### CUBA.

It current rumor, in the absence of definite information, is to be trusted, the reason upon Cuba will soon be what the French call accomplished. Indeed, it is probably believed that various points along the Gulf coast, such as Chagres, the neighborhood of Saint Domingo, &c., large bodies of men have been concentrated, so that the expedition numberless, and it is said, is now prepared, with its military bands and the like, to march to the front. The French have sent troops to the frontier.

A letter from Santos, of the 15th inst., announces the loss of the mail boat between Havana and Gibaraon, with 14 passengers and crew.

### THE CARDINAL.

The Cardinal Archishop of Cambay died in that city on Tuesday morning, after a lengthened illness, aged 50.

Private letters from Oran, state that an insurrection has broken out in that portion of the Moors, adjoining the French possessions in Algeria. The rebels had occupied the town of Taza. The French authorities have sent troops to the frontier.

There is an appearance of increasing interest among the members of Congress and the present Cabinet.

Mr. Stanly did not seem—the year and being taken, the rebels were suspended.

Mr. Stanly then moved the previous question.

Mr. Stanly wanted to move an amendment.

Mr. Gerry, of Maine, voted an amendment, and the bill was referred to the Committee on Foreign Affairs.

Mr. Harper was to be First Clerk of Lord Durham in town.
