THE COMPROMISE.

WHIG PLATFORM.

The series of acts of the 31st Congress commonly known as the COMPROMISE or adjustment, (the act for the recovery of fugitives from labor included,) are received and acquiesced in by the Whigs of the United States, as a final settlement, in principle and substance, of the subjects to which they relate, and so far as these acts are concerned, we will maintain them, and insist on their strict enforcement, until time and experience shall demonstrate the necessity of further legislation to guard against the evasion of the laws on one hand, and the abuse of their powers on the other—not impairing their present efficiency to carry out the requirements of the constitution, and we deprecate all further agitation of the questions thus settled, as dangerous to our peace, and will discountenance all efforts to continue or renew such agitation whenever, wherever, or however made—and we will maintain this settlement as essential to the nationality of the Whig party, and the integrity of the Union.

THE CONTRAST.

Gen. Scott.

Sir, I am dead for the Constitution—dead for the Union—dead for the Compromise—and dead against any man who is opposed to them, or either of them!

Gen. Pierce.

I have been asked if I hired that Fugitive Slave Law. I answered sir, I loathed it. I have a most revolting feeling against the whole thing: the law is opposed to humanity. It is contrary to moral principle.

Speech of General Scott before the Whig Pittsburgh Delegation.

Speech of General Pierce at Manchester (N. H.) on the 3d January, 1852.

☞ THE NORTHERN MAIL came through yesterday with the latest dates.

BEWARE! BEWARE!

Again we lift our voice in solemn warning to the Whigs, and bid them prepare for the thousand infamous lies and slanders upon General SCOTT, which will be sent hither by telegraph and mail, between this and the election. We have AUTHENTIC ADVICES from Washington that every experiment upon public credulity will be tried, that promises the faintest hope of success. We expect to hear General SCOTT charged with promising to free all the slaves in the country, and to receive assurances that Mr. PIERCE will, immediately after his election, buy a plantation in Virginia and stock it with a hundred negroes. The Whig party must make up their minds that the Campbell forgery, and the Penn and Forney fabrication are not the only weapons left in the armory of Locofocoism that party, on the eve of important elections, is to circulate all manner of libels and inventions.—In 1840, General HARRISON was charged, to his face for refutation, with having written a letter to the Abolitionists of Ohio, pledging his influence in their behalf. In 1848, the notorious pe to the Washington *Union* but a few days prior lytical profligate BENJ F. HALLETT, telegraphed to the election, that General TAYLOR had transmitted a letter to the, Northern fanatics, expressing himself in favor of the Wilmot Proviso. It is altogether likely from these precedents and from the lowly specimens of Locofoco rectitude known to all the country, that similar attempt will be renewed. Forewarned is forearmed.

It is rather humiliating that the South is always made the theatre for these fraudulent devices. It would seem that the Locofoco leaders have so contemptible an opinion of Southern intelligence, and regard us as so absurdly sensitive on certain questions, that they think they can fool us to the top of our bent and that we are ever ready to credit the most egregious assault contradictory humbug they may think proper to palm on us. They do not attempt to gull the North, for the shrewd politicians of that region are too wide awake to be caught with such stuff as surpasses to suit the southern market. The wares sent forth by Locofocoism, though of the flimsy and rotten material which will not stand a moment's handling, and which has already been torn to shreds two or three times, still continue to arrive in extraordinary quantities. The Locofoco venders pullers have found that they can persuade the South, that all the products of their manufactory are sound and durable.

But whether their frauds are transparent, or difficult of detection, the Locofocos are resorting to them with an industry quickened by the near approach of the election. The perverted ingenuity, to use the language of the *Republic*, which has been employed in concocting false statements, and in discolering true ones, will have work to do until the end. Its frauds are too important as means of effecting Democratic objects to be discarded just now; and they will assume a bolder shape as the chances of exposure diminish. Specimens of the kinds and trickery resorted to by Democratic agents in remote localities have been forwarded to us—sometimes as handbills, and in other instances in the form of secret circulars. In every case, the matter purports to have been derived from distant places; the aim of course being to evade or to lessen the probability of detection. By and bye, handbills and circulars and confidential conversations will be superseded by false telegraphic dispatches.

By and bye, says the *Republic!* Already has this thing been done. Already have false telegraphic despatches superseded conversations and newspaper reports. The plotters have grown bolder in their iniquity, and scorning mere innuendo and insinuation, have resorted to direct inventions which, by the agency of lightning, have been scattered all over the country. But the people have been duly warned, and the schemers will be foiled.

We say once more: BEWARE OF DEMOCRATIC FRAUDS!

PENNSYLVANIA ELECTION.

The official vote in all but twelve counties of the State gives George W. Woodward (Dem.) for Supreme Judge, 156,371; Joseph Buffington, Whig, 142,518. The same counties in 1848 gave Gen Taylor 139,711, Gen Cass 159,187, Mr Van Buren 5,304. These figures show a falling off in the aggregate vote of 40,713, of which the Whigs have lost 30,193. The remaining counties gave in 1848, Taylor 13,019, Cass 12,099 Van Buren 5,473.

The Courier has an article entitled "Scott eating Soup with Seward." We advise our neighbor to write another with the caption "Spoke drinking wine and spouting Democracy with John Van Buren."

☞ TO THE FIREMEN.—The members of the Fire Engine Companies of this city will find in our columns, an advertisement of the Sheriff of the parish of Orleans, to which their attention is called.

FROM HAVANA.—The bark Milladoo, arrived yesterday from Havana, having sailed on the morning of the 24th inst. Captain Butler reports the arrival at that port of the United States Steamship Powhatan on the 22d. When he the Milladoo sailed, nothing had transpired to his knowledge, between the officials at Havana and the American Minister.

WISCONSIN.—It is a fixed fact, we believe, that the Democratic candidate for Chief Justice of the Supreme Court of Wisconsin, voted for the people on the 97th ultimo, has been defeated. The official returns from twenty-one counties show the following result. Messrs Larrabee and Wilson are competitors for the station of Chief Justice, and the other gentleman named are opposing candidates for Associate Justices:

Independent Ticket.	*Democratic Ticket.*	
Whiton,	11,788	Larrabee, 9,806
Strong,	10,619	Smith, 10,637
Knowlton,	9,181	Crawford, 10,526

☞ MARTIN VAN BUREN—the Candidate of the Abolitionists for the Presidency—has written to a friend of the latter, at Boston. His whole soul is enlisted in this contest—and he urges the Free-soilers of Chicago, to whom his letter is addressed, to put forth all their energies—"Our cities are bright, the cities—our union is complete. Our enemies divided sparsely in every locality." His language is strong. He assumes his throne on slavery and all other sub jects—and *if his life is spared* he will vote for him. "The Whig State Conventions, past, or of this same epidemic, is entitled to no-be to speak as the whole people. Everything else to be left to the discretion, of the people, to do everything they think necessary and will be best to secure organization to Van's interest himself at the South, if he can succeed, by means of one of his enemies, in passing possession of the Government.

THE STUPIDITY OF SLANDER.

The great Roorback sent hither by Messrs. PENN and FORNEY touching the *Crescent City*, Lieutenant FOSTER and the Government, has absolutely rendered Locofocoism not only ferocious but silly. Our neighbor of the *Courier* gets into a towering rage, and writes a comically ferocious rhapsody on the subject, in the course of which it intimates that whether FORNEY & Co., told the truth or not, the fact is equally damning to the administration,—because according to our sage contemporary, "if FORNEY falsified the affair, the facts were suppressed at the North, and sent only to the South. This, the reader will understand, is one of those broad assertions for which not a shadow of evidence exists, and in which the *Courier* habitually indulges. Quere? How does our neighbor know that the charge has gone uncontradicted at the North? Answer us that master BROOS, or confess by silence that you are gravelled.

No man in the community doubts the authenticity of our despatch, says the *Courier*. This is rich. Just substitute for "doubts," "*believes*," and the sentence will read in accordance with truth. The Locofocos themselves laugh and shake their sides over it, as they did over the CAMPBELL forgery, deeming both pretty good "last cards," but knowing that their leaders have cried "wolf" so often that nobody credits one syllable of what they say.

Internal Improvements and the New Constitution.

The following letter addressed to the Secretary of the New Orleans and Opelousas Railroad Company, in reply to a notice that the writer was required to pay two instalments on his stock, was handed us yesterday with a request to publish it. We do so very cheerfully, and we invite particular attention to the brief and lucid manner in which the writer explains his position, and to the force of many last sentences:

JEANS LINE designs residing in Dresden.

During a religious festival at Kolna, in Galli cia, some thieves set fire to a Jewish Synagogue for the purpose of plunder, and in the confusion 36 ladies, several of whom were of high rank, were crushed to death.

TURKEY AND THE EAST.—The Sultan of Turkey was dangerously ill.

An attempt had been made to assassinate the Shah of Persia, in which he received two wounds. Two of the assassins were cut to pieces by the guards, and two of them escaped alive.

CAPE OF GOOD HOPE.—Advices to August 20th state that skirmishing continued without any decisive result. Gold had been discovered at Water Doof.

THE CAMPAIGN.

Extracts from Letters received in Washington.

EDENTON, Oct. 16.

NORTH CAROLINA.—"You need have no fears for North Carolina; she is fully aroused to the importance of the present struggle, and will do her whole duty in November. We here consider her the most certain State for Scott and Graham in the Union, and are assured that, if the same enthusiasm exists throughout the country as this contest has excited among the Whigs of the "Old North," our candidates will be elected by the most triumphant majority ever received in this country. Again let me insist that you shall have no fears for North Carolina; she will certainly come out right in the end, and will assuredly do her part, and remember that she is now, as ever, Whig to the core. We are organized thoroughly in this county, and I understand that the Whigs in that section of the State are making every effort to ward the same ends."

CAROLTON, Oct. 13.

OHIO.—"Our little county of Carroll is true to the core! She will respond to the nomination, impulsively and effectually, for Scott. We gave Gen. Harrison a majority of 132. We will give Scott at least 300. Should parties vote, over and above all others, Scott is one hundred votes stronger than the Whig party in this county will be found to lead. I think I believe that we shall carry the State, and such is the opinion of many well-informed gentlemen with whom I have corresponded."

OHIO FOR SCOTT.—The [Cincinnati *Gazette* of the 18th inst., has the following article:

Ohio.—From an examination of the votes in the State, as far as they have been received, we are satisfied the Locofoco vote on the State ticket, cannot exceed 10,000 majority, and on the Congressional ticket will fall below 7,000.—Judge Caldwell, who heads and leads the Locofoco State ticket, is personally popular, is nearly allied to the Prescott party, and has out his old friends in nearly every district. Seven counties on the Western Reserve the Whig majority is now 1?3, where in 1848, Cass beat Taylor 2,078, making a Whig gain of 2,261 The entire Reserve, we say, has given a Whig majority of 4,000. Cass majority in the State was 16,446—some fourth of which is made up in these 12 counties. It is well known that in the past State Election a small vote was polled, and we have every assurance from our intelligent friends in numerous Whig counties that they will increase their majorities at the Presidential Election from 200 to 500 each

The Reserve is to be the only part of the State, where anything like a full vote has been cast, and gone over to the Freesoilers, and in the Presidential contest the same thing will occur to a much greater extent.

Our decided opinion is that if every Scott man—every individual who admires and wishes well to the people—will turn out and vote as he ought on the 2d of November, that the hero of Chippewa in the Buckeye State, will come out of the contest with a large majority.

BLOCK COURTESY.—The New York *Courier and Express*, speaking of the late reception of the *Black Warrior* at Havana, lately, says:

It is quite in keeping with the Spanish Colonial policy in such matters, which is to

"Compound for sins they are inclined to, By damning those they have no mind to.

It is their wont to endeavor to conciliate for their tyrannical conduct to those whom they wish to oppress, by an excess of courtesy to those whom they wish to favor and protect. In the present case, it is safe to say that the unmeaning compliment will not be allowed to balance the deliberate insult.

Telegraphic Items.

HALIFAX, Oct. 21.

THE FISHERY QUESTION, &c.—The citizens of Halifax are getting up a public dinner to Admiral Seymour, in testimony of their approval of his manner of protecting the Fisheries.

CONGRESSIONAL NOMINATION.—The Whigs of the 31st Congressional District, have nominated Thomas T. Flagler, as their candidate for Congress.

LANCASTER, Oct. 21.

PENNSYLVANIA STATE FAIR.—The crowd is still increasing, and 40,000 strangers are supposed to have visited the Fair to-day. The streets are literally jammed with people. An address will be delivered and premiums distributed to-morrow. Great disappointment was felt at the non-arrival of Gov. Pratt.

PHILADELPHIA, Oct. 21.

MUSICAL MATTERS.—Ole Bull gave a concert here to-night, which was largely attended.

The Philarmonic Society, assisted by Adelina Patti, Maska Hauser and Strassoch, give a concert to-morrow night.

ALBANY, Oct. 21.

THE JERRY RESCUE CASE.—In the Jerry rescue case to-day Enoch Reed was called on, when a motion was made to quash the indictment on the ground of irregularity in summoning the Grand Jury who found the indictment. The argument was continued all day.

WASHINGTON, Oct. 21.

WASHINGTON AFFAIRS.—The U. S. steamer Water Witch was launched this afternoon from the Navy Yard, in the presence of a large crowd.

A number of Democrats went up to a Democratic meeting at Rockville, Md., to-day in omnibuses.

The Whigs had a meeting last night in the Northern Liberties.

Aphorisms from Punch.

The men who flatter women do not know them sufficiently, and the men who only abuse do not know them at all.

Romances generally end with a marriage. And many young girls, when they leave school, would wish to go through the romance of life—as they do most romances—by beginning at the end.

Women should rule but not govern.

If you wish to learn the worst fault of a woman, praise her highly in her friends.

Woman is a most beautiful book, that too frequently is condemned for its errata.

You can generally tell how popular you are with a lady, by the length of time she keeps you waiting whilst dressing to receive you.

A fan is a most handy little instrument for those who have lost the art of blushing.

Vows are the bad money—the I O U's and post-obits with which the man pays a woman the debts of his heart.

If a young lady has a purse with two ends—silver in one end, and gold in the other—she is sure to open the gold end first.

The only time when women talk much amongst one another, is when they are waiting for the gentlemen after dinner.

The eyes of a pretty woman are the interpreters of the language of the heart. They translate what her tongue has a great difficulty in expressing.

If you wish to close a lady's lips, ask her her age.

Few women keep a diary after their first love.

Tell me how many lady's maids a lady has had, and I will tell you her temper.

A man who has loved madly will laugh at his madness as soon as he has got cured of it; but a woman never laughs upon that subject.—Wish her love is a madness of which she never sees the folly.

I don't know which is worst, a man who marries for money, or a woman who plays at cards.

The signal for conversation amongst women is when a pretty girl begins to sing.

Women will forgive everything in a man except his being a bore—everything in a woman except her being pretty.

Female forgiveness, illimitable as it appears to be, has, however, its limits. A woman will forgive an angry word, or a smear, or a shrug of the shoulders, or a slight elevation of the nose, or a pinch, or a scratch—she may even be induced to forgive her being prettier; but, to her dying day, she will not forgive her wearing diamonds when she has none herself.

To paint angels, painters have borrowed the likeness of women; to paint devils, the likeness of men.

MURDER AT MILWAUKIE.—John M. W. Lane, of Milwaukee, was shot and instantly killed, in that city, on Thursday week, by a Miss Wheeler, a milliner of that place. Miss W.'s counted Lane on the street, and asked him if he was going to marry her. He replied in the negative, whereupon she drew a pistol and shot him through the head. Lane had been paying court, but his wife and he had parted some time since; and it is not improbable he had promised the girl to the act by deceiving her with a promise of marriage.

Miss Wheeler came to Milwaukee from Cleveland, Ohio, where her parents and friends reside. We also learn that she has surrendered herself to the authorities of that city, and is now in custody.

NEW ORLEANS, Oct. 27, 1852.

TO BENJAMIN F. FLANDERS, Esq.

SIR:—I have received your letter of the 13th inst., calling upon me for two installments upon my stock in the Opelousas Rail Road Company.

The unanimity with which a Convention was called to remodel the abuses of the present Constitution of the State—chiefly by removing the restrictions upon the enterprise of the citizen—led me to subscribe to a small number of shares of stock, intending to invest some my associates, and myself, largely, upon the reason that I felt confident the investment would prove profitable.

Since that time a Constitution has been adopted by a great majority of the Convention, which seems adequate to the enlargement to the affairs of our State. An unexpected opposition has, however, been organized to that instrument which renders its ratification doubtful Until that question be decided, I decline paying any further instalments. Should the present Constitution be still fastened upon us, I shall not only abandon my subscription, but shall congratulate myself that I am not involved to a greater amount.

I am, sir, very respectfully,

LATER FROM HAVANA.

By an arrival from Havana, we have received files of papers to the 23d instant, inclusive.

The *Diario de la Marina* of the 22d, contains a violent article on Lieut. Porter and the great New Orleans meeting. The *Diario* says that Lieut. Porter's letter was read before the assemblage was a tissue of falsehoods, and that in the same individual who was expelled from the United States Senate in 1846, for writing a letter to the New York *Times*, accusing Senators of having been bribed by British gold, to take the part of England in the Oregon controversy. In respect to the New Orleans meeting the *Diario* is quite severe upon Judge Lavaud, and expresses its horror that a judicial officer should despise Grotius, Vattel and other writers on international law. It likewise contends that the Spanish journal—*El Pelayo*—was compelled to suspend its publications, as the authorities could not protect it from the fury of the populace.

The Royal Gazette of Madrid, of the 20th and the principal prizes fell to the following numbers: No. 32,097, $30,000; No. 37,765, $20,000; No. 35,526, $12,000; No. 32,933 $6,000. Nos. 4660, 31,033, 32,071, 32,843, 33,370 each $2,000. Nos. 4,914, 15,744, 17,287, 24,493, 25,476, 25,963, 29,978, 30,301, 36,318, each $1,000.

Ohio Election.

In nearly every County where a spiritual contest was made and a full vote polled, there is a decided Whig gain; but the State was a Districted for Congress, that in four Districts Whig majorities are so overwhelming as to paralize effort, and keep down the vote. The Whigs having no chance, made no serious exertion. Yet, besides the four members allotted to them in the Apportionment, they have carried three others, besides Galloway's, which is there if the votes are fairly counted and the actual majority declared. Two other Districts, naturally and naturally Whig, are so rejiggled as to say office, from that of Governor down; but a white man, whether a native or foreigner, can never do either if he happens to hold particular religious opinions. A Carroll or a Gaston would be estranged inferior to the straightest woolly-head that ever came from Africa.

On this subject we have the following from a Whig correspondent:

WASHINGTON, D C, Oct. 13, 1852.

To the Editors of the Whig:

"Gentlemen: Am the Catholics of your vicinity organizing for Mayor Hampshire, a free negro? If so, I will not vote. Why a voluntary association of Catholics, as such, should meddle with the election of Mayor, I cannot understand, unless it be for the purpose of electing one of their own faith. Such a course is fraught with danger to our free institutions, and should be frowned down by every patriot. Let the Catholics vote as citizens, and not as Catholics, and everything will go right. Let them form themselves into a party as such, and they will be justly chargeable with the evils that will follow.

"Yours, &c."

Wherever the Whigs saw a chance of success they made a rally and a gain. As there was neither Governor nor Legislature to elect, not enough interest was felt by the Whig masses to turn out for Congressmen or Judges. Contrary to our expectations, the number of votes cast will fall far behind a full vote. The poll was comparatively light. Not less than 30,000 Whigs neglected to vote. Nothing less than a Presidential election can call out a full vote. Gen. Scott will get at least 5,000 Democratic votes, 5,000 Free Soil Whigs, and 25,000 Whig votes, who remained at home.

At the recent election, the question of the Presidency was not before the people heard. Everything thrazed on local issues and local vigilance The Whig vote is full only where they expected to carry some candidate, but the Loco-Foco vote is about alike, full everywhere.

We feel the most unshaken confidence, that the Old Hero will sweep the State. In 1840, with a strong candidate for Governor, hard times, and great excitement, yet Gen. Harrison ran ten thousand better than Corwin. In 1844, Clay, in the face of a heavy Abolition defection, ran 5,000 better than Bartley, and in 1848, Taylor outran the Whig Canal Commissioner, in Pennsylvania, 18,000. So it will be this fall, but more so. Who disbelieves that General Scott will not run a dozen votes better per township, on an average than Haynes? It would make a change in the vote of 30,000.—On the Reserve, he will gain 600 votes per county, on an average, over the State Ticket, and in the same ratio in most parts of the State.

From now until the November Election, the Loco Foco Press will let off an immense quantity of gas about the recent State Elections, to delude their readers, and make capital for their rickety Presidential candidate. Pay not the slightest head to their barking.

From the Richmond Whig.

NEGROES IN NEW HAMPSHIRE.—There are many contradictions between the acts and professions of the exclusive and self-constituted champions of southern rights. It looks queer to a man up a tree that they should go to the borders of Canada for a champion of southern institutions. It looks still queerer that they should select one who revels at slavery—abhors its existence—and who has declared that "*the men who would dissolve the Union* (the Abolitionists) *did not wish to see it, but to explore slavery more than he did.*" But what is, if possible, still more marvellous is, that they should have gone to a State where *negroes* are on a footing of equality with *native whites*, and on a much *better* footing than *foreign whites*. Call in a *gentleman* and a *sovereign* in that Democratic community, and you will find no subject.—No eligible to any office, from that of Governor down; but a white man, whether a native or foreigner, can never do either if he happens to hold particular religious opinions. A Carroll or a Gaston would be estranged inferior to the straightest woolly-head that ever came from Africa.
