No longer a Doubt as to the nature of Disease, or their Successful Treatment.

A New System for curing all Diseases, by an Analysis of the Urine.

THE great number of maladies are always arising from some disorder in the kidneys, and certainly there is no other way to arrive at the cause of the difficulty. By this mode of examination the most hidden, obscure, and complicated diseases are made plain and easy of cure.

MR. NADO,

Ex-Pupil of the Marine Hospital of France and Chief Surgeon of the Imperial Regiment of Zouaves, has opened a Medical Laboratory at No. 1 Carondelet street, for the examination of the Urine, by the most scientific means of medical science.

Mr. Nado has made Yellow Fever, in all its forms, a close study for the last ten years, and is aware, almost to a certainty, of the result of any case he may undertake. He has also made a specialty of Diseases of the Urinary Organs, and has discovered a certain cure for Gravel, Stone in the Bladder, Inflammation of the Kidneys, Retention of Urine, Incontinence of Urine, Diabetes, Spermatorrhœa, Impotency, and all Diseases of the Urinary Organs, by the action of the Urine on Chemical Tests. Many of the most eminent physicians of this city have been relieved from an analysis of the Urine.

Persons at a distance can have their cases treated by the most delicate analysis of the hospital, and receive medicines with full directions, after having sent in the data of cases from an honest description. Should this plan be thought unsatisfactory, the undersigned will visit patients in the country on receipt of a letter addressed to him at the St. Charles Hotel. All communications will be strictly confidential.

Mr. Nado will also receive visitors at his residence, No. 1 Carondelet street, from 10 A. M. to 2 P. M., and from 5 to 7 P. M.
