The Washington Union is reluctantly driven to the arm as son that disaffection exists in the sanks of the Descracy. It complains bitterly if the emolitions which the dissentients seek to hey require that Mr. PIERCE should retrace

the friends of the administration is the distribution of his patronage, and expressing a wish that the grounds fix that compliant may be removed without mescensary delay. He also remoinds Mr. Buogson of some of the conditions apon which the Collecturship was bestuwed spon him, which he infuntes the Collecture has forgotten. What, these conditions are, we are not given to understand, I his contain, hongarer, their Mr. Buogson was very both to accept the Collectorship of the New York Coscome, and only consented at the sament enterty of the Administration.

The Washingthe Ster confirms the report of the New York peace, and gives the substages of a letter of Secretary Gruzuaz, which is advened to the Collecture, Serveyor and Neval Officer of New York, in which he informs them that the majority wing (the Barabaraners) are stand firmly on the Baltimore pictiform, and more the regarded as an integral part of the Democratic party, and are justly entitled to fair share of the Government partonage. The appointments in the New York Costom House had been confirmed by the President, in the being the control of the collecture, who still retains the whole petrosage to the Collecture, who still retains the whole petrosage to the Collecture, who still retains the whole petrosage of the New York Costom House in his hands. The letter consides by warning the Collecture that the President cannot consent to allow this lummants per redivided where petrosage to remain long in the bands of any wing or individual whose political bloom a standard to diving from the Democratic erganisation them to remain long in the bands of any wing or individual whose political bloom a standard to a lease of the collecture that the President cannot consent to allow this lummants per redividual whose political bloom a standard to a lease of any wing or individual whose political bloom a standard to a lease of the standard

eledes by wareing the Collector that the President cancel coosent to allow this immages pair considered whose political hoors are directed to driving from the Despocratic organization these who assisted to elect General Pinuce, and now give a hearty support to the administration.

Thus it is perceived that the Washington Union interpreted correctly the sestiments of the administration, and spoke by the card when it assilied the Heakers as traiters, and defended the Baraburners as the true and faitful fixed to the President. This making is hardy will give much consider to the Frescoit faction in New York; but is likely to provoke considerable discentent among the Southers supportered of the 7th has an article based upon the rumor of the existence of such a letter us that referred to, and deprecated the very course persend by the President as fatal to the party. The troubles and tributations of our Demoraria in brethren are by no means exclusively confined to Now Orlews. We are yet only winners in the Heaves and the Wained States.
