OFFICE, 83 CHARTRES ST. THE CONVENTION TO-DAY.

THE DAILY BEE.

The Democrats having made their nomina-tions for Auditor, Treasurer, and Superin-tendent of Public Education, the Americans are about to do the same. The Convention assembles for that purpose to-day at Raton Burgo, and, from what we understand, will embrace representations from assembles that ATTURN AND TERCANTEREC. embrace representations from nearly all the parishes in the State. We presume it will be rather a working than a talking Convention, and that it will confine itself as closely as possible to the execution of the business for which it is convened. There will probably to a series of resolutions adopted in which.

of Utah, where good pasturage may be had, the composition have the unquarded, and if the opposition have the requisite text and skill, they will not fall to the treat text and skill, they will not fall to the treat text and skill, they will not fall to the treat text and skill, they will not fall to the treat their assaults at the weakest points, where defense is most difficult.

We have not the least idea was will be the nominees of the Convention for State officers. Three names have been suggressed for Auditor of Public Accounts, viz: Mr. Pirrice, of flaten Rouge, Senator Kird, of Jackson, and Mr. Scorr, of Point Coupes. They are all gentlemen of ability and pretty extensively known. The choice of the Convention will probably be made from among them. For the other offices there seems to be a "plential leck" of aspirants. Whether it be that the emoluments are considered inadequate to the labor, or that the canvass is invested with too little interest to create much desire for office, certain is it that we have hardly hard a name mentioned in connection with beard a name mentioned in connection with the Superintendent of Public Education, or ry upright and true-bested citizen wishes, above all, to be governed by officers who are worthy of the unreserved confidence of the people. Party names mean very little, but integrity and ability are guarantees of a sound, vigorous and impartial fulfillment of duty.
