SHIP VIRGINIA

Captain Womack, of the ship Westminster, from Bordeaux, reports last on the 14th instant, ten miles East of Fort Pulaski, with a fine breeze at the time of leaving—at the mouth of the river, outs shoal time as marked on the chart—but the ship makes out her draft of water, drawing 21 feet 6 inches, and she must get her clear

The ship is a fine, stout new ship about 1m City Island, Capt. Womack went out in by standing Same day, eight miles East of Fort Pulaski, and was at the time apparently nearly, much—inside, consequently somewhat to the Southward of the usual track with the most favorable wind and weather, and a consequent fine run—but a fortnight of ship appeared to have been long out of sight of land, and was in good position
