New Medical Sosol of New Orleans.

New Medical Sosol of New Orleans.

We invite attention to the advertisement of this institution, to be found in another column. The school has been originated through private enterprise, but regularly chartered by the Legislature. The faculty selected is a large one, and most of the gentlemen composing it are well known to us for great onergy and efficiency.

As we already have an excellent medical school connected with our State University, it is with some pleasure that we have been assured that the new one has been started through nothing more than a fair spirit of rivalry, as being needed by the increasing wants of the country and calculated to give a new and desirable impetum to the cause of medical science South. Northern institutions, however, provided with the beet of faculties, cannot present all the advantages of schools in our mifet, where the diagnoses of diseases, and particularly endemics or epidemics, are subjected to the peculiar infusions of climate. The building which has been erected for the purposes contemplated is quite a large one, and admirably arranged in all its departments, having been built at considerable cost, and situated, with an eye to convenience, immediately in front of the Charity Hospital, on Common street. The Dean of the faculty having kindly shown us through all the rooms, and explained to as the uses of the respective divisions, we may take a future occasion to allude to the subject more fully.

DEBow's REVIEW .-- We are indebted to the

The Democratic papers are pullishing an article protesting against the action of the late National Whig Convention, and orselling it to the Boston Courier. The Courier is a staunch and able supporter of Mr. Fillimore, and has cordishly endorsed his nomination by the Whigs of the Union. The article referred to is from the Boston addertiser, at one time a Whig journal, but now an uitra advocate of Black Republicanism. Such strategies of political warfare are eminently disreputable.

NEW ORZEANS, MONDAT MORNING, OCTOBER 6, 1856.

"Were we compelled to choose between Sensord and Filmory for President, we should not have false a meaning from the North Alabama Ragister, the Democratic organ of that benighted region, is but an expressionalof what ninety-nine hundredths of the Southern Sag-

Night organs would say, if they did not deem
