COMMERCIAL.

Office of the Bee, Tuesday, February 11, 1859.

Business in a fair extent has been transacted in our general market during the past week, though we are still without an active demand to report for the leading articles of domestic production. In fact, no other market can be found where there has been so little to notice in our report, but at a considerable decline in prices. Sugar and Molasses have also declined, with a good demand at the reduction. Flour has given way to prices, and the transactions have been of a moderate character. Corn is without material change. Provisions of all kinds remain firm, with a fair demand for most descriptions. Freights have been dull and rather lower, while Exchange have been firm.

On Tuesday morning we published the Asia's advices, embracing the Liverpool dates to the 29th ult. They reported a heavy and drooping Cotton market, closing at a decline of 1-16c on some qualities, with sales of 64 000 bales for the week, including 2600 for export and 500 on speculation. At Havre a pressure to sell prevailed, and prices had declined 2 francs. The stock at Liverpool was stated at 846,000 bales, of which 372,000 were American.

COTTON—Arrived since the 4th instant, 86,466 bales. Cleared in the same time for Liverpool 6057, Havre 6732, Bremen 2677, Barcelona 1566, Santander 525, Trieste 544, Tampico 1, Providence, R. I. 649, Boston 6282, New York 748, Philadelphia 1813, Baltimore 1566, and New Orleans 1,000 bales. Stock together, 32,987 bales, making an addition to stock of 32,481 bales, and leaving on hand, including all kinds compared and cleared this day, a stock of 826,994 bales.

The week opened with a heavy and drooping Cotton market, with advices from Europe erratic, and few buyers disposed to operate even at reduced figures before the arrival of the Asia's accounts, which came through on Monday night. The sales of the week have embraced some 50,500 bales, of which 7000 on Monday, 5000 on Tuesday, 13,500 on Wednesday, 11,500 on Thursday, and 11,000 to day, the market closing at the range of our quotations, which stop a de line of ¼@¾c on the middling and lower grades, and ¾c ₱ lb for the better qualities.
