Monday Morning, Jan. 28, 1850.

REPORT OF THE STATE ENGINEER Our thanks are due to Mr. WOOLDRIDGE for a copy of his annual report on the Internal Improvements of the State, and before the Legic. la'ure a few days ago. It is a pamphlet of very ring many suggestions for the fu lorges of the State have been engaged, and the passage of a resolution providing, that when

nge ha bed, and then proceeds to inwo leading plans are, to comme the waters than their natural channels by levees or dikes. and to relieve the channels from superabound

conclusion that entire dependence on the econstruction on a larger reale. Another and stronger objection is the insufficiency of the prong of a yielding character, melts and dissolves vitem of protection, he in a great mea-

to make lateral outlets, and to enlarge the natural desouthes of the atream --rcommends the improvements of the tipps may be greatly increased. The reporbecause the would eventually fillup | will a troop or not because the would eventually fillup | Hon's Magazine

CONGRESS. The proceedings of Congress on the 17th w ich, through the irregularity of the mail, only reached us yesterday, presented various features of interest. In the SENATE, the resolution her-iofer offered by Mr. Clemens, calling for in-formation as to all proceedings, instructions, &c., of the President, &c., in relation to Cal

&c. of the Premdent, &c., in relation to Cam-fornia, was taken up.

Mr. Smith moved to lay it on the table. This motion provoked a long discussion, in which the eternal slavery question was freely mosted.— Mr. Clemens, the Senator from Alabams, in the course of his debate, made the following emphatic remark:

North never would march against the Sounthouse state expected to protect and keep up the same.

The finances of the department were in an embarrassed and impoverished condition when Mr. Woodd impoverished condition when Mr. Woodd impoverished to the amount of \$11,000. It is believed that the annual appropriation for the Department will be sufficient, under the present sphere of its operations—The amount of Internal Improvement lands now belonging to the State is 229,734, 26-100 acres.

The latter half of the report is devoted to the consideration of two subjects—the best method of protection against mandation and the draining our swamp lands. The first will aid materially in effecting the last. The report enters upon an elaborate examination of various serious facilities. The protection grams in the first will aid materially in effecting the last. The report enters upon an elaborate examination of various serious facilities. The protection spansition of various serious facilities are considered to the first will aid materially in effecting the last. The report enters upon an elaborate examination of various serious facilities. The protection against annual arms of the first will aid materially in effecting the last. The report enters upon many laborate examination of various serious facilities. The serious facilities are protected to the first will aid materially in effecting the last. The report enters upon many laborate examination of various serious facilities. The serious facilities are produced. A FEMALT NAILOR.—There was taken into custody on Turnday siternoon, at New York, on suspicion of larceny, a imasculine looking woman, who gave her planne as Shorty, or Rough and Ready. She was found on the Points, making acceptance to have plenty of cash. When brought to the Tombs, she strined that many mosths since site engaged as a male sailor on boat d a slip bound for California, and when doubling the Lape was taken sick, then her text was discovered to have the sound the sound the sound of the captain with whom she shripped, after making the discovery, look steps to have her sent back to this port, which the sound effected. This feminine sailor shipped from Nanucket under the assembled name of George Johnson, and according to her own account, performed all the duties of her profession with heiser to here if and to the satisfaction of the capiain. As no good cause for her desention was shown, she was discharged.
