PUBLIC NOTICES.

THE DAILY BEE Tuesday Morning, May 94, 1888.

The Northern Mail came through yeaterday with the lettest detect.

The question is often salved, well respective,
fruits and other salved of describe cannumptien, are so much dense in New Orleans, then
in the other victor of the Booth and Warst.
The fact, at the Seat Hapel, seems the more
anomalous, as parkeps there is hardy a sall
to be fruit throughout our coughty better
adapted for the colture of the histohem garden
and orchard—its fretility being surivailed,
whilst the mildeness of the buspersture brings
regustables to great perfection and increases
the number of crups. It is well knewn that
these who really carry an horticalizes upon
accessible principles, sort only succeed is rearing
the usual products of the garden in visat abundance, but expressions Hetle difficulty is obtainleng in seaple employ of the rarer and more
defineds descriptions. Yes, let any one seemtoneed to the prious salved for fruit mel vegets
blee in Cincinnais and St. Leels, or oven at
Mabille. Nachons and Vichaburp, take a walk
through our mankets, and constrast the streamine
derives, and he will probably be greatly
naturabled at the fact, and paralled to scoonst
for it. The difference in the value of money
will not swifes to explain it, because this in
not by any means proportioned to the differsuce is prices. New York in really as dear a
sity as New Orleans, and in various respects
much dearer, yet resit and vegetables and fruit of
It will be exist that vegetables and fruit of

recruse of a year. A saving by twenty thousand families of \$150 annually in this respect alone will produce the very considerable sum of three

ELIGIBLE INVESTMENT AND DESIRABLE

Nearly all the beauty and fashion of our city and neighborhood steended this brilliant affair and revening. The lateness of the boar prevents our detailing the many glorious effusions of the great Planist—suffice to say he is fully equal to all the eulogiums peased upon him by the press of New York and New Orlesses.

By the unenimous request of the andience be will give another and final concert on Monday evening next when he proceeds up the river.

The anthusiam last evening exceeded anything even beard in our city since the farer created by Jenny Lind.

GOLD in TEXAS.—The journals of Texas are still engaged in chronicing the gold excitment. Boths the Houston and Galveston papers agree in pronoacting the reports enormosaly exaggerated. The Houston Telegraph says.

the Mottpomery, of the United States Army, who was from San Autonio, researed us that it was there considered all a humbug. He had seen numbers from the mises who reported the same thing, namely, that they could not get gold enough to make it pay, and then none of those worse still working so in anticipation of success.

M. John Lynn, from Victoria, informed as that some had retarned from the mises to that place and had reaported unfavorably. They could find but very little gold, and had got disgusted and returned home. Other parties, however, were going out, now withstanding these reports, were going out, now withstanding these reports, were going out, now withstanding these reports, as they had previously made preparations to do to. The San Antonio and Austin papers as no additional information.

ALSUSI.—One of the editors of the New York Convier & Engagner anys a propos of Al-

make up for the less of sines. Tak'some misalcultions should cover in an easterly way enterprize—an exterprize in some respects an auperizent-section of structure and the section of the Cales of

It is ungulated to the chosen of the Emperor of the Emperor of the Emperor of the Emperor. It is ungulated t

it is strange that more numerous accidents have not happened from this cause. The disaster at Buffalo occurred from such inefficient apport at the front wall of a building which was about to receive a plate glass bulk window.

was about to receive a plate glass bulk window.

The election is Virginia for members of Congrees, the Lagislature, and the Bourd of Public
Works, takes place on Thursday, the 36th instt and both parties are religing their respective
forces for the occasion. The democrate in some
of the Congressional Districts, are considerably
divided, while the whigs are apparently well
united. In the Norfolk district Gen. Francis
M. Boykin has been soministed for Congress by
a meeting of democrats who are opposed to
General Millson, the regular democratic nominose. T. Reeven, Esq., democrat, had been
previously announced as an independent candidate, but refused to run. It may be well to
add that the Congressioual Districts have been
apportioused with a view to the election of an
unanimous democratic delegation.
