We feel much obliged, says the Savannah Republican, to the "indignant gentleman" who administered the ponishment; but what a commentary does the proceeding furnish upon the conduct of the Northern people towards the slave? They denounce slavery—assist ingislave? They denounce slavery—as its ingi-tives to excape—and spend slauch breath and but little money for the amelioration of the black race; and yet when they see a colored "germman" acting upon the principles of equality for which they contend, and escorting one of their own "kith and kin" through the structs, they follow him and thorsewhip him for it.
