OFFICE, 83 CHARTRES ST.

THE DAILY BEE.

SATURDAY MORNING, FEB. 26.

CUBA.

It may be almost deemed certain that Congress will adjourn without acting on the Cuba question, and that the several bills and resolutions relating to the subject will be thrown amongst the unfinished business of the session, to be considered or not, as may suit the convenience and pleasure of the next Congress. Except in one aspect of the case, there is not perhaps a vast amount of regret to be felt at this defeasance. As for the Slidell project of placing the $30,000 at the disposal of the Executive, there never was much chance of its passage, because the majority in Congress do not repose in Mr. BUCHANAN the amount of confidence requisite to induce them to devolve upon him so important a trust. Besides, it is believed that the money cannot be successfully used in promoting the purchase of Cuba. The indignant publicity given to the views of the United States Government has so aroused the pride and excited the susceptibility of Spain, that we are of opinion she would reject an offer of ten times that sum. We cannot, with all our willingness to behold Cuba part and parcel of the American confederacy, discover the slightest prospect of accomplishing the object by any honorable means for the present. Spain will not sell. The argument that the thirty millions might be applied towards securing the favor of various influential functionaries in the kingdom, and of thus persuading the Cortes and the crown to look upon the proposal with less disfavor, does not strike us as valid or plausible. Apart from the reflection that this species of low intrigue and subornation is dishonorable and unworthy a great and enlightened nation, there is not a scintilla or evidence to show that it can be successfully practised. We are far from affirming the incorruptibility of Spanish ministers; but we hold that in the excited condition of the public mind in Spain, and with the very distinct expression of aversion to every project of transfer manifested by the press and the people, and their representatives, no statesman whose influence would be worth purchasing would venture to incur the odium and reprobation to which he would be exposed by advocating the offer of the United States. For what other purpose can the thirty millions be wanted? or is it to be supposed that Congress will agree to vote that large amount without positive assurance of the way in which it will be disbursed? If there is a mystery in the diplomacy of the White House on this point, Mr. BUCHANAN will have to reveal it, or be content to dispense with the thirty millions, for Congress will not trust his naked guarantee.

We think very differently, however, of Senator MASON's substitute, which simply authorizes the President to negotiate for the sale of Cuba. This is a resolution that ought to pass. It is conceded on all sides that the people of the United States are in favor of the acquisition of Cuba. Some desire it as an important geographical and strategical position which will add immensely to our defensive capacity; others yearn for it as a means of strengthening the South: others in order completely to suppress the slave trade, and yet others simply from the ambition of witnessing territorial expansion. A simple expression of sentiment on the subject should consequently encounter no opposition whatever, and yet we fear that there will be found schemers enough either to talk Mr. MASON's resolution to death, or to place it where it will not be reached during the few remaining days of the session. Should Congress adjourn *sine die* without acting at all on the Cuba question, the journals of Havana and Madrid will exhibit the fact entirely to the hostility of the people of the United States to the project, or paradventure to the terrors which the puissant wrath of Spain had inspired in our minds.

The policy of the Administration touching Cuba has evidently been faulty. As Mr. BANCROFT DAVIS says, there has been too much talk and too little action. Openly to tell Spain in the message that we want Cuba, and must have it, and that we are willing to pay largely for it, was about the most effective means that could have been devised of defeating our object. The whole tenor of the debate in the Senate is calculated to soften the obstinacy of Spain, and to strengthen her traditional aversion to part with her possessions.

DR. HALE'S CALIFORNIA EXPERIMENT.—This grand demonstration of the amazing phenomena of Electro Biology was performed for the second time on Thursday evening, at Concert Hall. The subjects were six in number, and the result afforded incontrovertible evidence of the wondrous psycological changes produced by the new science. On no occasion Dr. HALE varied the experiment in a most interesting and singular manner. On bringing back his subjects from California, Dr. HALE purchased their imaginary gold with imaginary checks of $50,000 each. He subsequently removed the influence from all the subjects except two, viz: Messrs. LAWLER and SMITH, who were disposed under the immovable conviction that they were possessors jointly of the snug little sum of $100,000, payable in checks upon the Crescent City Bank.

Accordingly, yesterday morning both gentlemen repaired to the bank and demanded payment. The former was assured that the amount was too heavy to be taken away except on a dray, and he went off seeking a vehicle. In the course of the day he was met by Dr. HALE, and restored to his normal condition. Mr. SMITH, on applying to the bank, was coolly told that Dr. HALE had no funds there, whereupon he rushed back to Concert Hall, where the Doctor was at the time, and unsheathing a sword cane rushed at Dr. H. with the utmost fury. The Doctor saved himself by nimbly leaping into an adjoining apartment, and closing the door. After a few minutes the gentlemen in the Hall succeeded in disarming Mr. SMITH, and the Doctor coming out of his shelter took advantage of a pliant moment, and amazed Mr. SMITH by dissipating the delusion under which he was laboring. The bystanders were utterly confounded at the experiment, and scepticism itself was silenced.

THE SECOND GRAND DOUBLE CONCERT at Armory Hall by the Musard Orchestra and solo players, and the Laborde and Poinsot Chenard troupe of vocalists, on the 15th evening, and with doubtless attract another numerous and brilliant auditory. As this will be the last of these rare musical entertainments, it will be a reproach to the taste of our citizens if they fail to patronize it with more than their wonted liberality.

On this occasion novelties will be given from the orchestra of the Creation. The entire programme is remarkably choice and varied. Look at it!

FLORIDA YELLOW PINE LUMBER.—Messrs. MURRAY & CO. give notice through our columns that their business is confined legitimately to the Florida Yellow Pine Lumber Yard, corner Cedar and Julia streets, New Basin. Orders may be left at box No. 86, Mechanics and Dealers' Exchange, 19 St. Charles street. Every species of lumber necessary for building purposes is constantly kept on hand by Messrs. T. MURRAY & CO.

JEWESS still dispenses gifts at No. 97 Camp street. For the investment of a small amount in a beautiful porcelain cup and saucer worth the price asked, the purchaser is certain to obtain a gift varying in value from one to one hundred dollars. Some of the most beautiful fancy articles, crystal decanters, fruit bowls, &c., &c., have been won in this way. All who can spare two dollars and a half can try their fortune.

PROFESSOR RICHARDS.—This gentleman continues to teach the French and other languages at his Academy, No. 99 Gravier street, by a new system, in which the eye, ear and voice are intrigued as principal agents of communication. He invites the sceptical to try a few lessons gratuitous in evidence of the excellence of his system.

One of the most recent and striking triumphs of stereoscopic art is mentioned by the *New York Tribune*. The moon, it is well known, always presents the same side to us. But there are oscillations sufficient to produce from month to month a stereoscopic effect. Mr. Lewis H. Rutherford, of the Second avenue, with his powerful telescope, has succeeded in obtaining photographs of a three-quarters moon, from which have been produced some very fine stereoscopic objects, bringing out the roundness of the moon admirably, and giving a vivid picture of the volcanic desolation which makes the moon a puzzle of a world. A stereoscopic picture of the full moon is nearly ready, and will be out in a week.

All kinds of distinguished strangers, of the ci[ty] and country, Mr. Edwards Richards, Jr., [has] opened a splendid saloon, combining the [ele]gance and comfort of a first class establishment, [with] the best of attendance, and the choicest of [wi]nes, liquors, segars, &c. Mr. Richards is [a] gentleman of the old school, and will [be] found at the same old stand, and ready [and] willing to receive his friends. Mr. Edwards O'Brien, the recognized manager, is [also] to be found there, attending to [his] duties to look up a first class hand.—*Boston Post.*

By Telegraph.

[TELEGRAPHED TO THE NEW ORLEANS BEE.]

FURTHER BY THE CANADA.

A FURTHER ADVANCE IN COTTON

LATEST FROM LIVERPOOL

LIVERPOOL, Saturday Noon, February 12.—The estimated sales of Cotton to-day are set down at 15,000 bales.

The sales on speculation and for exportation are estimated at 5000 bales.

There is an active demand for good qualities of Cotton, and Middling Orleans has advanced 1-16 on the quotations of Friday evening. Middling Orleans closed at 7d.

LONDON MONEY MARKET.

LONDON, February 12.—The London Money market has experienced little change during the week.

The funds are somewhat depressed to-day, and Consols closed with less firmness.

BULLION IN THE BANK.

The bullion in the Bank of England has increased £167,000 during the week.

STOCK OF COTTON AT LIVERPOOL.

LIVERPOOL, February 12.—The stock of Cotton at Liverpool is 397,500 bales.

Of this amount, 335,000 bales are of American production.

LIVERPOOL BREADSTUFFS MARKET.

LIVERPOOL, February 12.—The Flour market closed dull, and quotations are nominal, closing at 10 to 12s. per cental.

Wheat closed very dull; Western Red 8s 9d to 9s 3d; White 8s 7d to 11s 9d per cental. Yellow and Mixed Corn 5s 10d to 6s 2d per cental; White Corn 7s to 7s 4d.

PROVISION MARKET.

The Liverpool Provision market generally closed firm. Lard closed firm but quiet at 60 to 61s.

PRODUCE MARKET.

Sugar closed dull and had declined 6d. during the week. Coffee closed dull. Rice closed quiet.

LOUISIANA LEGISLATURE—THE APPORTIONMENT BILL.

BATON ROUGE, February 25.—The House today concurred in the Senate's amendments to the Apportionment bill, so far as the question of Representation in the Senate is concerned, but refused concurrence in the Senate's amendments on the Senatorial apportionment.

The Senate insists upon all its amendments, and the House is equally firm in refusing to concur.

A new Committee of Conference has been appointed by the House, consisting of Messrs. Poll, Dickey, Hodge, Haynes and Hynes.

STEAMBOATS PASSING.

VICKSBURG, February 25.—The steamer Universe passed down at 12 and the Prince at 5 o'clock this morning.

STATE OF THE RIVERS.

LOUISVILLE, February 25.—The Ohio river at this point is falling slowly this morning, with thirty-two feet water on the falls.

The steamship Cahawba, Capt. Bulloch, leaves this morning at 8 o'clock for New York via Havana, with $100,000 in specie, and the following passengers:

FOR NEW YORK.—Mr Gerding, Mrs Handibre, Thos Dixon, J A Kuntz and servant, W S Hatch, lady and child, Mrs Bowman, Mrs Wm Bowman, Mrs Wm Smith, C Hoffman, Mrs Sharp and 2 children, Mrs Dodge, L Eble, A Steerage.

Up to the time of departure of the Tennessee, her express had not arrived from Mexico.

The debts of the different nations and States are estimated in the European States at more than ninety-nine hundred and eighty millions of dollars—$9,980,873,768. The most deeply indebted nations are: Great Britain, $3,678,562,740; France, $1,606,386,493; Austria, $1,309,420,000; Russia, $1,041,414,123; Spain, $732,205,548; Holland, $450,386,337, and Prussia, Portugal, Sardinia, Belgium and Denmark, severally, owe more than one hundred millions. The Central and South American States owe $308,696,014, of which Mexico is set down for $135,000,247; Brazil, $77,120,000; Peru, $46,431,387; Venezuela, $22,865,620, and the others, various sums from one-quarter of a million to fifteen millions of dollars.

Some fun-loving fellows in Newcastle, Pa., recently started a society there which purported to be a lodge of the Sons of Malta. One of the initiated, however, exposed the whole concern. He states that, after being initiated, he signed what was represented to be the constitution of the order, but which turned out to be nothing more or less than an order for a keg of beer upon one of the town brewers. The club had been indulging in lager, at the expense of the new members, for several weeks.

The annexed particulars of the loss of the steamer Comet are taken from the Memphis *Eagle* of the 22d inst.:

Shortly after the steamer Comet, Captain Kennett, had left this port, on Saturday night, and when in Mississippi bend, at 12 o'clock, low this city, she encountered a heavy gale of wind and was ordered by the captain to be made fast at the landing, as the appearance was the fury of the storm that her fastenings were parted, and she was driven out into the current and partially shivered to pieces, and sunk to the bottom in a very few moments. So unexpectedly did this disaster occur that but few provisions had been made against the imminent perils to which they were exposed. Eight or ten lives are known to have been lost.

The following is the list of persons drowned: John Pope, first clerk; Job H. M., cabin passenger, Harrisburg, Ark.; John Clark, second cook, Memphis; Joseph Howard, deck hand; Samuel Hardeman, deck hand; a little girl, name not known, daughter of a deck passenger. There were also two or three cabin passengers, whose names the officers of the boat did not remember. The following are the names of the officers and crew saved, as far as we have been able to learn them: Captain Kennett, F. Scott, second clerk; J. H. Hutchinson, third clerk; Henderson Brooks, pilot; James Clark, engineer; G. Miller, watchman; Thomas Cole, steward, and John Cole, pantryman, both of Nashville; Charles Jones, second steward; William James and John Fitzpatrick, berth makers, and Pegg Gwynn, the cook's assistant. Other lives were saved, but we have not been able to learn their names.

Shortly after the occurrence of this and disaster, the steamer Victoria, bound down, and the Virginia Belle, bound up, arrived and did much to relieve the suffering condition of the passengers and crew. The Victoria took a part of the passengers to Helena, and the crew returned to that city by the Virginia Belle. Several officers and crew of the Comet were also saved, but we have not been able to learn their names.

The following are the names of the officers and crew of the Comet:

FROM MEMPHIS.—General Urrego and servant, Mrs Morriega, Lieut Wainwright, U S N, Dr Soaing, A Bolmaceda, Mr Bourman, Mr Dolor, P Crovize, M Dolas and 2, Eble—in steerage.

Up to the time of departure of the Tennessee, her express had not arrived from Mexico.

Starving Pauper Children to Death.

One of the most touching episodes in Dickens's works is the story of the charity children who were boarded out at so much a week, and drugged, starved, beaten and abused by the women who had charge of them. Perhaps every American reader has congratulated himself that in this country no such enormities could be practised. Yet something very much like it has just come to light in New York. In searching a tenement house for stolen goods, the following terrible developments were made:

In the course of their examination of the premises, Messrs. Barker and Stokely found three little cradles in a dark bedroom, and drawing them out, in 1851, discovered that they contained three infants. The little creatures were covered with filth, and seemed to have been left to suffer for several days. The bedclothes which they lay were rotten with foulness, and the rags which covered them but little better. Each of the babies was quiet and motionless—dead. They did not have strength enough to cry. If you pinched them or rolled them over they gave no more sign than a stone. The two oldest were said to be 28 months, the youngest 13. Every one of them was absolutely a living skeleton, and the largest would not weigh more than a healthy, robust babe of three months. Their little limbs were not much over an inch in diameter, and the body was not more than a shadowy arms were about the size of their bird's claws. One of the wretched creatures lay upon its side, with its head part of its left arm in its mouth, from which it appeared to draw its principal nutriment. During the days and months in which it had lain in this position, it had gnawed away at the limb until the flesh had grown up to the size and shape and appearance of a large, raw nipple. The other two children were bigged, as usual, to keep them quiet, and their great, wide, staring eyes, which were the only signs of life which they showed to idiots. It was a painful, yes, a horrible sight to witness—these three suffering and helpless little old people.

Who are these, in Heaven's name?" inquired the gentlemen. "Please, sir, they be the children misses takes to nurse for the Almshouse, and they be all blind as a book after 'em," replied a slatternly looking girl. "What does she get for taking care of them?" they asked. "Six dollars a month, every week, sir;" and then the girl explained that Mrs. Cullough was one of the out-door nurses employed by the Almshouse authorities, and showed the gentlemen the nice rolls of diaper, flannelling, muslins, and bunches of warm stockings which the Almshouse people furnished for their comfort. The girl said that this supply was renewed every three months. Yet these children were naked, and covered up with old, filthy rags.

"Does any visitor come to see the children?" "Oh, yes, sir," said the girl; "Mrs. Frost comes once a month, and Mr. Maloney, one of the Guy'ners, he comes here often, too."

When our reporter called at the house in company with Mr. Stokely, on Thursday, he found that the woman which Mr. Barker had employed to clean out the children, in the absence of Mrs. Cullough, had stirred around and put the little mannikins into clean dresses. Upon inquiring what from the powers that be, the two children of Mrs. Cullough were left as dirty and ragged as usual, Mr. Barker replied, with a shrug, that this woman is a good nurse after all—see, she neglects her own children to care for ours."

But the cotton frocks could not hide the wasted skeletons of the poor babies, and in a few weeks they will in all probability be duly recorded as having died of marasmus. How many of the 13,000 children in the city are slowly murdered by misusage and neglect in this same cruel way?

Yesterday the Coroner's officers removed the children, when it transpired that Mrs. Cullough had been drawing pay for *four* children. The fourth child, Mrs. Cullough says, was taken some weeks ago by a friend in Third avenue, who had lost her own child and wished for this one, which looked so much like it, to supply its place.

UNMITIGATED VILLAINY.—The Augusta *Constitutionalist* of yesterday says:

Some persons availed themselves of the occasion presented by the Ladies' Mount Vernon Fair, the past week, to practice some of the little arts which eventually consign those who indulge in them to not very comfortable quarters in a penitentiary. One of M. B. Dyer's gas fixture cards (printed in imitation of a bank dollar bill) was tendered in one of the young ladies on that occasion, in payment for articles purchased there, and for the card received back the whole purchased as well as good money in change. A dollar bill of the Union Bank in this city, on which was pasted large figure 5's, to deceive the eye as to the value of the bill, was palmed off as a five dollar bill.

ORIENTAL THEOLOGY.—The Queen of Oude, taking offense at the recent Indian proclamation of the Queen of England, has issued a counter-proclamation, in which, among other subjects, the dusky lady refers to the generally-accepted Christian theology, and finds the same stumbling-block over which the Unitarians trip—the doctrine of the Trinity. She observes, in this connection, that "that religion is the true one that recognizes but a single God, and sees no evidence in more than One. But when there are three Gods in one religion, neither the Mohammedans, the Hindoos, the Jews, the Sun-worshippers, nor even the Fire-worshippers, can believe it to be true."

MURDER OF TWO WHITE MEN AND CAPTURE OF THEIR WIVES IN ARIZONA.—An Arizona correspondent of the *New York Times*, under date of January 25th, writes as follows:

The Apaches have just commenced killing whites. This morning at the early hour of 10, they killed two white men at Stockton Springs, twenty miles from this post, and carried their wives and family off captive. The two men killed were Sergeants Kelly and Berry, who had just been discharged from the 1st Dragoons and were on their way into the States with their families. They were accompanied by Sergeant Ryan and family, who was on his way to the States on furlough. Ryan made his escape, and came into this post with the sad tidings of the capture. Several wagons were stolen from the post the same night, 12 in all. Lieut. Bryan, with forty dragoons, left here this evening in pursuit. The Apaches have been very bold and daring in their depredations of late, and it is generally known to the citizens of this country that they are receiving many things from the Mexicans in exchange for stolen property. Unless the Mexicans are severely punished for their conduct in this matter, the Apaches will never be subdued. Lieut. Bryan will be accompanied by Lieut. Whipple, who is now on his way to this post from Fort Buchanan, with a detachment of dragoons.

CONGRESS.

WASHINGTON, February 18.—*Senate.*—The morning hour was consumed in unimportant business.

A message was received from the President asking authority to use the army and navy to protect the lives and property of Americans while passing through Central America, by the transit routes. The message was discussed by Messrs. Mason, Clingman, Douglas, Benjamin and Davis in its favor, and Messrs. Seward and Fessenden in opposition.

House.—A bill was passed authorizing the Secretary of War to sell the Government barracks at Savannah, at not less than $45,000.

The Army Appropriation bill was resumed in Committee of the Whole. The question of withholding from General Scott increased pay under the brevet title of Lieutenant-General formed the principal point of debate. An amendment cutting it off was voted down. The committee agreed to curtail expenditures in the Quartermaster's department $400,000.

A resolution was adopted for the appointment of a committee of five to investigate the truth of a charge made by the Washington correspondent of the New York *Times* that the Committee on Accounts have been guilty of receiving money for urging the passage of bills before that committee.

[The message of the President above referred to earnestly recommends that Congress pass an act authorizing him to employ the land and naval forces of the Government to prevent the Transit from being obstructed or closed by violence, lawless violence, to which the Isthmus is exposed. He speaks of the Central American republics as ever being in a state of war, and frequently confounding the property of American citizens; and that, under existing circumstances, our naval officers can do nothing but remonstrate. As the Constitution has confided the war-making power to Congress, he can do nothing without their sanction.]

TEXAS.

By the arrival of the Tennessee we have received our files of Texas papers to the 22d instant inclusive. They contain little of interest. The Houston *Telegraph* of the 18th says:

Our accounts of railroad operations are, as usual, encouraging and progressive. We learn that a new steamer is soon to be added to connect the southern terminus of the G. H. and H. road with Galveston, until which the road will not be open for business. Track-laying on the Sugar road is coming on well in the neighborhood of fifteen miles from Houston. This makes fifty miles of railroad now under contract with this city. The Washington county road is being laid from Hempstead to the Brazos. A large addition to the force on the Central road has been employed and the work is being pushed ahead as fast as possible. It is said that contracts are under negotiation, if not already made, to put the B. B. and C. road through to Lagrange. These things are all exceedingly encouraging and satisfactory.

We learn that a subscription of about thirteen thousand dollars has been secured in Galveston for the western division of the Sugar road. This subscription is especially applicable, we believe, to the bridging of the San Bernard.

We understand that a contract for building eighty-two and one-half miles of the Central road has been made with Col. H. P. Adams, of New York, a gentleman of ample means, and that he has already gone to work with a hundred hands. This, including Mr. Bement's share, now in an advanced stage of completion, makes one hundred and fifteen miles beyond Hempstead, and one hundred and sixty-five miles from Houston, taking the road far up towards the wheat region.

A negro boy, about sixteen years of age, named Peter, was hung at Clarksville, on the 27th ult., for the murder of his mistress, a Mrs. Valentine.

GRIMES.—A correspondent of the *Central Texian*, writing from Retreat, in that county, says:

A few mornings since one of our old friends and neighbors, well known to yourself, was blessed with a big beautiful little urchins, all at the same birth, and weighing six and three-quarter pounds each, and now big fair to do well.

WALKER.—The Huntsville *Item* of the 12th says that the peach trees there are already in bloom—a sign, the old women say, of a sickly summer.

Starving Pauper Children to Death.

One of the most touching episodes in Dickens's works is the story of the charity children who were boarded out at so much a week, and drugged, starved, beaten and abused by the women who had charge of them. Perhaps every American reader has congratulated himself that in this country no such enormities could be practised. Yet something very much like it has just come to light in New York. In searching a tenement house for stolen goods, the following terrible developments were made:

In the course of their examination of the premises, Messrs. Barker and Stokely found three little cradles in a dark bedroom, and drawing them out, in 1851, discovered that they contained three infants. The little creatures were covered with filth, and seemed to have been left to suffer for several days. The bedclothes which they lay were rotten with foulness, and the rags which covered them but little better. Each of the babies was quiet and motionless—dead. They did not have strength enough to cry. If you pinched them or rolled them over they gave no more sign than a stone. The two oldest were said to be 28 months, the youngest 13. Every one of them was absolutely a living skeleton, and the largest would not weigh more than a healthy, robust babe of three months. Their little limbs were not much over an inch in diameter, and the body was not more than a shadowy arms were about the size of their bird's claws. One of the wretched creatures lay upon its side, with its head part of its left arm in its mouth, from which it appeared to draw its principal nutriment. During the days and months in which it had lain in this position, it had gnawed away at the limb until the flesh had grown up to the size and shape and appearance of a large, raw nipple. The other two children were bigged, as usual, to keep them quiet, and their great, wide, staring eyes, which were the only signs of life which they showed to idiots. It was a painful, yes, a horrible sight to witness—these three suffering and helpless little old people.

Alfred Marks, Esq., says:

"My wife has been sorely afflicted with Dyspepsia for the last year. During this time she had used every medicine, which seemed to aggravate rather than remove the disease, that we almost despaired of her recovery. Living in the country, we had not the advantage of the best of medical counsel, yet each day she seemed to be more enfeebled. With some difficulty, I succeeded by her to take your HOLLAND BITTERS, which, I am happy to state, has completely cured her.

Liver Complaint, Dyspepsia, &c., are by coming very prevalent among our citizens. We would advise all who may be afflicted with these distressing complaints to get at once and get some of McLane's vermifuge Liver Pills. It is just the remedy to cure all diseases of the Liver and Stomach. Try it. See advertisement.

Heoltzway's Pills.—When the flesh wastes, the strength declines, the liver becomes torpid, and the bowels irregular, indigestion is the primary cause. In all such cases Holloway's Pills are an infallible, never-failing cure.

☞Look out for imitations of Lea & Perrins' Worcestershire Sauce. See advertisement of John Duncan & Sons.

The particular attention of city and country buyers is called to the sale of 60 bales and cases French Jaconets and Printed Lawns, together with a large assortment of Embroideries, Collars, &c., by Vincent & Co., THIS DAY, at 10 o'clock, at their auction rooms, No. 25 Customhouse street. Terms liberal at sale.

[COMMUNICATED.]

Useful to the Human Race.

To the Editors of the Bee:

When the Bitters prepared by Mr. A. A. PEYCHAUD become thoroughly known, when their virtues, unlike charlatan boasts, are felt and appreciated, they will be sought for by the million. Their action upon the system is mild, but effectual. By restoring the secretory functions to the tone, the PERUVIAN SYRUP gives the digestive organs the power to perform their functions in the animal economy. Its general influence is to promote a healthy process of digestion, by which the food is converted into chyle, and by
