### TEXAS.

By the arrival of the steamship *Atlantic* we have received later Texas papers.

DEATH BY CHLOROFORM.—A young lady named Narcissa Burnham, was found dead in bed, on the evening of the 18th, in Austin. She was residing with Col. Sublett's family, and had been in the habit of using chloroform to put herself to sleep. The dose she had taken caused her death.

The State *Gazette* publishes official returns from seventy-one counties, which give Buchanan a majority of 11,177, so far. Forty five counties are yet to hear from, so it is probable his majority will not fall far short of 15,000.

The fire at Lagrange, alluded to in our last, did about $20,000 worth of damage. The State *Gazette* says Mr. Sink's brick store is said to be the only house left standing on the north side of the Public Square. The records in the offices of the Sheriff and Surveyor were burnt.

Gen. Houston addressed the citizens of Walker county, on the 14th, in Huntsville. The *Item* says: his address consisted of a tirade of low abuse of the editors of newspapers in Texas, of the new comers to the state, and a self-adulation, which was really disgusting to the most inveterate egotist."

The San Antonio *Ledger*, of the 22d ult., says:

It would seem that not a week can pass without our having to record some disgraceful occurrence. This week we have two. The first is that of a difficulty between two of our citizens, in which one of the parties had his jaw fractured by the other. The wounded man being unable to leave the house, his assailant has been bound over to appear before Justice Gardiner on Monday next. The other is that of an officer in the United States Army, who is accused of assaulting and firing a pistol at a gentleman, in a billiard room in this city, on the evening of Monday last. The circumstances, as narrated to us, show a most wanton and unprovoked assault on the part of the officer, who, however, wounded himself instead of his antagonist. His examination is fixed for to-day before Justice Gross.

### Louisiana Items.

We copy the following items from the Shreveport (Caddo) *Gazette*, of the 22d ult.:

KILLED.—On Wednesday evening, between sundown and dark, a man named Riley was shot by a desperado named Tom Appleton, out for from a house occupied by John Colbert, towards Jones's sawmill. The quarrel was carried on in the house of Colbert, who was absent, and his wife apprehending a difficulty, went for an officer, who, she complains, refused to accompany her, but who might, possibly, have saved the life of the man, as he was not killed until after her return. Appleton, as soon as he had committed the murderous act, fled, barbecued, to the bayou, across which some gentlemen, who had been ducking, formed him, not suspecting, until he had left the house, that there was anything amiss, as he had concealed some hair about the crown of his hat.

SERIOUS ACCIDENT.—We are sorry to learn that the Cottage Grove Seminary, in the parish of Bossier, was entirely consumed by fire, on Tuesday night. The institution was under the control of Mr. T. W. Abney, and is in a very flourishing condition. The loss of Mr. Abney, we are informed, will be considerable, besides the loss to citizens, who had an interest in the property. The school will be resumed on Monday next, in buildings near that which was destroyed, and it is the intention of the patrons of the school to rebuild immediately, on a more extensive and permanent plan. The fire originated by accident.

The *Desoto Columbian* says that at an election held in the town of Mansfield, to take the sense of the people in regard to granting licenses for the retailing of spirituous liquors, the question was carried by a majority four.

SAD SIGHT BY HIS FATHER.—The Pinpeapparition in *Sentinel*, of Saturday last, says:

We were informed on Thursday of the circumstances of a deplorable accident that occurred in the neighborhood of Grosse Tete, in this parish, a few days ago. The name of the victim and his son (we did not learn the Christian names of the latter) had to be cut from their lives, as the old man had left behind him the sad act immediately behind that event. At the moment he is buried, the only consolation was, as we understand, that the self-confessing man received eternal forgiveness for body and was killed, as was also his brother.

Thirty-one thousand hogsheads of sugar were made last season in the parish of St. Mary. The crop this year will be fifty-six thousand hogsheads. So says the Franklin *Journal*.

Under the head of "Invasion of Privacy," Copeland, the *Echo* of that parish, has the following account of a watch-mistake:

On Wednesday last, three men named Ellis, Mayes, Ephraim Mayes and W. R. Hopkins, returned home from Berwick's Station in the ferry boat at Grimmet landing, proceeded to the Ferry Hotel, kept by Mr. Fleming, at which it was then only 3 o'clock P. M. In the morning, they, immediately on the discovery, announced their intention to spend that day and the following night at the hotel. This was by no means agreeable news to Mr. Fleeheen, who has for some time past been in bodily fear of the Mayeses. After coming to knowledge of the Mayeses. After coming to knowledge how much in awe he had cause to have them, in consequence of drinking at the bar, on the 1st of January, he prop them to retire to what, and as often as they please. They then, with sticks and canes, drove Mr. Fleeheen and the rest out of the house. He was followed by a scene, seldom witnessed except in a conquered country, which, to our more refined readers, we forbear to describe. The parish of Pointe Coupee. Every bottle in it richly furnished bar was broken by them. Bar, counter, chairs and tables, from one of the windows, and, strange to say, we have full knowledge or more, these strangers further took undisputed possession of the premises on the first in the house of one of the citizens. That they should have remained undisturbed so long, is to be attributed to the absence from home of the neighboring citizens, and the sickness and consequent extreme prostration of Mr. Leeheen. At last Mr. J. Smith, overseer of Mr. J. S. Sewell, coming to the house to see what was going on, and Madame Fleeheen's entire position, Country was there found in charge of the Mayeses, found one of the Mayeses on horseback in the house, and at the bar. After much expostulating with them, Mr. Smith got the revolver proved more convincing than words, and the three rascals took their departure, vowing, however, to return that night and burn the house. They did not succeeded in the river, and at various stores and private houses, on their route, committing such depredations as they had time for. For the purpose of taking Pointe Coupee, and driving out the French. They were finally arrested in the entrance that night, and examined at the Messrs. Lamy's store, near Morganza.

We remitted in the above account to state that, while at Mr. Fleeheen's, the Mayeses robbed the till of the bar of its specimens, amounting to about five dollars in silver, and so transcribed everything portable about the house to their saddle-bags. They also prepared combustibles to fire the house, and placed them in a position for that purpose. On Thursday they were examined before Jim Monroe, Justice, and are now safely lodged in jail on the double charge of robbery and arson. It is but proper to add that Fleeheen appears to have treated the two of the Mayeses, as it was only when they had got him drunk on steamb. and robbed him and left him asleep on the gallery of the hotel that they got into the full spirited that unparalleled act.

EDMOS AT IT THE HONEY BEE.—The following remarks from the Albany *Cultivator* may correct some erroneous notions about the *modus operandi* of the industrious bee:

Many suppose that the bee culls honey from the nectar of flowers, and simply carries it to his cell in the hive. This is in correct. The nectar he collects from the flower is a portion of its food only. The honey that it deposits in its cell is a secretion from its mouth, or honey secreting glands, analogous to the milk secreting glands of the cow and other animals. If they were the mere collectors and transporters of honey from the flowers to the honey comb, they would not leave the comb frequently filled with molasses, wherever the bees have fed at a molasses hogshead. The honey-bag of the bee performs the same functions as the cow's bag or udder; merely receives the honey from the secreting glands, and retains it till a proper opportunity presents for its being deposited in appropriate store-houses—the honey comb.

Another error is that the bee collects pollen from the flowers accidentally while it is in search of honey. Quite the contrary is the fact. The bee, when in search of nectar, or honey, as it is improperly called, does not collect pollen. It goes in search of pollen specially, and does so for nectar. When the pollen of the flower is ripe and fit for the use of the bee there is no nectar in the flower. It is generally supposed, also, that the bee constructs the wax from which it builds the comb from sun in vegetable substances. This is an absurd error. The wax is a secretion from its body, as the honey is, and it makes its appearance in small scales or flakes under the rings of the belly, and is taken thence by other bees, rendered plastic by mixture with the saliva of the bee's mouth, and laid on the walls of the cell with the tongue, very much in the way a plasterer uses his trowel."

A REMARKABLE FAMILY.—A correspondent of the *Ohio Citizen* furnishes the editor of that paper with the following account of a remarkable family, residing at present in Bourbon county, Ky:

*Mr. Editor*—I send you a schedule of the Bourbon family, as obtained from the father and sons. The old gentleman is a native of Maryland, and is in his 80th year. He was brought to the State of Kentucky when quite young; and has raised his family in the above county, consisting of six sons and three daughters.

In the following table the height, weight and entire age of the family are given:

| | Height. | | Weight. | |
|---|---|---|---|---|
| Father | 6 feet | 4 inches | 300 | pounds. |
| Mother | 5 feet | 6 inches | 280 | pounds. |
| James | 6 feet | 4 inches | 290 | pounds. |
| Jesse | 6 feet | 4 inches | 320 | pounds. |
| Sarah | 6 feet | 3 inches | 215 | pounds. |
| John | 6 feet | 11 inches | 365 | pounds. |
| Mary | 6 feet | 2 inches | 150 | pounds. |
| Joseph | 6 feet | 8 inches | 310 | pounds. |
| Matthew | 6 feet | 6 inches | 320 | pounds. |
| Eli | 6 feet | 6 inches | 340 | pounds. |
| Daughter | 6 feet | 3 inches | 187 | pounds. |
| Total height, 70 feet. | | Weight, | 2596 | pounds. |
| Ensure age | | | 557 | years. |

The family are all living except the youngest daughter, are all wealthy, and of the first families of Kentucky. I might add several of the grand children are over 6 feet, and are still growing.

The New York *Tribune*, in reference to the probable action of Congress at the present session on matters of national importance, remarks as follows in regard to the duty on sugar. The *Tribune* has always been in favor of protection to the manufacturing industry of the country:

We hear ill-will toward the sugar duty muttered from so many quarters that we apprehend an effort to repeal or seriously reduce it the coming winter. Sugar is dear—that is an undisputed fact—and it seems likely to be dearer before it shall be cheaper.—The diffusion of comfort and luxury, the increase of population, the recent increase in the stock of the precious metals, have combined with two or three short crops of sugar to produce this result. The intense cold of last winter killed very much cane, and it will require replanting and two or three years' patient labor to renew the planters' stock of two years ago. Now, our own country contains but a moderate portion of tropical cane-growing soil, on which the cold of last winter was more destructive than perhaps on all other cane fields whatever. Our sugar crop has fallen off, and will probably be less this year than for several years previously. But we protest against giving up the sugar culture to this movement. We believe that our sugar duty, by enlarging the area of cane culture, has increased the supply and diminished the cost of sugar, and we would make it permanent, for cheap sugar.—On the contrary, we would maintain, if not increase the present duty, hold fast to the present rate, and encourage by all legal and enterprising farmers to test the feasibility of producing sugar profitably from other saccharine plants than cane. We believe the Chinese sugar corn (Sorghum) yields a better and scarcely dearer sugar than the cane; and this may be grown wherever Indian corn will ripen. The Sorghum has given general satisfaction to those who planted it this year; we trust the seed is carefully saved, so that twenty times as much may be grown next year. It is an admirable fodder as well as sugar plant, worth cultivating for cattle wherever hay averages ten dollars per ton. We shall be disappointed if sugar be not extensively made from it in every principal town within five years, convinced the sugar duty is simply let alone.

### Curious Question in Virginia.

A question has arisen in Virginia in regard to the manner in which the late election was held in some of the counties, which, as the general result is not at all affected by it, is matter now of only curious speculation, but which might, under other circumstances, have been a very important one. Had Louisiana and Illinois voted as did Mr. Buchanan—as it was at one time thought by some that they had done—he could not have been elected without the vote of Virginia; and with a close vote in that State, and a majority of it been made to invalidate the election as illegal, or to throw out votes as illegally cast, enough to affect the result. But the election was made without the vote of Virginia, and her majority was too large to be affected, even supposing it to be in the power of the practical importance now, but of sufficient importance to merit a legislative settlement of the difficulty, to prevent possible trouble on another occasion.

All the returns in the district, the polls in some of the counties of Virginia were kept open for three days, as allowed by the laws of the State, for the election of Congress.

That the electors of President and Vice-President shall be appointed in each State on the Tuesday next after the first Monday in the month of November of the year in which they are to be appointed. Provided, that each State may by law provide for the filling of any vacancy or vacancies which may occur in its college of electors when such college meets to give its electoral vote. And provided, also, that when any State shall in the intention of the patrons of the school to rebuild immediately, on a more extensive and permanent plan. The fire originated by accident.

The *Desoto Columbian* says that at an election held in the town of Mansfield, to take the sense of the people in regard to granting licenses for the retailing of spirituous liquors, the question was carried by a majority four.

SAD SIGHT BY HIS FATHER.—The Pinpeapparition in *Sentinel*, of Saturday last, says:

We were informed on Thursday of the circumstances of a deplorable accident that occurred in the neighborhood of Grosse Tete, in this parish, a few days ago. ### CITY INTELLIGENCE.

AMUSEMENTS.—*Grover's Comedy* Monday night, in addition to the usual entertainments, will be presented the comedy of

Mr. Grover will appear in the character of Dr. Pangloss, and Mr. Wheatley as Jeremy Diddler.

MURDER.—The City Coroner held an inquest yesterday on the body of Michael Daly, an Irishman, about 30 years of age, found dead on the corner of Girod and Prytania streets, on the corner of Daly and Prytania streets, on Saturday night last, the 29th ult.

It appears that a considerable difficulty had occurred in the house, or saloon, kept by the deceased, between a French Negro, and a white man, named Daly, in which the latter was severely injured, and from which he died. The Negro has been arrested, and is now in prison awaiting his trial.

The jury rendered a verdict in accordance with the above facts.

A SUPERB BALL.—The two weeks of a Black Republican administration in Columbus, Ohio, which was attended by a number of the leading lights of the party, was brought to a close by a grand ball last evening, given in honor of the President elect, Mr. Buchanan, and the Vice-President elect, Mr. Breckinridge. As the latter was not present, Mr. Buchanan's name was coupled with that of Mr. Fillmore, and the toast was drunk with a deafening cheer. The next toast was given in honor of the cooking was a failure—the turkeys were tough, the oysters were spoiled, the coffee was muddy, the tea was weak, and the cake was heavy. The supper was a failure, and the ball was a failure, and the whole affair was a failure.

Astonishing Effects of One Bottle, in an Aggravated Case of Dyspepsia.
PHILADELPHIA, March 20, 1856.
Dear Sir—During the last five years I have been afflicted with *Dyspepsia*, in its most aggravated form, and have used, without receiving any benefit there from, every remedy recommended for that disease in fact, I was almost to say that on many occasions I was in great danger of dying from suffocation, in consequence of the rise of matter in my throat, and all my efforts for relief were in vain. I was at last induced, through the recommendation of several of my friends, to try "Heedand's German Bitters," and I do assure you that I soon felt relieved from the effects of the first bottle, and after using three bottles, found the large sores which had formed in my throat, and which had caused me to say that I would not be without the Bitters for any money, as I am now, through their use, enjoying better health than I have known for many years. Very respectfully yours,
ELIZABETH GAUL.

Astonishing Cure With Only One Bottle.
JOS. R. HALL & CO. say
In Pierce's Line, Aroostook county, Me.
Aroostook, March 20, 1856.
We herewith send you a certificate of a cure performed by the use of only one bottle of the German Bitters. We think Mr. Clark to be a man of veracity and have no doubt of the truth of his statement.
Messrs. Jos. R. Hall & Co.—Gentlemen:—In answer to your inquiries, I will state that my daughter, aged about 16 years, has been complaining of a pain in her side for six or seven years, and at all the first of January last, was taken down and confined to her bed. The pain in her side was very severe, besides being troubled with pain in seven her shoulders and in her breast. From reading a number of cures performed by Hoofland's German Bitters," I was induced to try it in her case, and sent to your store and procured one bottle. She had taken but a few days when she began to improve, and now, after taking only one bottle, she is enjoying better health than she has for many years. I would say to all who are in want part of her boy, to all who are in the care referred to the German Bitters.
WM. CLARK.
Sworn Before, Aroostook county, Me.

J. WRIGHT & CO.,
21 and 23 Camp street.
General Agents for the south and West.
Dalley's Magical Pain Extractor.
The Wonder of the World
This truly wonderful pain power is a combination of the most valuable ingredients in the Materia Medica, and is unfailing in its operation in relieving pain. No matter what the disease or pain may be, this Extract will relieve it. No language can be used too strong in its praise, as those who have used it will bear testimony. Physicians have given it the preference over all other remedies, and use it in their own families in preference to any other. Sold by druggists and dealers generally.

Astonishing Cure With Only One Bottle.
JOS. R. HALL & CO. say
In Pierce's Line, Aroostook county, Me.
Aroostook, March 20, 1856.
We herewith send you a certificate of a cure performed by the use of only one bottle of the German Bitters. We think Mr. Clark to be a man of veracity and have no doubt of the truth of his statement.
Messrs. Jos. R. Hall & Co.—Gentlemen:—In answer to your inquiries, I will state that my daughter, aged about 16 years, has been complaining of a pain in her side for six or seven years, and at all the first of January last, was taken down and confined to her bed. The pain in her side was very severe, besides being troubled with pain in seven her shoulders and in her breast. From reading a number of cures performed by Hoofland's German Bitters," I was induced to try it in her case, and sent to your store and procured one bottle. She had taken but a few days when she began to improve, and now, after taking only one bottle, she is enjoying better health than she has for many years. I would say to all who are in want part of her boy, to all who are in the care referred to the German Bitters.

### CAUTION TO THE PUBLIC.

The whole country is flooded with Counterfeits and Imitations of Hostetter's Celebrated Stomach Bitters. The public cannot be cautioned too strongly against purchasing any of the spurious stuff imported by Dalphin Wells, Wholesale Druggist, of the manufacturer on the blind, dark and blind.
For sale by all the responsible Grocers and Druggists.
Read the opinions of the New York press.
J. W. BURKE, Agent,
55 Gaston street, New Orleans.

[From the New York Mercury.]
FRAUDULENT IMITATIONS.—We have been informed that the many testimonials of praise which the genuine Stomach Bitters, prepared by Dr. Hostetter, of this city, have received from the press, as well as from individuals, have caused numerous unprincipled persons to attempt the manufacture of a spurious article, which they intend to palm off upon the public as the genuine article. Dr. Hostetter's Stomach Bitters have acquired a reputation for curing all diseases of the stomach, liver, bowels, kidneys, nervousness, rheumatism, dyspepsia, debility, fever and ague, and other complaints arising from impure blood, or a disordered state of the system, and the proprietor is desirous that the public should not be imposed upon by these counterfeits, which are not only worthless themselves, but calculated to injure the reputation of the genuine article. Dr. Hostetter's Stomach Bitters are prepared only by himself, at his Bitters Depot, corner of Second and Vine streets, Philadelphia, and are sold by druggists and dealers generally throughout the United States, Canada, and South America. The genuine article is never sold by the gallon, and is put up in bottles, with the name blown in the glass, and a steel plate engraving of the establishment on the wrapper, with the signature of the proprietor across the face of the engraving. Any person who will counterfeit the above, or who will sell the counterfeit knowing it to be such, will be prosecuted to the utmost extent of the law.
Sold by druggists and dealers generally.
J. WRIGHT & CO.,
21 and 23 Camp street.

### MAGNETISM.

### Notice to the Public.

It is said is no manufactory of LOOKING GLASSES in the United States. The public in general have to purchase them from Europe. First cost, importers to New York, running the risk of damage and breakage, and consequently have to get them high. I have come to the conclusion to have an establishment opened for making glasses of all descriptions, in frames or by the single plates. I have just received an assortment of the largest sizes in use. Persons wishing any would do well to give me a call before ordering elsewhere. I am able to sell them as cheap as any house in New York. I import direct from Europe.
Furniture, Looking Glass Plates, Girandoles, Mantle Glasses, Looking GLASS. I am prepared to take their orders, allowing me six months time to have them executed.
I am also able to furnish FINE POLISHED WINDOW GLASSES, Persons building their private residences would do well to give me the order as no house in advance.
