CHOLERA.

A SURE REMEDY! A PREVENTIVE!!

A CURE!!!

THE following letter is from Mr. J. N. HARRIS, of St. Louis, to J. N. HARRIS, Esq., New London, Conn., General Wholesale Agent for our PAIN KILLER.

Mr. Woodward is a resident of St. Louis, a gentleman of high respectability, and during the prevalence of the cholera in St. Louis, has watched the result of the application of our Pain Killer; this is more than DAVIS'S SUGAR and SYRUP, and anticipations have been more than realized, and the testimony of thousands who have used it has been that they would not be willing to go to bed at night without it in the house.

The appearance of the cholera in this city, such was the confidence in the Pain Killer as a remedy, that many who purchased it as a preventive, are thankful to say had no fears or dread of the cholera as long as they had the Pain Killer by them, and hundreds took it daily as a preventive, for the slightest derangement of the bowels or diarrhea if they use this medicine daily. Such was the security and confidence of hundreds acquainted with it, that when their friends were attacked with the cholera they would administer this generally in large quantities internally, and also externally by rubbing and rubbing them with it, and in every case where it has been taken in any of the first stages of this disease, it has proved successful. I consider it an infallible remedy. I have not heard of an individual in any family who used the Pain Killer when attacked but what speedily recovered.

Capt. Broadbent, of the steamer Atlantic, a New Orleans packet, informed me that on one of his trips up the river to this city, that there was forty cases of severity cases of cholera on board, and the Pain Killer was used with complete and triumphant success.

The clerk informed me that he administered it to persons when cold and in the collapse, and it gave immediate relief; but still it should be used daily, for as soon as the discharge of "rice water" has begun, the hope of life has fled. Should this disease make its appearance among you, as we all probably will, be not alarmed, you and all others there have the remedy at hand. I am confident if the Pain Killer is used not a death by cholera will occur in your family. If the cholera comes among you, watch its progress, and the minute you hear of a case, search my words, the family who use the Pain Killer daily will have no diarrhoea, no disarrangement of the bowels, and consequently no cholera. If those who are attacked will use the Pain Killer daily and in large doses they will be saved. This has been the experience of hundreds in this city during the ravages of this dreadful disease.

I have not been able to supply one fourth of the demand I have received orders from persons begging me to send them a supply.

Now, for your own sake, for my sake, and for the sake of suffering humanity, make some arrangements that your agents shall have a supply with your manufacture, do something that a suffering world can be benefited from pain for the time will come when not a family on the continent will be willing to do without it a single day.

Respectfully, yours,

A. T. WOODWARD.

Those using the Pain Killer should strictly observe the following directions:

At the commencement of the disease take a teaspoonful of Pain Killer in sugar and water, and then bathe freely across the stomach and bowels with the Pain Killer clear.

Should the diarrhoea or cramps continue, repeat the dose every fifteen minutes. In this way the dreadful disease may be checked and the patient relieved in a few hours.

N. B.—Be sure and get the genuine article, as there is some spurious stuff about the country. For sale by the principal druggists in the United States.

PERRY DAVIS & SON, Proprietors,
