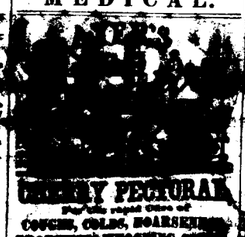
MEDICAL.



☞ We invite the attention of the Public to the Certificates appended below, and beseech for them that candid consideration which their honest frankness deserves.

Men in such stations as many who voluntarily bear witness to the efficacy and value of Derby's Pectoral are, do not wantonly trifle with, or distort facts, no even obtain their conviction. Judge then, whether this is not the medicine to rely on when you must have relief for the throat or lungs; judge too, whether every family ought not to have it by them as a safeguard against the everywhere prevailing scourge which deals with fatal frequency upon almost every flock and member of the land, from many a home!

Jackson, C. H., Jackson City, O., 20th Nov., 1852.

Dr. J. O. Aven.

Sir—The Cherry Pectoral is much inquired after. Several of our best Physicians have used it, three of them in their own case, and always with the happiest effects. The numerous patent medicines always before them, lead us invariably in regard to every new one, and it is only after established evidence of value in any article, that anything like a general confidence can be excited.

The unrivalled results of this combination of agents, (in the Cherry Pectoral,) proved beyond cavil by repeated trial under the eye of observers, has compelled medical men to proclaim abroad its worthiness. It is beyond all doubt the best general remedy we have for the relief and cure of affections of this climate, at the same time sedative and expectorant—a rare combination of properties.

In the hope that it will prove its own reward, I subscribe myself,

Respectfully your ob't serv't,

JAS. H. C. MILLER, M. D.

Allegan, Mich., 10th January, 1853.

Dear Sir—No one, we are persuaded, stands more shield—can be found to deny that the Cherry Pectoral is all that it claims to be. There is much used in this vicinity although not known until recently. The community should know its virtues.

Yours truly,

JOHN S. KELLOGG, M. D.

SAND'S SARSAPARILLA

IN QUART BOTTLES.

For Purifying the Blood, and for the Cure of *Scrofula, Rheumatism, Stubborn Ulcers, Dyspepsia, Salt-Rheum, Fever Sores, Erysipelas, Pimples, Blotches, Mercurial Diseases, Colourings of the Skin, Liver Complaint, Bronchitis, Consumption, Female Complaints, Loss of Appetite, Gen-*

eral Debility, &c.

In this preparation all the curative properties of the root are concentrated in their utmost strength and efficacy; but while Sarsaparilla Root forms an important part of it, other medicines, of the most virtue, compounded with other vegetable remedies of great power, and it is in the peculiar combination and scientific manner of preparation, that the remarkable success in the cure of disease depends. It is the concentrated extract of the virtues of the woods and the barks; and these properties in the Sarsaparilla ordinarily the result of the two different kinds of medicine, are carried on at the same time, through the instrumentality of the Iodide of Potassium, and separately stimulates while it disinfects and expels from the system the mineral poison that is operating, and at the same time restores their vigor and tone to the other preparations imitate it in bearing the name of Sarsaparilla, but do not contain the virtues only, being often prepared from worthless and inert materials, and of course possess no healing or curative properties, and patients who have been induced to try it will use should take no other, but that one entitled their confidence, from the long list of cures that it effected on living witnesses, all of whom in the immediate residence have been published, and who are still bearing daily testimony to the truth of the statements.

Astonishing Cure.

PATTERSON, N. Y., 20th, 1851.

Messrs. A. B. & D. Sands: Gentlemen—Having witnessed the most beneficial effect from the use of your Sarsaparilla, it gives me pleasure to send you the following statement in regard to my son. In the spring of 1846 he took a severe cold, and after eight weeks of severe suffering the disease settled in his left leg and knee, which caused him to be confined to the house. The swelling was lanced by his physician, and discharged most profusely; after that no less than eleven running sores formed on the leg at one time. We had five different Physicians, but none relieved him much, and the time but winter found him so emaciated and low that he was not able to leave his bed, suffering the most excruciating pain. During this time the Rev. Mr. Reed called to see him, and in the place after piece came out, of which he has now more than twenty-five preserved in a bottle, varying from one half to one and a half inches in length. We had given up all hopes of his recovery, but at this time we were induced to try your Sarsaparilla, and with its use his health and strength returned immediately to improve, and so rapid was the change that in less than a month he was able to leave his bed.

With gratitude, I remain truly, yours,

DARIUS BALLARD.

We, the undersigned, neighbors of Mr. Ballard, cheerfully subscribe to the facts of the above statement.

Holloway's Pills a Wonderful Remedy for Bile, Jaundice and Liver Complaints—Extract of a letter from Mrs. Mary Wood, to Mr. Jenkins, chemist, Christchurch, dated the 20th of March, 1852. "I suffered for seven months from a liver complaint, jaundice, and a severe bilious attack. During the whole of this time I was under medical treatment, but experienced no relief whatever. Ipwas at length recommended to try Holloway's Pills, and am happy to say that this invaluable medicine in the course of a very short period, effected a perfect cure, and restored me to health. I have also, with confidence, recommend these Pills to others similarly afflicted, and they have in every instance proved successful."
