been healed of their diseases, and saved from death, proclaimed its excellence and wonderful

### Healing Power.

Unlike young B. F. Youngman's, it improves with age, and never changes, but for the better; because it is prepared on scientific principles by a scientific man. The thirteen hundredth anniversary of Chemistry, and the latest discoveries in that art, have all been brought into requisition in the manufacture of the old Dr.'s Sarsaparilla. The Sarsaparilla root, it is well known to medical men, contains many medical properties, and some properties which are inert or useless, and others, which if retained in preparing it for use, produce fermentation and acid, which is injurious to the system. Some of the properties of Sarsaparilla are so volatile that they speedily evaporate and are lost in the preparation, if they are not preserved by a scientific process, known Dr. Jacob Townsend alone, and just now brought to perfection, based on the principles of Chemistry, and all affections arising from impurity of the blood.

It possesses a marvellous efficacy in all complaints arising from disorder of the digestive organs of stomach, from unequal circulation, determination of the blood to the head, palpitation of the heart, cold feet and hands, and a thousand and one ills that the body. It has not its equal in Colds and Coughs and promotes easy expectoration, and gentle perspiration; relaxing stricture of the lungs, throat, and every other part.

But in nothing is its excellence more manifestly seen and acknowledged than in all kindred stages to make up the catalogue of maladies to be told as above.
