[Correspondence of the N. V. Jour, of Commerce.]

Washington, Sept. 30.

It was hoped that after the official denial of any interference by our Government with the Bruish pretensions in negard to Niceragus and the Micquin kingdom, the matter would be considered as a test. The denial, though true in form, it regarded by many as evasive in substance. There are diplomatic reasons for a direct correspondence with the British Obvernment on the subject, instead of appealing to the Charge fore. But in quarters supposed to be well advised, it is now represented that this government has taken its stand against the claims of Great Britain, though no correspondence is to take place until gifer the arrival of Mr. Bulwer. It is greatly to be feared, therefore, that the government is prepared to run a diplomatic sitt on this question.

RIOTOUS MANIFE-TATIONS AT HARRISBURG — A correspondent at Horrisburg sends us an account of a disturbance which occurred in that borough on Sauraday night, which was created by the impression that a number of runsway slaves were secreted in the town. A row occurred at the door of a colored church, where some of the slaves were supposed to be. The shriff armed a parry of ment to restore order. Four colored men were arrested, but the slaves excepted, and it is resid are on their northward journey.—Phil. Ledger.
