COMMERCIAL.

OFFICE OF THE DAILY DELTA,
Friday Evening, July 13, 1860.

The steamship market has presented a very dull appearance during the last week, considering the advanced season of the season, and the constant supplies of our staples and of many descriptions of Western Produce. Cotton has gone off rather more freely, and prices have been pretty well maintained. In Tobacco the business has been of a moderate character. Sugar has been in active request, and prices have considerably advanced. In Flour and Grain the transactions have been limited, and Provisions of most kinds are dull. Freights and Exchanges have both improved.

On Tuesday morning we published the Cotton's advices, embracing Liverpool dates to the 30 inst.—

They reported a more active Cotton market, with sales of 71,000 bales during the week, prices having advanced ¼@3 16 or ¼d. Fair Orleans was quoted at 7¾d., and Middling Orleans at 7 1-16d. Accounts from Manchester were favorable. Consols closed at 90¾@90¾.

COTTON—Arrived since the 9th instant, 4406 bales. Cleared in the same time for Liverpool 9 38 bales, Boston 2051, Baltimore 845, Brem'n 777, Hampton 185, Boston 1800, New York 1053, and Baltimore 163. Stock on hand, 30,000 bales, a reduction in stock of 14,565 bales, and leaving on hand, &c., a stock of 62,964 bales.

The week opened with quite a moderate demand, and the sales up to Tuesday evening were confined to about 3400 bales, of which 700 on Saturday, 1100 on Monday, and 1600 on Tuesday. A good enquiry sprang upon on Wednesday, and resulted in sales of 3000 bales, the greater part of which constituted stock of Orleans and very full prices obtained, the business fell off to 1000 bales. To day about 2000 bales have been sold, and the market is dull for the 2d time this week, prices being full for most qualities, and generally Tuesday at our quotations, as follow:

TO PERSONS WEARING SPECTACLES

There is but one kind of good spectacle glasses, whether made of ordinary or pebble glasses, it is those which are well finished, and pure, and suit the eye without fatiguing them.

I am satisfied that physicians, and competent persons generally, consider as above expressed opts tem
