THE DAILY BEE.

Friday Morning, August 21, 1854.

FROM STEAMBOAT DEPARTURES.

The Northern Mail, came through
yesterday with the latest news. We failed,

however, to receive our Washington exchanges.

OUR MEDICAL SCHOOL.

We are indebted to Professor Horace, dean of

the Medical Faculty of the University of Louisville, for a copy of the annual circular of the department:

"The course of study is chiefly from the

books of the Faculty of Medicine of Paris."

The Medical Department of the Uni-

versity is steadily advancing in usefulness and reputation, and at the present day, beyond

question, is the best medical school in the

South. We have for the complete in-

vestigation of medical and surgical diseases un-

paralleled in America.

The professors are well known profes-

sors of Anatomy, Pathology and Physi-

ology, Therapeutics, Materials Medicine, Sur-

gery, Midwifery, and Chemistry.

The course of study extends over

nearly every month from November to March.

The apparatus of the department is com-

plete, and the facilities for the complete in-

vestigation of medical and surgical diseases un-

paralleled in America.

The professors are well known profes-

sors of Anatomy, Pathology and Physi-

ology, Therapeutics, Materials Medicine, Sur-

gery, Midwifery, and Chemistry.
