NEW ORLEANS, SATURDAY MORNING, JULY 28, 1855.

THE DAILY BEE.

Saturday Morning, July 28, 1855.

The Northern Mail comes through yesterday
day with the latest news.

SECTIONAL MOVEMENTS.

A proposition has been made in New
York to unite the Whig party, which in
the State alone exhibits some vitality,
with the Free Soil and the "Republican."
The movement is for the consolidation
of the old line Whig party, which is an
little alike democratic, violent and rascally.
It announces its willingness to co-operate
with Abolitionists for the restoration
of the Missouri Compromise. For our
part, we do not believe that the
Whigs have been so fully con-
vinced, and that next fall will witness the
movement and consolidation of the New-
England wing of the Whig party—that under these
two auspices a regular anti-slavery ticket
for State officers will be nominated, and that
the preliminary steps will be then and
there taken to bring forward Wm. H. Seward
as the Northern candidate for the
Presidency.

The Free Soil Whigs having been dis-
posed of, by being transferred to the
extreme embrace of the negro faction, they
will yet remain in the Empire State four
years, partizans of the National Whigs,
the Northern Democrats, Administration Democrats,
and the Anti-Slavery Democrats.

—No. Nothing. What is
to be the final fate of these political or-
ganizations? They cannot all maintain
isolated and independent positions, but
it is to be regretted that their sectional and
political adhesions naturally lead them. The
National Whigs and National Democrats
are to a man united with the American party
in their efforts to offer effective
assistance to the Freedmen, while which
gathering around them, their instincts
and sympathies induce them to take
up with the only party in the North
which stands upon a national platform, and
which upholds the cause of slavery.

The evidence of this is in the
fact that the National Whigs have
already manifested a desire to become
acquainted with the S.A.S., while the National
Democrats, after a long and careful examination
of the S.A.S., have decided to oppose it.

—The Whigs are now
in the public eye, and operations had
commenced.

In the Liverpool market, gold declined
of a penny per pound, the market being very
quiet.

Flour and Wheat were \$4.00, owing to the
small flour.

Cotton closed at £1.00 per lb. in
the Port of England had declined
several weeks.

American Seaweed was in active demand.

Washington, July 23.—Robert Leslie has
been appointed Commissioner by the Court of
Claims, to take evidence before the Court of
Claims.

NAYARA.

The Crescent City brings us news of Nayan-
a, a species of tree, the bark of which
is used for the extraction of a dye.

—The Allie's new evading measures work
against the Match & Boxes, and the
American Anti-Slavery Society.

—The National Whigs have already mani-
fested a desire to become acquainted with the
S.A.S., while the National Democrats

are to a man united with the American party.

We look, therefore, for a union between
the National Whigs and the National
Democrats.
