BONNABEL'S
BI SULPHATE OF LIME.

THE proprietor of the NEW ORLEANS SOUTHERN CHEMICAL WORKS, anxious to disappear at none on the receipt of orders at the establishment, is compelled, in view of the difficulty anticipated of fill ing the unprecedented large orders that are being daily received, to inform all the old patrons of BISULPHATE OF LIME manufactured at the great Chemical Works, that those who they send in their orders early, so as to secure them an eligible place on the earlier books, some disappointment may be expected on their receiving it which would be very much to both parties. Already preparations have been made by the Directors to make a stock of from at least TWENTY THOUSAND BARRELS of the BISULPHATE prepared, but even this large quantity would seem to be insufficient, so much so that many are the orders received from old customers, and many new ones which heretofore have either not enjoyed the most valuable discount, or have passed unsupplied from other manufactories.

The strength of the BISULPHATE now being manufactured at the Southern Chemical Works of H BONNABEL will be found uniform and of greater strength than at any other period, no pains or expense having been spared to bring this invaluable chemical product as near perfection as possible, and to make it worthy of the high character the Southern Works have already secured with the sugar planters of the State.

Planters desirous to have the GENUINE BISULPHATE OF LIME manufactured at the Southern Works, should apply for it personally or in their letters through the merchants, or address themselves directly to

H BONNABEL,

Chinn's Bi-Sulphite of Lime.

TO SUGAR PLANTERS AND MERCHANTS.

I BEG leave to call your attention to the article of BISULPHITE OF LIME manufactured by me, and respectfully solicit your orders.

During the past year I have had erected on Canal street such works as will warrant me in assuring to the trade all the machinery necessary for making this article in perfection has been constructed, together with all the necessary buildings for storage, cooperage, &c. With such facilities, I hope to make as fine, and, if possible, a better article, and ship it in better order than heretofore.

The highest market price will be paid for whisky barrels and for barrels well turned to be refined.

TO SUGAR-PLANTERS.

F. MARCELIN has the honor again to inform sugar planters commission merchants, and the public in general, that they have made a change in the former partnership which had existing between Mrs. Rosa Albrecht and himself under the style of H BONNABEL, and that he now more manages the manufacturing of BISULPHITE OF LIME of the New Orleans Southern Chemical Works.

JOSEPH ALBRECHT has the honor to announce to sugar planters, commission merchants, and to the public in general, that the partnership which took place between Mr Bernard and himself, under the style of BONNABEL & ALBRECHT, has been dissolved by common consent.

BISULPHITE OF LIME OF
MARCELIN & ALBRECHT.

NEW ORLEANS SOUTHERN CHEMICAL WORKS,
CLARA STREET, BETWEEN CANNON AND MAGNOLIA
AND STREETS, NEAR THE
RAILROAD DEPOT.

MARCELIN & ALBREIGHT have the honor to inform sugar planters, commission merchants, and the public in general, that they have just erected a new establishment for the manufacturing of BISULPHITE OF LIME, in an entirely new manner of their own, for which they have secured letters patent in the United States, and they are now prepared to fill all orders with which they may be favored.

The late improvements introduced by them in the manufacturing of this important article, and the best proportion of the new establishment, enable them to supply a pure article of a measure from 10 degrees Baume, to 15 degrees, if required, and in any quantity, according to order.

The BISULPHITE OF LIME which they offer, manufactured by them under the best MARSH LIKE and CLARAIN ever sales, is warranted free from all foreign matter.

EXCHANGE.—The demand has been fair, and the rates for most kinds of bills have further advanced. We now quote:

Sterling, 105 @ 104½. France, 5f 35 @ 5f 30. New York sight days, 2½@2¾ per cent discount. New York thirty days, 3@3½ per cent. discount. New York Sight, 1½@2 per cent discount.

COMMERCIAL.

OFFICE OF THE DELTA,
FRIDAY EVENING, November 27, 1857.

Business in our general market has been of a more animated character during the past week, the demand for cotton remaining adequate to market but by the recent unfavorable advices from Europe, with prices, with some fluctuation early in the week, have been well maintained. Sugar and Molasses have gone off freely and at better prices, and Flour, with some reduction in the rates, has met with a good demand. Grain generally has been firm, as have Provisions also, though without much activity in the movement. In Tobacco but little has been done.—Freights continue firm, and Exchange has further improved for most descriptions of bills.

On Wednesday morning we published the Vanderbilt's advices, embracing dates from Liverpool to the 14th inst. A financial pinic had subsequently set in, the Bank of England on discount 9 per cent, Consols declined 1@1¼, U. S. 5's, while Shannonites and others are reported throughout Great Britain "The government, however, will lend satisfactorily on the basis of bank notes, and the panic seems immediately to subside." Cotton experienced a decline before the departure of the steamer, and closing "with an advance" Flour and New Orleans Fair was quoted nominally at 37½@ Middling at 17½. A small business was done in Breadstuffs, but Consols remained unchanged, at 92¾ for money. The Bank of France has advanced the rate of discount to 10 ₱ cent.

COTTON.—Receipts of cotton since the 26th instant, 63,120 bales. Cleared in the same time 14,000 bales for Liverpool, 3470 for Queenstown, 600 for Havre, 325 for Barcelona, 5,317 for Boston, 3,317 for New York, 500 for Bremen & Hago, 800 for Boston, and 123 bales for New York; together, 27,452 bales, making an addition to stock of 37,667 bales, and leaving on hand, including all on shipboard and in the process and factories not cleared, a total of 136,644 bales.

The market opened on Saturday with an active demand and full prices, the duty of the day embracing 10,000 bales, viz: 1,500@12c for Low Middling to Middling. On Monday there was a continuation of the Saturday's advance, reporting a decline at Liverpool of ¼d, the market closing very dull, and with a downward tendency. Under the influence of this intelligence buyers with no held aloof, and the business of the day reached barely 3,000 bales, prices indicating a decline of ¼@¼c ₱ b. The market was still unsettled on Tuesday, but the movement was rather active, some 8000 bales changing hands, mostly at 11¼@12c for Middling to Good Middling. The Vanderbilt's advices appeared in our columns on Wednesday morning, and appeared to be favorably interpreted, as buyers came forward very freely during the day, and took 18,000 bales at higher prices, enabling us to restore our quotations of Saturday.—Yesterday holders showed very full prices, but the sales reached 8000 bales, and a duty of 1600 were sold, making a total for the week of 42,700, the market closing at the range of our quotations:
