when the art personnel, when the second institutions of the second institution of the second institution of the second institution of our territory may be shirted authority, and play the second institution of our territory may be sentral authority, and play the second institution of our territory may be sentral authority, and play the second institution of our territory may be sentral authority, and play the second institution of our territory may be sentral authority, and play the second institution of our territory may be sentral authority, and play the second institution of our territory may be sentral authority, and play the second in the seco

n many parts of China there are towers of

ed his house with honors, and given him literary dependants for the recompense of his accretions. Yet his denunciations scarcely go further than to prunome it wicked in those to destroy their female children who have the means of bringing them sp; and aome of his arguments are strange enough: 'Do destroy designtors,' he says, 'is to make war upon Hoaver's harmseny (in the equal number of the wares,') has note daughters you drown, it was the highest you will have; and never a harmsen,' has not daughters you drown, the strange of the ware and the brith of a daughters are the second of the ware and the brith of a daughters and the war strange of the brith of a daughters and the war at the brith of a daughters are the second of the war at the brith of a daughter of the war at the brith of a daughter of the war at the brith of a daughter of the war at the brith of a daughter of the war at the brith of a daughter of the war at the brith of a preferable to drowning on the war as the war at the

The Mission To China. In the section of the construction and the first plant the new for the same of t

ares, is springing up assew, and, in the cous-region, at least, a large amount of pretty early planting is apparently uninjured, and presents a vigrous and thrifty appearance. We hear, also, that much of the colone planted previous to the last frest, but not up, is com-ing out facely.

Salt is manufactured in considerable quan-

road, within the distance of a quartar or mile from the depot, the locomotive was thrown from the proper track on to another. The engine treef was but little if any nigred, but the tender and wood car were created into pieces. Hr. Wrag, we are informed, jumped from the car, and received a slight wound on the head, while Mr. Dunnovan fell between the wood car and the tender, and was horribly mangled. Be died in the course or four hours after the accident or control or four hours after the accident or the second or the read being infinitely alar, and as the train cane down Consecution.—The Hartford Courant, of the lith, says:

"A careful revision of our tables for Gov.
ernor shows a majority for Holley of sea.
The election of Wm. D. Shahop, Democrate to Congrees, in the Pairtheld and Literished delivered, appears to be placed beyond a doubt. This divides the Connecticut delegation to Congress, and is a Democratic gain of two members. The other Democratic Congressman is flamed at the Congress and is a Democratic gain of two manuals. The other Democratic gain is read that the congress consistence of the congress of the con
