JUDICIAL COMPENSATION.

The compensation of judicial functionaries, in the various districts and occupy the attention of the community, will be, we suppose, one of the first topics upon which the approaching session of our Legislature will be called upon to act, and we sincerely hope that the matter may be brought to its consideration with impartiality and patriotism. It should be approached in a liberal and generous feeling, local prejudice and party interest discarded. The judiciary, above all other branches of the government, has a direct interest upon the personal rights and property composing society, and should be pure and capable of fulfilling the various duties, should be upright, honest and enlightened. This proposition is an acknowledged proposition that the judiciary should be ably and enlightened. This proposition is an acknowledged truth, and we do not suppose that any one will dispute it.

It is a well-known fact that the judges of the country are but poorly paid, receiving annually, and of the most part have to devote their whole time to the discharge of their duties, and time to the discharge of their duties, and have no time to devote to other pursuits, and time to the discharge of their duties, and have no time to devote to other pursuits, and to apply himself to the study of jurisprudence; and we answer that it does not—it is a fact that we can speak positively for the city is concerned. The salaries of the compensation of the judges in the State of Louisiana, in bank, is $4,000 a year, and the city will receive a salary of $3,000 a year, and of that purpose by the State, but the judge, who labors day and night, and ten months in the year, is entitled to assistance from anybody, to relieve him from the burdensome duties of
